EVECHE DU GOLFE ST.LAURENT

Comté de Saguenay, P.Q.

LA CHANCELLERIE

Baie Comeau I septembre 1950.

Rev. Père O. Plourde, O.M.I.,
Ottawa, Ontario.

Mon Révérend Père,

Je suis allé à Sept-Iles pour les fêtes jubilaires du Père Décarie.

J'en ai profité pour voir les travaux de l'école. Tout va bien et j'ai été émerveillé de ce que sera cette école. Je ne saurais trop dire ma reconnaissance au Département des Affaires Indiennes.

Seulement j'ai constaté une chose que je voudrais immédiatement porter à l'attention du département pour éviter des ennuis dans l'avenir.

1) Il n'y aura qu'une seule fournaise pour chauffer cette école. C'est suffisant, mais ce n'est pas prudent à cette distance. Ne vaudrait-il pas mieux en placer une supplémentaire en cas d'accident à la première? C'est ce que j'ai fait ici à l'évêché. Une fournaise est suffisante, mais j'en ai une autre en cas d'accident.

2) Le chauffage est prévu pour le charbon. D'après les renseignements que j'ai pu recueillir, il en coutera $40.00 la tonne pour avoir du charbon à cet endroit. Ensuite il faudra un expert pour chauffer ces fournaises. Il y a à Sept-Iles deux compagnies d'huile avec grands réservoirs. L'huile serait livrée sur demande au cours de l'hiver tout comme l'été. Il en couterait à peu près la moitié du prix pour chauffer la maison. Enfin vous supprimez de cette façon les ennuis de l'entreposage du charbon ce qui est toujours un problème. À l'hôpital du Havre St. Pierre, on a dû abandonner le charbon pour prendre l'huile, parce que le charbon chauffait dans les soutes, ce qui occasionnait de grosses pertes et des ennuis à n'en plus finir. Il n'y a pas de dépots d'huile au Havre et les religieuses doivent emmagasiner de grosses provisions en barils à l'automne et malgré tout elles réalisent une économie.

3) L'eau chaude nécessaire à la maison sera réchauffée par les fournaises. C'est très bien en hiver. Mais en été pour avoir de l'eau chaude il faudra chauffer ces grosses fournaises. Il serait beaucoup plus économique et pratique d'installer un chauffe eau automatique à l'huile. C'est ce qui se fait partout dans ces grandes maisons.

Si vous pouvez porter ces observations à Mr Neary, elles pourraient servir à mettre sur pied une organisation plus économique et plus rationnelle.

Il serait bon cependant qu'une décision soit prise le plus tôt possible avant que les travaux soient trop avancés.

Rev. Father O. Plourde, O.M.I.,

Reverend Father:-

I went to Seven Islands for the jubilee celebrations in honour of Father Décarie.

I took the opportunity to see the school which is under construction. Everything is going well and I was quite taken with what this school promises to be. I am at a loss to adequately express my gratitude to the Department of Indian Affairs.

However, I notice something that I would like to bring immediately to the notice of the Department, in order to avoid future difficulties.

1) There will be only one furnace to heat this school. It is sufficient; but it is not safe at this distance. Would it not be better to put in an extra one, in case of breakdown to the first one? I did this in the bishop's palace, here. One furnace is enough; but I have another in case of accident.

2) The fuel is to be coal. According to the information I was able to gather, it will cost $40 a ton to obtain coal at that place. They will also need an expert to run the furnaces. There are in Seven Islands two fuel oil companies with large tanks. The oil would be delivered on request in winter as in summer. It would cost about half as much to heat the building and you would thus eliminate the difficulty of storing the coal, which is always a problem. The hospital in Havre St. Pierre had to change from coal to oil heating because the coal used to heat in the bins, causing great loss and never-ending trouble. As there are no oil tanks in Havre St. Pierre, the Sisters have to store large supplies in barrels in the fall; but they nevertheless make a saving.

3) The hot water needed in the school will be heated by the furnaces. That goes very well in the winter. But to have hot water in summer they will have to fire those large furnaces. It would be much more economical and practical to instal an automatic oil water-heater. That is being done everywhere in such large buildings.

If you could bring these observations to the attention of Mr. Neary, it might help to set up an organization along more economical and practical lines.

It would be wise also that a decision be taken as soon as possible, before work on the building is too far advanced.

I know that a "Stoker" has already been purchased; but the same company also sells oil burners and would easily make the exchange.

Yours very truly,

N.A. Labrie, C.J.M.

Dear Mr. Amyot:

Indian Agency, Quebec.

We are forwarding herewith for your use and guidance (1) information and instructions in connection with the work and (2) forms for reports and progress estimates.

Under 'information to be furnished by the contractor', please obtain and forward immediately the classification of costs. These figures have to be used in the first column of our progress estimates so that, until this is submitted, no estimate may be sent in for payment - see letter of August 21st, 1950.

The item 'details of construction' refers to structural steel drawings, etc. You will notice that several of the items, as they become applicable, will require definite action. The remaining ones will be left to your judgment to follow up, and your statement will be acceptable to this Department.

Under 'responsibility of Supervising Officer', the item regarding materials requires careful handling. Advances should be restricted to minimum.

Under 'progress estimates - procedure', the item regarding the rough draft of estimate will save time if there is co-operation between the contractor and yourself. The statutory declaration with estimates is a requirement of Treasury and must be attached to each progress estimate submitted.

Regarding the progress estimate form, the first column must contain the figures to be furnished in the classification of costs, and those figures are used on all succeeding estimates.

Dear Mr. Hoffke:

Re: Fort Alexander Indian Residential School - Manitoba.

This will confirm a telephone conversation with the writer regarding the above, during which you were requested to prepare a specification of kitchen and laundry equipment in accordance with the layout and listing shown on Sheet No. 3 of the working drawings.

It is understood that the type and position of all kitchen units was worked out in association with dietetic officers of the Department of National Health and Welfare, and that the arrangement shown on the drawings indicates equipment that can be conveniently installed in the space available. In this connection, a larger scale dimensioned plan of the main floor area affected should be prepared to accompany the request for tenders, and from which the successful bidder will lay out his shop drawings. This office should receive 12 prints of the drawing and 12 copies of the specification for the use of our Supervising Architect.

Your specification should be in such a form that the usual Government request for tenders will not refer to a particular manufacturer, and must cover the submission to the Department of shop drawings for checking by yourself. These shop drawings must give exact detail for base anchorage, electric and water connections, as well as connection to waste lines where required.

When your drawing and specification is completed, kindly contact this office and arrangements will be made to furnish the Departmental Purchasing Agent with data to use in calling for competitive tenders.

MEMORANDUM TO MR. BUCK.

Re: Seven Islands Indian Residential School, Que.

Mr. Walker telephoned from Quebec City, September 19th, asking about the drains and septic tank for the above building. An explanation could not be given in full over the telephone. He arranged with Mr. Comerford of the Tribec Company, who is the sub-contractor for plumbing, heating and electrical work, to be in Ottawa to discuss this matter on September 20th.

On the afternoon of September 20th, Mr. Hoffke came over to see Mr. Comerford in the office here. Points discussed were:

(a) 6" drain leading from heating plant to sump;
(b) the long runs of drains through the building to the other sump; and
(c) the drains to the septic tank.

Mr. Hoffke decided there should be no change in the arrangement except that the drain under the kitchen bakery and laundry could be moved nearer to the inside wall to give a more direct route, and drains under refrigerators re-routed to be more direct. A record is to be kept of the change so that our plans will be complete. An instruction is to be issued to the operators to flush out these drains once a month, using fire hose for the cleansing.

This sub-contractor wanted to give his opinion that the runs were too long for the amount of material to be carried, with not enough flushing water to cleanse the pipes. He stated that, from his experience, there might be clogging. He was thinking about his guarantees under the contract.

Mr. Comerford referred to the water supply, on which he has also submitted a tender to Resources and Development. Apparently the plan used does not show changed location of our building, and there is extra piping involved, which rightly should be paid by Mr. Tremblay, General Contractor. He had some further information relative to the source of water supply, and I sent him over to see Mr. Ross to give that information only. I told Mr. Ross that my action should not be misinterpreted, as information is always desirable in regard to any project.

The contractor's attention was called to the plumbing notes shown on bottom of drawing No. 2, which states foul water from WCs only are to empty into septic tank, remainder to empty to sumps.

MEMORANDUM TO MR. BOYD.

Re: Roofing - Seven Islands Indian Residential School, Quebec.

Mr. O'Brien of the Flintkote Company, has left a sample of their roofing and specifications for your perusal. He intimated that their material is on or near the job, but approval has not been given for the use of it. He will call you on Tuesday afternoon.

Mr. Moffke advises that this roofing probably will not stand, and he is not in favour of it, and asks you discuss this matter with him.

The specifications call for 5 ply tar and gravel roof, 20-year guarantee, using 15 pound felt. The Flintkote roofing is aluminum paint, 3 ply, 52 pound felt, with no tar or gravel. See their specification.

Mr. Moffke called me this morning to say that Tremblay had asked for permission, in view of the transportation difficulties, to change from the 5 ply tar and gravel roofing to cold process roofing (Flintkote), but this permission was not granted, and he was advised to adhere to the specification in its entirety.

Letters are on Mr. Moffke's file, and he advises that copies have been sent to you for the records.

OTTAWA, September 23, 1950.

MEMORANDUM TO THE DEPUTY MINISTER.

When tenders for construction of the Indian Residential School at Seven Islands Indian Agency, Quebec, were analysed, it was deemed advisable to find out if the lowest tenderer had the experience and the equipment necessary to undertake the work. This inquiry caused a delay in the preparation of documents, and also in the programme of work. Authority was granted by P.C. 2908 of 13 June, 1950, to enter into a fixed price contract with Mr. Lucien Tremblay of Portneuf, Quebec, for construction of the work.

Prior to the above date, authority was granted by P.C. 2419 of 12 May, 1950, to obtain the services of Mr. Gaston Amyot, M.R.A.I.C., Architect of Quebec, to provide continuous supervision of the construction work on the project on behalf of the Department. As every effort was being made to get the job started in order to take full advantage of the construction season, Mr. Amyot was instructed to obtain the services of a Clerk-of-Works to be resident near the job to provide constant superintendence.

The agreement with Mr. Amyot provides in part "Article 5 - Reimbursements: The Minister will reimburse the Architect for (a) the costs of transportation and personal living expenses incurred by the Architect and the Clerk-of-Works while travelling, in discharge of duties solely connected with the work. In case of mileage travelled for which convenient railway or motor bus transportation is not available, an allowance of eight cents ($0.08) per mile may be paid. The mileage allowances paid cover the entire cost to the [redacted] except bridge tolls and ferry charges. (b) the salary of Clerk-of-Works engaged and paid by the Architect provided that the Minister shall have approved of the engagement of such Clerk-of-Works as a necessity, and shall have approved of the salary rate to be paid."

Mr. Amyot, without prior approval, engaged and sent down a Clerk-of-Works to supervise the concrete work only, at rates and under conditions prevailing in that area; that part of the work is now completed and the duties of this temporary Clerk-of-Works have

ended. The services of Mr. Waller, a qualified engineer, can now be obtained as Clerk-of-Works, and he will remain at Seven Islands until completion of the work, and is willing to accept the same remuneration paid to the temporary Clerk-of-Works, i.e., $250.00 per month with living expenses of $60.00 (room and board), and transportation allowances.

Accounts submitted by Mr. Amyot for reimbursements under the agreement show that air travel has been used, as this is the only convenient means to make the journey to that location, and at very little extra cost.

In view of the isolated location of this work, and the difficulty of securing technical personnel, our Engineering and Construction Service consider that the interests of the Department will be well served by concurrence in the above arrangements and, therefore, recommend that (a) permission be granted to secure the services of Mr. Waller as Clerk-of-Works at the rates and under the conditions stated above, and (b) that air travel be allowed in place of the provision under the agreement.

Funds for the entire project are available in the Indian Affairs Education Vote 99, Estimates 1950-51.

CONDITIONS GENERALES

Documents contractuels

1. Les conventions, clauses, stipulations et conditions de la demande de soumission et des instructions générales aux soumissionnaires, et du présent devis (renfermant les conditions générales, les conditions du travail, le devis général et les devis des corps de métier) avec les dessins d'exécution et autres dessins de détails supplémentaires ou dessins d'atelier, et devis ou instructions spéciaux qui leur seront fournis de temps à autre, feront partie du présent contrat au même titre que s'ils étaient annexés audit contrat ou s'ils y étaient incorporés; de plus, si l'entrepreneur ou le Ministre négligeaient de les signer, ils engageraient néanmoins les deux parties aux présentes.

Interprétation des termes

2. Dans le présent contrat, les expressions suivantes, à moins que le contexte ne s'y oppose, auront le sens suivant:

'Entrepreneur' ou les autres termes s'y rapportant ou ayant la même portée désigneront et comprendront la partie ou les parties de première part désignées ou décrites au contrat, lesquelles sont conjointement et solidairement liées, ainsi que leurs exécuteurs testamentaires, administrateurs, successeurs ou ayants cause et chacun d'iceux.

'Sa Majesté' ou les autres termes s'y rapportant ou ayant la même signification désigneront et comprendront le Souverain régnant, ses successeurs ou ayants cause.

'Ministre' ou les autres termes s'y rapportant ou ayant la même portée désigneront et comprendront la personne occupant pour le moment le poste de ministre de la Citoyenneté et de l'Immigration ou agissant à ce titre, et comprendront la personne occupant pour le moment le poste de sous-ministre de la Citoyenneté et de l'Immigration ou agissant à ce titre.

'L'ingénieur en chef' ou les autres termes s'y rapportant ou ayant la même signification désigneront et comprendront la personne occupant le poste d'ingénieur en chef, Service du génie et de la construction, ministère de la Citoyenneté et de l'Immigration, ou agissant à ce titre.

'Ingénieur' ou les autres termes s'y rapportant ou ayant la même signification désigneront et comprendront l'architecte ou l'ingénieur ou toute personne ayant la direction immédiate de l'ouvrage, et agissant sous les ordres de l'ingénieur en chef.

'Ministère' ou les autres termes s'y rapportant ou ayant la même signification désigneront cette partie du ministère de la Citoyenneté et de l'Immigration du Canada, que l'ingénieur en chef est autorisé à représenter dans la mise à exécution de l'ouvrage.

'Ouvrage' ou 'ouvrages' ou les autres termes s'y rapportant ou ayant la même signification désigneront l'ensemble des travaux que l'entrepreneur sera tenu d'exécuter, ainsi que l'ensemble des matériaux et des choses qu'il devra fournir, comme il est décrit plus haut, sous l'empire du présent contrat.

Engagements du contrat

3. Tous et chacun des engagements et conventions stipulés au présent contrat, qui lient l'entrepreneur, lieront également ses exécuteurs testamentaires, administrateurs, curateurs, successeurs et ayants cause, et toutes et chacune des dispositions du présent contrat qui sont à l'avantage dudit entrepreneur seront également à l'avantage de ses exécuteurs testamentaires, administrateurs, curateurs, successeurs et ayants cause. Tous et chacun des engagements et conventions stipulés au présent contrat, qui lient Sa Majesté, lieront également ses successeurs et ayants cause, et toutes et chacune des dispositions du présent contrat qui sont à l'avantage de Sa Majesté seront également à l'avantage de ses successeurs et ayants cause.

Approbation finale des instructions

4. .Le présent contrat est fait et passé avec l'entente expresse que toutes instructions ou directions données, tous certificats émis ou toutes décisions prises par quiconque agit sous les ordres de l'ingénieur en chef, seront sujets à l'approbation de celui-ci, qui pourra les résilier, les modifier ou les changer, selon qu'il le jugera à propos:

TOUTEFOIS, tout acte de la part de l'ingénieur en chef, relativement au présent contrat ou en vertu d'icelui, ainsi que toutes instructions, tout ordre, tout certificat ou toute décision seront sujets à être approuvés, modifiés ou résiliés par le Ministre.

Cessions

5. L'entrepreneur ne devra pas transférer ou donner à location ce contrat sans que le consentement écrit du ministre ait été d'abord obtenu; il est entendu, toutefois, que (à moins que, dans quelque cas, le ministre ne s'y objecte) l'entrepreneur pourra donner à location telles parties du travail par les présentes stipulé qu'il est de coutume et d'usage de donner à location dans la construction de tels ouvrages, mais Sa Majesté ne devra, en aucune façon, être tenue entièrement et seule responsable du paiement de quelque argent dû à tout sous-entrepreneur, et l'entrepreneur devra être tenu responsable de l'exécution convenable de toute partie du travail par les présentes stipulé.

L'entrepreneur doit, avant la signature du contrat, examiner toutes les conditions régissant les travaux

6. Ce contrat est fait et passé entre l'entrepreneur et Sa Majesté sur l'entente expresse que l'entrepreneur a, avant l'exécution, examiné à sa satisfaction personnelle toutes choses et toutes conditions affectant les travaux à être exécutés, et la main-d'oeuvre et les matériaux à être fournis; que l'exécution de ce contrat par l'entrepreneur est fondée et basée sur son propre examen, information, et son jugement, et non sur quelque rapport, représentation ou information fait ou donné par, ou sur quelque information provenant de quantités, dimensions, épreuves, devis, plans, dessins ou profils faits, donnés ou fournis par Sa Majesté ou quelqu'un de ses officiers, employés ou agents; que de telles déclarations et telle représentation ou information, si elles sont faites, données ou fournies ainsi, ont été faites, données ou fournies uniquement pour l'information générale des soumissionnaires et ne sont, en aucune façon, autorisées ou garanties par Sa Majesté, ou en son nom; qu'aucune indemnité supplémentaire ne sera faite à l'entrepreneur par Sa Majesté pour quelque perte ou dommage subi comme conséquence de tels renseignements, ou à raison de telles déclarations, représentation ou information, incorrectes ou inexactes, ou pour toute difficultés imprévues, et l'entrepreneur n'aura aucune réclamation de ce chef.

Interprétation du contrat

7. Les diverses parties du présent contrat et le devis et les plans seront considérés concurremment pour s'interpréter les uns par les autres de façon à donner à chacun le sens qui résulte de l'acte entier. Si on découvrait que quelque chose de nécessaire à la bonne exécution et à l'achèvement d'une partie quelconque de l'ouvrage a été omise ou inexactement décrite, l'entrepreneur devra l'exécuter à ses frais comme si la chose avait été mentionnée ou exactement décrite, et la correction de telle omission ou erreur ne devra pas être considérée une addition ou une modification des travaux qui font l'objet du présent contrat.

Changements dans l'ouvrage

8. L'ingénieur pourra, par écrit, en tout temps avant l'acceptation finale des travaux, ordonner de faire tout ouvrage additionnel, ou de fournir des matériaux ou choses à être fait ou fournis, ou de mettre de côté toute ou quelque partie que ce soit des travaux, ou d'effectuer tous les changements qu'il pourra juger expédients, sur et au sujet des travaux qui font l'objet de ce contrat, ou les plans, les dimensions, le caractère, la quantité, la qualité, la description, la situation ou position des travaux, ou sur toutes ou chacune de leurs parties, ou sur les matériaux et choses qui s'y rapportent, ou qui y sont ou doivent y être employés, que l'effet de tels ordres soit ou ne soit pas d'augmenter ou de diminuer l'ouvrage à être fait ou la quantité des matériaux et des choses à être fournis ou le coût de l'exécution des travaux ou de la fourniture des matériaux, et l'ingénieur pourra, dans tel ordre, ou de temps en temps comme il le jugera à propos, spécifier le ou les délais dans lesquels chaque ordre, en tout ou en partie, devra être exécuté. L'entrepreneur devra se conformer à chacun de ces ordres de l'ingénieur. L'ingénieur devra décider d'une manière finale si tel ordre augmente ou diminue l'ouvrage à être exécuté, les matériaux ou choses à être fournis, le coût de l'exécution des travaux ou de la fourniture des matériaux, et devra aussi décider du montant à être payé ou à être déduit, selon le cas, relativement à ces ordres.

Comme condition suspensive du droit de l'entrepreneur au paiement par rapport à tout tel ordre de l'ingénieur, l'entrepreneur devra obtenir et produire l'ordre, par écrit, de l'ingénieur, et un certificat, par écrit, de l'ingénieur, faisant voir l'obéissance à tel ordre et fixant le montant à être payé ou déduit par rapport avec icelui.

Les présentes conventions s'appliquent à l'ouvrage supplémentaire

9. Toutes les clauses de ce contrat devront s'appliquer à tout changement, toute addition, toute dérogation, ou tout ouvrage supplémentaire, ainsi ordonnés par l'ingénieur, de la même manière, et au même point que les travaux faisant l'objet du présent contrat.

Nulle réclamation pour profits anticipés

10. Si, par suite de changement, modification ou omission dans les travaux, la quantité d'ouvrage à être exécutée devait être diminuée, ou si l'on élimine tout ou partie des travaux, aucune indemnité ne devra être demandée par l'entrepreneur pour toute perte de profits anticipés de ce chef.

Descriptions de l'ouvrage; ce que les item comprennent

11. La description ou les descriptions de l'ouvrage et des matériaux ou d'une ou des parties des travaux, désignées dans ou indiquées à ou couvertes par tout item ou tous item pour lesquels un ou des prix sont donnés dans le présent contrat, comprennent non seulement les espèces particulières de matériaux spécifiées dans le ou lesdits item, mais aussi toute et chaque espèce d'ouvrage, de main-d'oeuvre, d'outils, d'outillage, de matériaux, d'équipement, d'articles et choses que ce soit, nécessaires à l'exécution, l'achèvement et la livraison parfaite de ces parties respectives des travaux, et prêts à être utilisés, conformément aux plans, dessins et devis, à la satisfaction de l'ingénieur. Le ou lesdits prix devront couvrir non seulement les descriptions particulières d'ouvrage et de matériaux mentionnées aux présentes ou indiquées dans les plans, mais aussi toute et chaque espèce d'ouvrage, de main-d'oeuvre, d'outils, d'outillage, de matériaux, d'équipement, d'articles et choses que ce soit, nécessaires à l'exécution, l'achèvement et la livraison complète de l'ouvrage entier, tel que stipulé dans les présentes, prêts à être utilisés, à la satisfaction de l'ingénieur. En cas de malentendu au sujet de l'ouvrage, main-d'oeuvre, outils, outillage, matériaux, équipement, articles et choses ainsi compris ou couverts, la décision de l'ingénieur devra être finale et décisive sur ce point.

Bâtiments et bureaux temporaires

12. L'entrepreneur devra ériger et entretenir à ses propres frais, tout bâtiment temporaire requis pour l'ouvrage, ou les ouvriers, et devra fournir un bureau pour l'usage de l'ingénieur.

L'emplacement de tous bâtiments, installations et outillage doit être approuvé par l'ingénieur avant le commencement des travaux d'érection.

Exécution des travaux dirigés par l'ingénieur

13. L'ouvrage devra être commencé, poursuivi et terminé par l'entrepreneur dans toutes ses diverses parties, de la manière et aux points et endroits que l'ingénieur ordonnera, de temps à autre, et à sa satisfaction, mais toujours conformément aux dispositions du présent contrat, et si l'ingénieur ne donne aucune direction, l'ouvrage sera alors exécuté avec soin, promptement et selon les règles de l'art.

Ouvrage sujet à la direction de l'ingénieur

14. L'ouvrage devra, dans tous ses détails, être sujet à et sous la direction et la surveillance de l'ingénieur; et tous les ordres, directions ou instructions en tout temps donnés par l'ingénieur au sujet de cet ouvrage, ou concernant sa conduite, devront être obéis par l'entrepreneur, promptement et efficacement, faits et exécutés, à la satisfaction de l'ingénieur.

Ne pas enlever les piquets ou autres marques de l'ingénieur

15. L'entrepreneur devra protéger les piquets, les bouées ou autres marques placés sur le lieu des travaux ou près desdits travaux par l'ingénieur ou ses assistants, et il ne devra pas les enlever ni les détruire, ou permettre qu'on les enlève ou les détruise; et il devra fournir l'assistance nécessaire pour corriger ou remplacer tout piquet, toute bouée ou toute marque qui aurait pu être, pour une raison quelconque, enlevé ou détruit.

Ordres par le représentant de l'ingénieur

16. Tous les ordres, directions, instructions ou avis à être donnés ou émis par l'ingénieur, sous et conformément à quelque article de ce contrat, pourront être donnés ou émis par un ou des agents de l'ingénieur dûment et expressément autorisés.

Avis; comment il doit être donné

17. Tout avis, tout ordre, toutes instructions ou toute autre communication donnés à l'entrepreneur en vertu des dispositions de ce contrat devront être considérés comme étant dûment donnés s'ils sont communiqués à l'entrepreneur personnellement, ou à son contremaître, ou s'ils sont laissés au bureau de l'entrepreneur ou déposés à un bureau de poste quelconque à destination de l'entrepreneur, ou de son contremaître, et adressés à l'adresse mentionnée dans ce contrat, ou à la dernière place d'affaires, ou à la dernière résidence connue de l'entrepreneur. Tel avis ou tel ordre, telles instructions ou telle communication devront être considérés comme suffisamment explicites s'ils expriment en termes généraux et sans détails les affaires requises ou communiquées, ou s'ils sont conformes aux termes généraux de l'article ou des articles de ce contrat en vertu des dispositions desquels ils sont donnés, et aucune objection ne devra être soulevée quant à la rédaction d'iceux.

Contremaître des travaux

18. L'entrepreneur devra avoir sur les lieux un contremaître compétent durant toutes les heures de travail, pour y recevoir les ordres de l'ingénieur. Ce contremaître devra être considéré comme le représentant légal de l'entrepreneur, et devra avoir plein pouvoir de remplir toutes les réquisitions et tous les ordres de l'ingénieur, mais cette clause ne devra pas libérer l'entrepreneur du devoir de surveiller personnellement l'ouvrage.

L'ingénieur seul juge de l'ouvrage et des matériaux

19. L'ingénieur devra être le seul juge de l'ouvrage et des matériaux tant par rapport à la qualité qu'à la quantité, et sa décision sur toutes questions en litige à ce sujet, ou au sujet du sens ou de l'intention de ce contrat ou du sens et de l'interprétation des plans, dessins et devis, devra être finale, et aucun ouvrage sous ce contrat ne devra être considéré avoir été accompli, aucuns matériaux ou choses n'avoir été fournis, de façon à donner droit à l'entrepreneur à un paiement de ce chef tant et jusqu'à ce que l'ingénieur en soit satisfait, comme son certificat écrit en fera preuve, lequel certificat devra être une condition suspensive du droit de l'entrepreneur d'être payé de ce chef.

Qualité

20. Les travaux devront être exécutés par l'entrepreneur et sous sa surveillance personnelle, au moyen de matériaux neufs pour tout l'ouvrage, ces matériaux étant les meilleurs de leurs espèces respectives; ils seront exécutés parfaitement et selon les meilleures règles de l'art, de la manière requise et en stricte conformité du présent contrat, desdits devis et des plans et devis spéciaux, des plans et des dessins s'y rapportant, et selon les dessins d'exécution ou de détail qui pourront être fournis de temps à autre, lesquels dits devis, plans et dessins spéciaux sont déclarés par les présentes faire partie du présent contrat.

Ouvrage ou matériaux défectueux

21. Si l'entrepreneur devait se servir de ou employer, ou se proposer de se servir de ou d'employer des matériaux, un outillage, des outils, un équipement, des articles et choses qui, de l'avis de l'ingénieur, ne sont pas conformes aux dispositions de ce contrat ou non convenables pour les travaux ou toute partie d'iceux, ou si l'ingénieur devait considérer que certain ouvrage est, pour une raison quelconque, exécuté ou accompli d'une manière impropre, défectueuse ou insuffisante, l'ingénieur pourra ordonner à l'entrepreneur de les enlever et de se servir de ou d'employer des matériaux, un outillage, des outils, un équipement, des articles et des choses convenables, ou de refaire et exécuter convenablement tel ouvrage, selon le cas, et là-dessus l'entrepreneur devra se conformer immédiatement à ces ordres, et si l'entrepreneur ne se conforme pas à ces ordres dans un délai de vingt-quatre heures, l'ingénieur pourra, en tout temps après, exécuter ou faire exécuter les ordres ainsi donnés, et l'entrepreneur devra payer, sur demande, à Sa Majesté, tous les frais, tous les dommages et toutes les dépenses encourus à ce sujet ou occasionnés à Sa Majesté en raison du refus de l'entrepreneur de se conformer à ces ordres, ou Sa Majesté pourra, à la discrétion du ministre, retenir et déduire tels frais, tels dommages et telles dépenses, de tous montants dus ou à devoir à l'entrepreneur.

Ouvriers, outillage, etc., en nombre insuffisant

22. Si, en quelque temps que ce soit, l'ingénieur devait considérer le nombre d'ouvriers et de chevaux, la quantité de machines, d'outils, d'outillage, d'équipement ou de matériaux, de choses ou articles convenables, respectivement, employés ou fournis par l'entrepreneur sur ou pour lesdits travaux, n'être pas suffisants pour que lesdits travaux ou toute partie d'iceux puissent être poursuivis avec assez de diligence pour assurer leur achèvement dans le délai fixé à cette fin, ou que les travaux ou toute partie d'iceux n'être pas exécutés avec toute la diligence voulue, alors et en chaque tel cas, l'ingénieur pourra, par écrit, ordonner à l'entrepreneur d'employer ou de fournir tel nombre additionnel d'ouvriers, de chevaux, machines, outils, outillage, équipement, matériaux, articles et choses que l'ingénieur pourra juger nécessaire, et au cas où l'entrepreneur, passé un délai de trois jours ou tout autre délai plus long qui pourrait être fixé dans tel ordre, ne devait pas se conformer à tous égards à cette demande, alors l'ingénieur pourra employer et fournir tel nombre additionnel d'ouvriers, de chevaux, machines, outils, outillage, équipement, matériaux, articles et choses, respectivement, qu'il pourra juger convenable, et il

pourra payer tels salaires à tels ouvriers additionnels, et tels prix qu'il jugera à propos pour ces chevaux, machineries, outils, outillage, équipement, matériaux, articles et choses supplémentaires, respectivement, et tous les montants ainsi payés devront être, sur demande, remboursés à Sa Majesté par l'entrepreneur, ou pourront être retenus ou déduits de toute somme due ou à devoir par Sa Majesté à l'entrepreneur. L'entrepreneur devra employer les ouvriers, chevaux, machineries, outils, outillage, équipement, matériaux, articles et choses additionnels ainsi fournis et employés par l'ingénieur pour accélérer le progrès des travaux. Les ouvriers et les chevaux ainsi fournis devront être, cependant, sujets ci-après à être congédiés ou mis de côté par l'entrepreneur, mais seulement avec le consentement et l'approbation de l'ingénieur.

Machineries, outillage, etc., de l'entrepreneur

23. Toute la machinerie, tous outils, tout outillage, tous matériaux, tout équipement, tous articles et choses que ce soit, fournis pour les travaux, par l'entrepreneur ou par l'ingénieur, en vertu des dispositions des articles 21 et 22, et non rejetés par les dispositions de l'article 21, devront devenir, à partir du temps où ils auront été fournis, et devront être, jusqu'à l'achèvement définitif desdits travaux, la propriété de Sa Majesté pour les fins desdits travaux, et ils ne devront être, pour aucune raison, enlevés ou utilisés, et il ne devra pas en être disposé, sauf pour les fins desdits travaux, sans le consentement par écrit de l'ingénieur. Sa Majesté ne devra pas, cependant, être tenue responsable de quelque perte ou dommage que ce soit qui pourrait survenir, en tout temps, à tels machinerie, outils, outillage, matériaux, équipement, articles ou choses. Sur achèvement des travaux et sur paiement par l'entrepreneur de toutes telles sommes d'argent, toutes ces pertes, tous ces coûts et tous ces dommages, s'il en est, qui seront dus par l'entrepreneur à Sa Majesté, ou qui sont à la charge de l'entrepreneur, en vertu du présent contrat, celles-là desdites machineries et ceux-là desdits outils, outillage, matériaux, équipement, articles et choses qui n'auront pas été utilisés dans et incorporés aux travaux ou dont Sa Majesté n'aura pas disposé, en vertu des pouvoirs conférés par le présent contrat, devront, sur demande, être livrés à l'entrepreneur dans l'état où ils pourront alors se trouver.

Ouvrage non compris dans le contrat

24. Sa Majesté pourra, en tout temps, sans payer pour cela, employer sur, dans et pour les travaux, d'autres entrepreneurs et ouvriers, avec les chevaux, machineries, outils, outillage, équipement, matériaux, articles et choses que l'ingénieur pourra juger nécessaires à l'exécution de tout ouvrage non compris dans le présent contrat, et l'entrepreneur devra leur donner toutes facilités raisonnables, à la satisfaction de l'ingénieur, pour faire cet ouvrage qui devra être exécuté en causant le moins d'inconvénients possibles, de l'avis de l'ingénieur, au travail de l'entrepreneur.

La prise de possession de tous les travaux de l'entrepreneur ou de toute partie d'iceux, pour de telles fins, ne devra pas être considérée une acceptation, par Sa Majesté ou en son nom, de tous les travaux ou de toute partie d'iceux compris dans le présent contrat.

Collaboration avec les autres entrepreneurs

25. Chaque fois et aussi souvent qu'il pourra être nécessaire pour l'entrepreneur de coopérer avec d'autres entrepreneurs sur cet ouvrage, ou avec l'un ou l'autre d'eux, l'entrepreneur devra, avec diligence et sous les directions de l'ingénieur, exécuter tous les travaux qui pourront être requis comme étant nécessaires à une telle coopération, afin de mettre dans une position convenable et de la fixer convenablement la partie nécessaire, mentionnée et prescrite dans le présent contrat comme devant être construite et érigée sur les travaux projetés d'une façon convenable et sûre, et d'empêcher tout accident de se produire au cours de l'exécution de ladite partie de ces travaux et ce, sans frais supplémentaires, et il devra exécuter l'ouvrage dans tous ses détails, conformément aux instructions du Ministre ou de l'ingénieur au sujet de ladite coopération et dudit ouvrage.

Défaut ou retard de la part de l'entrepreneur

26. Au cas où l'entrepreneur devait faire défaut de commencer ou devait commencer en retard les travaux ou partie d'iceux, à être exécutés ou qui pourraient être ordonnés en vertu du présent contrat, ou ne devait pas les exécuter avec diligence, à la satisfaction de l'ingénieur, celui-ci pourra donner à l'entrepreneur un avis général le requérant de cesser tel défaut ou tel retard, et si tel défaut ou tel retard durait jusqu'à six jours après qu'un tel avis aura été donné par l'ingénieur à l'entrepreneur, ou si l'entrepreneur devait faire défaut de compléter les travaux, ou toute partie d'iceux, dans le délai prescrit pour leur exécution, dans ou sous ce contrat, ou si l'entrepreneur devait devenir insolvable ou abandonner les travaux ou faire cession de ce contrat sans le consentement requis, ou manquer, de toute autre manière, d'observer ou d'accomplir l'une quelconque des dispositions de ce contrat, alors et dans tous ces cas, le ministre pourra, pour et au nom de Sa Majesté, et sans autre autorisation, retirer tout l'ouvrage des mains de l'entrepreneur, et pourra, au nom de Sa Majesté, se servir des moyens qui lui sembleront appropriés pour achever les travaux, et, en tel cas, l'entrepreneur n'aura droit à aucun paiement additionnel pour l'ouvrage ainsi exécuté, mais devra être responsable de et supporter toute perte et tout dommage que Sa Majesté pourrait subir à raison de tel défaut ou retard, ou de l'inachèvement des travaux par l'entrepreneur, et nulle objection ou réclamation ne devra être faite ou soulevée par l'entrepreneur à raison ou à cause du coût ultime des travaux ainsi retirés de ses mains, coût qui, pour une raison quelconque, se trouverait, de l'avis de l'entrepreneur, plus élevé qu'il n'aurait dû l'être; et tous les matériaux, articles et choses que ce soit, et tous les chevaux, machineries, outils et outillage, équipement et tous les droits, de propriété ou autres, tous les permis, pouvoirs et privilèges ayant trait à ou affectant une propriété immobilière ou personnelle, acquis, possédés ou fournis par l'entrepreneur pour les fins du travail ou par l'ingénieur en vertu des dispositions de ce contrat devront rester et demeurer la propriété de Sa Majesté et Sa Majesté pourra, à toutes fins ayant trait au parachèvement des travaux, en user, les exercer et en jouir aussi pleinement que l'entrepreneur en aurait usé, les aurait exercés et en aurait joui et le ministre pourra aussi, à son choix, au nom de Sa Majesté, vendre, ou autrement disposer, à des prix de vente forcée, ou à enchère publique, ou par vente privée, ou autrement, tout ou partie ou nombre desdits matériaux, articles, choses, chevaux, machinerie, outils, outillage, équipement, à tel ou tels prix qu'il jugera opportun, et retenir le produit de telle vente ou disposition, et de toutes autres sommes dues ou à devoir par Sa Majesté à l'entrepreneur, pour et en satisfaction partielle de toute perte ou de tout dommage que Sa Majesté pourrait subir ou avoir subi pour la raison susdite.

Pouvoir d'agir en cas de manquement de l'entrepreneur

27. Chaque fois que, dans ce contrat, pouvoir ou autorité est donné à Sa Majesté, au ministre, à l'ingénieur ou à toute personne, au nom de Sa Majesté, de prendre quelque action à la suite de l'insolvabilité de l'entrepreneur ou à l'occasion des faits, défauts, négligences, retards, manquements de l'entrepreneur, ou de l'inaccomplissement ou de l'inexécution par l'entrepreneur de quelque engagement stipulé aux présentes, et ce, relativement aux travaux ou à toute partie d'iceux, tels pouvoirs ou autorités pourront être exercés, de temps à autre, et non seulement au cas de survenance de telles éventualités avant le temps fixé dans ce contrat pour l'achèvement des travaux, mais aussi au cas de leur survenance, après le temps ainsi fixé, si l'entrepreneur a eu la permission de procéder à l'exécution des travaux au delà du délai fixé.

Il est entendu toutefois qu'après l'expiration du délai fixé pour l'achèvement des travaux, le ministre devra être le seul juge du temps additionnel, s'il en est, qui pourra être accordé à l'entrepreneur pour tel achèvement, et sa décision sur la suffisance et la justesse de tel temps additionnel pour leur achèvement devra être finale et lier l'entrepreneur.

Retard

28. L'entrepreneur ne devra avoir ou faire aucune réclamation ou demande, ni prendre aucune action ou poursuite ou pétition contre Sa Majesté pour tout dommage qu'il pourrait encourir en raison de tout ou tous retards provenant de quelque cause que ce soit au cours de l'ouvrage.

Pas de contrats implicites

29. Il est expressément déclaré qu'aucun contrat implicite, de quelque genre que ce soit, par ou pour Sa Majesté, ne devra naître ou être impliqué de quoi que ce soit qui est contenu dans ces documents contractuels, ou de quelque position ou situation des parties à quelque temps que ce soit, et il est clairement compris et convenu que les contrats exprès, les conventions et les engagements contenus aux présentes et faits par Sa Majesté sont et devront être les seuls contrats, conventions et engagements sur lesquels tous droits contre Sa Majesté doivent être basés.

Crédits parlementaires épuisés

30. Si le montant voté par le Parlement et destiné au paiement des travaux, objet de ce contrat, est en quelque temps que ce soit dépensé avant la fin des travaux, le ministre ou l'ingénieur pourra donner à l'entrepreneur avis écrit à cet effet. Et sur réception de tel avis l'entrepreneur pourra, s'il le juge à propos, arrêter le travail, mais il ne devra avoir droit à quelque paiement pour de l'ouvrage fait au delà du montant voté et destiné tel que susdit, jusqu'à ce que les fonds nécessaires aient été votés par le Parlement à cette fin. Et en aucun cas l'entrepreneur ne devra avoir ou faire quelque réclamation contre Sa Majesté pour tous dommages ou toute compensation à cause de la suspension de paiement ou à cause de tout retard ou perte dus à l'arrêt du travail. Et dans le cas où l'entrepreneur choisirait de continuer ou continuerait tel ouvrage après tel avis, et avant que tels fonds additionnels aient été votés, aucune action de l'ingénieur ou de toute autre personne, au nom de Sa Majesté, soit en donnant des ordres, directions ou instructions, soit en agissant de quelque manière que ce soit à l'égard desdits travaux, ne devra être considérée comme une augmentation des droits de l'entrepreneur ou comme un désistement de quelqu'une des dispositions de cet article.

Le Ministre peut suspendre les travaux

31. Le ministre pourra, de temps en temps et pour telle période qu'il pourra juger expédient, retarder ou suspendre, en tout ou en partie, les opérations sous ce contrat, soit sur l'ensemble des travaux, soit sur un ou quelques points particuliers. Si tel retard ou telle suspension ou tel arrêt des travaux en vertu des dispositions de l'article 30, ou si tout retard causé par quelque circonstance, qui, de l'avis de l'ingénieur, est hors du contrôle ou n'est pas la faute de l'entrepreneur de l'avis du ministre, diminuait d'une manière déraisonnable le temps nécessaire à la terminaison des travaux dans le temps spécifié pour ce contrat, le ministre devra, aussi souvent que le cas se présentera, accorder tel délai supplémentaire qui lui semblera suffisant dans l'extension de tel temps pour la terminaison; mais aucun tel retard, aucune telle suspension ou aucun tel arrêt ne devra vicier ou annuler ce contrat, ou quelque partie d'icelui ou quelque garantie ou obligation pour son exécution, et l'entrepreneur ne devra avoir droit de faire aucune réclamation pour dommages de ce chef. Sur la cessation de tel retard, telle suspension ou tel arrêt, ou sur la disparition de ce qui en était la cause, ou sur réception par l'entrepreneur d'un avis du ministre ou de l'ingénieur lui enjoignant de reprendre l'ouvrage, l'entrepreneur devra sans délai reprendre les opérations et les poursuivre avec diligence.

Confiscation de la garantie

32. Nul pardon, nulle excuse ou nul oubli de Sa Majesté, ou de quelque personne que ce soit agissant en son nom, en des occasions antérieures pour des infractions ou des manquements semblables à ceux pour lesquels une action est prise, ou un pouvoir exercé, ou une forfaiture est réclamée de ou mise en force contre l'entrepreneur, ne devront être considérés comme effectuant un abandon de quelqu'une des dispositions de ce contrat ni faire échec ou porter préjudice, en quelque façon que ce soit, au droit de Sa Majesté y spécifié.

Les membres de la Chambre des communes ne doivent pas en bénéficier

33. Conformément aux dispositions du statut fait pour et s'appliquant à tel cas, aucun membre de la Chambre des communes du Canada ne devra avoir part à ce contrat, ni à quelque bénéfice qui en découle.

Pas de cérémonie publique

34. L'entrepreneur ne devra permettre aucune cérémonie publique relativement à l'ouvrage sans avoir, au préalable, obtenu la permission écrite du Ministre.

Liqueurs

35. L'entrepreneur ne devra pas apporter ou permettre que l'on apporte des liqueurs spiritueuses et enivrantes à quelque place que ce soit à l'endroit des travaux ou, en autant qu'il lui sera possible de l'empêcher, près des travaux; et si quelque personne employée sur les travaux était, de l'avis de l'ingénieur, adonnée à la boisson, désordonnée, incompétente, volontairement négligente ou malhonnête dans l'accomplissement de ses devoirs, telle personne devra, sur l'ordre de l'ingénieur, être immédiatement congédiée et l'entrepreneur ne devra pas employer sur les travaux toute personne qui aura été congédiée pour l'une quelconque desdites raisons ou lui permettre de rester sur les travaux.

Règlements sanitaires

36. L'entrepreneur devra se conformer dans l'exécution des travaux à tous les règlements faits par toute autorité constituée et applicables auxdits travaux, ainsi qu'à tous les ordres donnés par l'ingénieur relativement à l'hygiène et à la préservation de la santé sur le chantier. L'entrepreneur devra, à ses propres frais, fournir des cabinets d'aisance convenables et faire des arrangements adéquats à la satisfaction de l'ingénieur, afin d'assurer la surveillance médicale et hygiénique de tous ses employés.

L'entrepreneur nettoiera les lieux lors de l'achèvement

37. L'entrepreneur devra, lors de l'achèvement des travaux, enlever toute construction temporaire et faire disparaître tous déchets, tous débris et tous matériaux de surplus se trouvant sur le lieu des travaux ou près d'icelui, et devra laisser les lieux dans une condition propre et en ordre, à la satisfaction de l'ingénieur.

Dommages aux personnes ou à la propriété

38. L'entrepreneur, ses représentants, et tous les ouvriers et toutes les personnes employés par lui, ou sous sa direction, devront prendre toute précaution nécessaire pour qu'aucune personne ou propriété ne subisse des dommages et pour qu'aucun droit ne soit enfreint dans la poursuite de l'ouvrage, et l'entrepreneur devra être seul responsable de tous dommages, à la demande de qui que ce soit, pour tout tort causé aux personnes, terrains, édifices, constructions, clôtures, arbres, moissons, routes, chemins, voisseaux ou propriété de quelque description et pour toute violation de droit, de privilège, servitude que ce soit, causée par l'exécution des travaux ou de partie d'iceux, ou qui serait due à une négligence, infraction,

inexécution de la part de l'entrepreneur ou de la part de quelqu'un de ses représentants, ouvriers ou personnes employés par lui ou sous sa direction, et devra, à ses propres frais, prendre les mesures provisoires nécessaires pour éviter tout dommage, accident ou infraction et pour prévenir toute interruption de la circulation sur les chemins publics ou privés, ou tout danger ou menace à cette circulation et pour assurer à toutes personnes et corporations la jouissance continue de tous leurs droits, dans et durant l'exécution desdits travaux; et l'entrepreneur devra indemniser et libérer Sa Majesté de toutes réclamations et demandes, pertes, frais, dommages, actions, poursuites ou autres procédures faites, prises ou intentées par qui que ce soit et basées en quelque manière sur, occasionnées par ou attribuables à tout tel dommage, accident ou infraction.

Dommages aux travaux pendant leur construction.
L'entrepreneur en est responsable.

39. L'entrepreneur devra assumer les risques et supporter toute perte et tout dommage, quelle qu'en soit la cause, qui pourraient survenir aux travaux ou à toute partie d'iceux jusqu'à ce que lesdits travaux aient été acceptés par le ministre, et si telle perte ou tel dommage se produisait avant telle réception définitive, l'entrepreneur devra immédiatement, à ses frais, réparer, restaurer et reconstruire l'ouvrage ainsi avarié, de sorte que les travaux en entier ou les parties respectives d'iceux soient complétés dans le temps prescrit pour leur achèvement, et tout retard causé par l'entrepreneur principal aux autres entrepreneurs employés sur les travaux ou toute immixtion de l'entrepreneur dans l'exécution qui pourrait être une cause de retard ou de dommage, devra être rectifié aux frais de l'entrepreneur, et la réclamation pour dommage ou retard (s'il en est) devra être à la charge de l'entrepreneur.

Précautions contre le feu

40. L'entrepreneur devra, à ses propres frais, prendre des précautions spéciales pour empêcher le feu de se déclarer sur le lieu des travaux ou près d'icelui, et employer ses propres ouvriers, à la satisfaction et sous la direction de l'ingénieur, pour éteindre tous les feux qui pourraient se déclarer; et il devra observer et se conformer à toutes les lois et tous les règlements en vigueur concernant les feux et à tous les règlements faits et à toutes les instructions données, de temps en temps, durant la construction, par l'ingénieur, au sujet des feux et la prévention et l'extinction des feux et devra payer tous salaires et autres déboursés occasionnés à raison de l'observance de et la conformité à tels règlements et instructions.

Assurance contre l'incendie

41. L'entrepreneur devra, à ses propres frais, en tout temps durant la construction et jusqu'à l'acceptation finale des travaux, tenir toutes les bâtisses et constructions assurées contre la perte par le feu, dans telle ou telles compagnies et pour tel ou tels montants égalant au moins quatre-vingt (80) p. 100 de la valeur de l'ouvrage exécuté et des matériaux acceptés par l'ingénieur, que l'ingénieur en chef pourra approuver, et les polices de telle assurance devront être faites payables comme les intérêts de l'entrepreneur et de Sa Majesté pourront respectivement l'exiger, et devront être déposées chez l'ingénieur en chef.

Protection des ouvriers

42. L'entrepreneur devra protéger le Ministère contre toute réclamation relativement à tout accident subi par des ouvriers ou à toute maladie contractée par eux lors qu'ils sont employés par lui aux présents travaux.

Accidents du travail

43. L'entrepreneur devra se conformer aux dispositions de la Loi des accidents du travail pour la province où s'exécute l'ouvrage.

Paiement par l'entrepreneur pour la main-d'oeuvre, etc.

44. L'entrepreneur devra payer promptement tout travail, tous les services et tous les matériaux dans et pour la construction des travaux, et tous paiements à telles fins devront être faits par l'entrepreneur, au moins aussi souvent que des paiements sont faits à l'entrepreneur par Sa Majesté en vertu du présent contrat, et au cas du défaut de l'entrepreneur d'agir de la sorte, ou si quelque somme due pour le travail de quelque contremaître ou ouvrier, ou pour louage de chevaux, d'attelages ou de charrettes sur ou pour les travaux, ou toute partie d'icelui, demeure arriérée ou non payée, ou si l'on découvre, en quelque temps que ce soit, qu'il existe des réclamations contre l'entrepreneur, ou quelque sous-entrepreneur, pour main-d'oeuvre, attelages, outils, matériel d'exploitation, matériaux, articles ou choses employés, loués ou fournis sur ou pour les travaux ou toute partie d'iceux, ou si le ministre a raison de croire que tels paiements, sommes ou réclamations ne seront pas promptement acquittés, le ministre pourra, à son choix, en plus ou au lieu d'exercer les pouvoirs conférés par les Conditions du travail, retenir sur tout argent dû ou à devoir à l'entrepreneur par Sa Majesté, tel ou tels montants que le ministre pourra trouver suffisants pour les acquitter, ou payer à l'entrepreneur par versements, l'argent à lui dû, lui donnant de temps en temps tels montants que le ministre ou l'ingénieur jugera suffisants pour acquitter tels paiements, montants ou réclamations ou l'un quelconque d'iceux, et retenant la balance à lui due après avoir déduit les paiements ainsi faits. L'entrepreneur ne devra pas être admis à nier l'exactitude et la justesse de tout ou tous paiements ainsi effectués par le ministre.

Livres, etc., de l'entrepreneur ouverts à l'inspection

45. Les listes, bordereaux de paye, les feuilles de présence, les livres de comptes, les factures et les relevés de comptes de l'entrepreneur devront, en tout temps, être accessibles, pour l'inspection et prise d'extraits, à l'ingénieur et à tout représentant autorisé du ministre, ou à l'un ou l'autre d'eux, lequel devra être aidé du mieux possible par l'entrepreneur, afin que l'ingénieur et tel représentant soient capables de vérifier, autant que possible, le paiement, les sommes et les réclamations exacts ainsi dus et restés non payés par l'entrepreneur.

L'ouvrage doit être libre de toutes charges

46. Avant de faire un paiement sur tout décompte progressif, le ministre pourra exiger de l'entrepreneur qu'il prouve à l'ingénieur ou à un autre représentant autorisé de Sa Majesté, que tout ouvrage accompli, tous matériaux fournis, toutes constructions érigées, pour lesquels paiement est fait, sont francs et quittes de toutes réclamations légales ou de tous privilèges sous quelque loi que ce soit, pour travail, main-d'oeuvre, matériaux ou autres choses; l'entrepreneur devra indemniser et garantir Sa Majesté pour et contre les réclamations et les privilèges de tout genre provenant d'un travail effectué, de services accomplis et de matériaux fournis sur ou pour les travaux, ou pour d'autres causes, et de l'indemniser et de la garantir pour et contre l'un quelconque d'iceux.

Déclaration statutaire

47. Au parachèvement de l'ouvrage, et avant que ne soit versé aucun paiement relativement à tout décompte, ou état ou certificat définitifs, l'entrepreneur devra soumettre à l'ingénieur un état appuyé par une déclaration statutaire indiquant que tous les travaux exécutés et les matériaux fournis sont entièrement libres de réclamations ou privilèges justifiés.

Preuves requises pour manquement de l'entrepreneur

48. Le Ministre ou l'ingénieur peuvent, à leur discrétion, exiger en tout temps des preuves, en ayant recours aux formalités ou dans la mesure qu'ils jugeront nécessaires, de toute réclamation en vertu desdites listes de justes salaires et desdites clauses s'y rapportant pour des arrérages de salaires ou à la location d'équipes ou de comptes pour des matériaux ou d'autres choses non payées.

Liste des prix unitaires

49. L'entrepreneur devra présenter avec sa soumission une liste détaillée des prix unitaires de tous les matériaux ouvrés ou mis en oeuvre, qui devra, sur approbation de l'ingénieur, être utilisée pour le calcul des paiements relatifs à tout le travail effectué sous l'empire du contrat.

Classification des frais

50. Devra être soumise en même temps une classification des frais conforme à la liste des prix unitaires soumise indiquant le prix total du contrat. Cette liste devra être rédigée de façon que toutes les dépenses imprévues soient réparties sur les différents postes des divers corps de métier comme il est indiqué sur la formule ministérielle de décompte progressif ou comme il a été approuvé par l'ingénieur en chef, et elle devra être utilisée pour le calcul des décomptes progressifs mensuels de l'ingénieur.

Prix à être acceptés comme entière compensation

51. Ledit ou lesdits prix devront être acceptés par l'entrepreneur comme entière compensation pour toutes choses fournies ou faites par l'entrepreneur en vertu du présent contrat, y compris tout ouvrage requis mais non inclus dans les item ci-devant mentionnés, et aussi pour toute perte ou tout dommage provenant de la nature des travaux ou de la variation des conditions atmosphériques, du mouvement des marées, de l'action des éléments, ou pour toute obstruction imprévue ou toute difficulté rencontrée dans la poursuite du travail, et pour les risques de toute description se rattachant aux travaux, et pour toutes dépenses encourues par rapport à l'ouvrage, et pour tous les travaux, et pour les dépenses encourues par suite de délai ou de suspension ou de cessation de l'ouvrage spécifié dans les présentes, et pour l'achèvement parfait et de bonne foi des travaux, tel que prévu au présent contrat.

Paiements progressifs

52. Des paiements équivalant à environ quatre-vingt-dix pour cent (90%) de la valeur de l'ouvrage fait, estimée approximativement, d'après des mesurages progressifs, et calculée d'après le ou les prix convenus ou fixés en vertu des dispositions de ce contrat, seront versés mensuellement à l'entrepreneur, si la chose est pratique, sur le certificat écrit de l'ingénieur, déclarant que l'ouvrage pour lequel ou pour le compte duquel le certificat est émis, a été fait, et mentionnant la valeur de tel ouvrage complété tel que dit plus haut; et ledit certificat devra être une condition préalable au droit de l'entrepreneur d'être payé du quatre-vingt-dix pour cent (90%) ou de toute partie d'icelui. Le dix pour cent (10%) restant devra être retenu jusqu'à l'achèvement final de tout l'ouvrage, à la satisfaction de l'ingénieur, et sera payé dans les deux mois qui suivront cet achèvement. Le certificat écrit dudit ingénieur attestant l'achèvement définitif desdits travaux, à sa satisfaction, devra être une condition préalable au droit de l'entrepreneur de recevoir ou d'être payé du dix pour cent (10%) restant ou toute partie d'icelui.

L'ingénieur, en certifiant les valeurs pour paiements progressifs, peut écarter la liste des prix

53. Il est stipulé, toutefois, que lorsque, de l'avis de l'ingénieur, l'ouvrage fait n'est pas suffisamment fini, ou n'est pas d'une valeur suffisante pour justifier paiement au ou aux prix convenus ou fixés en vertu des dispositions de ce contrat, l'ingénieur pourra, pour les fins de tel paiement, ne pas tenir compte du ou des prix convenus ou fixés, et pourra estimer en proportion, la valeur payable par rapport à tel ouvrage et émettre un certificat en conséquence; en tel cas, l'entrepreneur n'aura le droit de recevoir que quatre-vingt-dix pour cent (90%) de telle valeur estimée en proportion, tel que mentionné dans le certificat, et ne devra pas être payé du quatre-vingt-dix pour cent (90%) du ou des prix convenus ou déterminés en vertu des dispositions de ce contrat jusqu'à ce que l'ingénieur, en raison de l'exécution d'ouvrage supplémentaire, certifie que l'entrepreneur a droit à ce pourcentage.

Réclamations en vertu de certificats progressifs

54. Il est entendu que toute allocation à laquelle l'entrepreneur a raisonnablement droit sera comprise dans le certificat mensuel de l'ingénieur, mais si l'entrepreneur avait, en quelque temps que ce soit, des réclamations de tous genres, lesquelles il jugerait non comprises dans les certificats progressifs, ces réclamations devront être faites par écrit à l'ingénieur dans les trente jours qui suivront la date où on lui a remis le certificat dans lequel, selon lui, les item de telles réclamations ont été omis, mais en aucun cas le délai ne devra dépasser les soixante jours qui suivront l'achèvement définitif de cette partie de l'ouvrage à laquelle ces réclamations se rapportent. Et à défaut de la présentation de telles réclamations dans le ou les délais ainsi déterminés, le ministre pourra considérer telles réclamations comme absolument proscrites.

Réclamations; preuves d'exactitude

55. L'entrepreneur, en présentant des réclamations du genre de celles auxquelles il est référé dans la dernière clause précédente, doit les accompagner de preuves satisfaisantes de leur exactitude et donner la raison qui lui fait juger qu'elles devraient être accordées.

Paiement pour ouvrage supplémentaire

56. Pour tout ouvrage ou tout ouvrage supplémentaire fait, ou pour tous matériaux ou choses fournis, sur les ordres écrits de l'ingénieur, et pour lesquels aucun prix n'est fixé et qui n'est pas couvert par le contrat, Sa Majesté, pour la considération et sous les conditions susdites, paiera à l'entrepreneur le coût réel et raisonnable de tel ouvrage, tels matériaux ou choses, tel que déterminé par l'ingénieur, avec un montant additionnel de dix pour cent (10%) de ladite somme pour l'usage des outils, du matériel de l'entrepreneur et pour la surveillance et les profits.

Quantités approximatives

57. Les quantités données (s'il y en a), ne sont qu'approximatives et aucune réclamation ne devra être faite par l'entrepreneur contre Sa Majesté du fait de tout excédent ou insuffisance, d'une manière absolue ou relative, dans les quantités.

Les mesures et les certificats progressifs ne lient pas

58. Les mesures et les certificats progressifs ne devront, en aucune façon, être considérés comme liant l'ingénieur, ou comme mesures finales, ou comme fixant les montants finals; ils devront être sujets à la révision de l'ingénieur lorsqu'il préparera son certificat final et ils ne devront, en aucune façon être considérés comme une acceptation de l'ouvrage ou comme une décharge pour l'entrepreneur de toute responsabilité de ce chef.

Rectification

59. Si l'on découvrait plus tard que des matériaux ou de la main-d'oeuvre inférieurs ont été incorporés aux travaux, ou que l'on s'est écarté du contrat de quelque façon, l'entrepreneur devra réparer, sans frais pour le Ministère, tous manquements, et tous dommages qui ont pu résulter desdits manquements.

POURVU QUE, un avis soit donné à l'entrepreneur au sujet desdits manquements durant la période d'un (1) an qui suit la date du certificat final du parachèvement de l'ouvrage.

ET POURVU QUE, la période stipulée dans toute garantie donnée par l'entrepreneur ne soit pas expirée.

Dear Mr. Amyot:

Re: Indian Residential School, Seven Islands Indian Agency, Quebec.

We have your letter of September 22nd, 1950, enclosing (a) Classification of Costs and (b) First Progress Estimates for the above project. These forms are returned herewith for revision.

(a) Classification of Costs - We are relying on you to provide the attention and checking necessary to safeguard the Department and protect the contractor. Listed below are some of the differences in amounts submitted.

	Amount shown in Tender	Classification of Costs
General Conditions	Insurance, etc.	$ 27,226
Carpentry Millwork	$ 20,000	7,312
Painting and Glazing	10,400	8,000
Plumbing	25,000	23,500
Heating	39,000	36,000
Electrical	19,000	28,312
Refrigeration	-- not shown --	

Please check the item 'General Conditions' - the amount seems to be in excess of what it should be. Mr. Trembley should have figures for each subdivision of work or trade, to which should be added his percentage for overhead and profit. Adjustments may have to be made in order that the sum of all trade

divisions is no greater than $12,000.00. When the classification is made as above, you will be reasonably sure that each division bears its own share of the total cost. These suggestions are made because, under all Government contracts, the accounts and books of a contractor are open for inspection and it is advisable to avoid any discrepancies.

(b) Progress Estimate - The amount shown for carpentry would indicate that about 70% of the work was completed as of September 7th. The Progress Estimate should now be based on the revised Classification of Costs.

Kindly discuss this matter with Mr. Trembley and have the necessary changes made and the forms returned to this office as soon as possible.

Yours very truly,

Cher monsieur,

Pour faire suite à la discution que nous avons eu dernièrement, vous trouverez sous pli, une lettre du représentant des manufacturiers de Balances spirales, nous disant qu'ils ne peuvent pas poser ces balances dans les volets de chassis mais dans les cadres.

Pour cela il nous a fallu faire faire les cadres de chassis beaucoup plus épais C.A.D., 2" contrairement à ce que spécifier sur les plans.

Notre manufacturier de chassis, nous a chargé la somme de $ 801.65 comme extra dans la confection de ces fenêtres.

Nous reclamons donc au Ministère des Mines et Ressources la somme de $ 801.65 pour travail et matériel extra apporté à cette partie du contrat.

Comptant sur votre bonne attention, nous vous prions de nous croire,

Dear Sir:

In further reference to the discussion we had lately, you will find herewith a letter from the representative of spiral scales informing us that they cannot put them in the shutters but in the frames.

For that reason we had to make the window frames much thicker, that is to say 2" instead of the thickness specified on the plans.

Our window manufacturer charged us an extra sum of $801.65 to make these windows.

We therefore claim the sum of $801.65 from the Department of Mines and Resources for the extra labour and material for executing this part of the contract.

We trust that you will give this matter your kind attention,

Dear Sir:

Your submission covering Estimate No. 1 and Classification of Costs has been returned for revision. The amounts submitted in your original tender are not the same as the amounts now shown for various trades in your breakdown.

As I understand your original figures shown in the tender were approximate only and you consider the breakdown as submitted as being more accurate. Would you please bring to this office all relative documents so that I can personally check the items under question.

Please do this as soon as possible as progress payments are held up until approval is given on the breakdown.

Dear Sir:

You will no doubt have heard from Mr. Kavenstein concerning our inspection of the above project, however, I shall make a brief resumé of the inspection.

a) PROGRESS:

The Contractor is proceeding rapidly with the work and in eight weeks has done the following work.

1) Poured all concrete excepting some stairs and floor slabs.
2) Poured septic tank.
3) Completed all exterior framing except for top floor and roofs. Sub floors laid and interior bearing partitions complete. Diagonal exterior sheathing finished.
4) Exterior windows in place except Hall windows.
5) Painters have started glazing.
6) Concrete block work well advanced and boiler house nearing completion. Chimney in main building complete and boiler house chimney 50 percent complete.

7) Plumbing and electrical work started and roughing in well advanced.
8) Materials on job consist of plumbing fixtures, furnace, asbestos sheets, gyproc, paint, insulation, lumber, concrete blocks, roof material (condemned) sewage field tile and plumbing fittings.

b) INSPECTION:

1) Work to date with exceptions noted below is satisfactory and the contractor is apparently trying to do his work to the plans and specifications to the best of his ability.
2) Contractor had installed cross bridging of 2" x 2" and he was instructed to put in 2" x 10" blocking as shown on plans.
3) Contractor requested to pour concrete corbel under main entrance steps to give additional protection from water. Sketch given by Mr. Noffke's man to Clerk of Works.
4) Contractor advised to have new windows supplied to proper size for Hall.
5) Clerk of Works and Contractor told to fix up sub-flooring on top floor - too many short pieces, insufficient nailing.
6) Instructions given to install brace at rear of cross.
7) Clerk of works instructed to locate tile field for septic tank at a spot some distance from tank where levels permit drainage, etc..

MEMORANDUM TO THE CHIEF TREASURY OFFICER

As you doubtless know Mr. W.E. Noffke is the designing architect for the Seven Islands Indian Residential School, and there is an agreement with him in this connection.

It was necessary to have an inspection of the school made to see that the design he prepared is being properly carried out. Attached is a statement of the travelling expenses incurred by Mr. Arthur Kevanstein who was instructed to inspect the building to see that Mr. Noffke's design was being followed.

Mr. Buck, Chief, engineer has asked me to see that the attached account is paid. Mr. Noffke was not aware of our regulations regarding the securing of receipts and some receipts may not therefore have been furnished. The expenses have, however, been incurred and I would ask you to kindly issue a cheque in favor of Mr. W.E. Noffke, F.R.A.I.C. architect, and send it to him at the address shown on his letter of October 6, namely 23 Central Chambor, 46 Elgin Street, Ottawa.

Would it be possible to pay these travelling expenses from the administration vote, as I understand that the vote for Indian education allotment for travelling is low.

MEMORANDUM TO THE DEPUTY MINISTER:

When tenders for construction of the Indian Residential School at Seven Islands Indian Agency, Quebec, were analysed, it was deemed advisable to find out if the lowest tenderer had the experience and the equipment necessary to undertake the work. This inquiry caused a delay in the preparation of documents, and also in the programme of work. Authority was granted by P.C. 2908 of 13 June, 1950, to enter into a fixed price contract with Mr. Lucien Tremblay of Portneuf, Quebec, for construction of the work.

Prior to the above date, authority was granted by P.C. 2419 of 12 May, 1950, to obtain the services of Mr. Gaston Amyot, M.R.A.I.C., Architect of Quebec, to provide continuous supervision of the construction work on the project on behalf of the Department. As every effort was being made to get the job started in order to take full advantage of the construction season, Mr. Amyot was instructed to obtain the services of a Clerk-of-Works to be resident near the job to provide constant superintendence.

The agreement with Mr. Amyot provides in part "Article 5 - Reimbursements: The Minister will reimburse the Architect for (a) the costs of transportation and personal living expenses incurred by the Architect and the Clerk-of-Works while travelling, in discharge of duties solely connected with the work. In case of mileage travelled for which convenient railway or motor bus transportation is not available, an allowance of eight cents ($0.08) per mile may be paid. The mileage allowances paid cover the entire cost to the Government except bridge tolls and ferry charges. (b) the salary of Clerk-of-Works engaged and paid by the Architect provided that the Minister shall have approved of the engagement of such Clerk-of-Works as a necessity, and shall have approved of the salary rate to be paid."

Mr. Amyot, without prior approval, engaged and sent down a Clerk-of-Works to supervise the concrete work only, at rates and under conditions prevailing in that area; that part of the work is now completed and the duties of this temporary Clerk-of-Works have

ended. The services of Mr. Waller, a qualified engineer, can now be obtained as Clerk-of-Works, and he will remain at Seven Islands until completion of the work, and is willing to accept the same remuneration paid to the temporary Clerk-of-Works, i.e., $250.00 per month with living expenses of $60.00 (room and board), and transportation allowances.

Accounts submitted by Mr. Amyot for reimbursements under the agreement show that air travel has been used, as this is the only convenient means to make the journey to that location, and at very little extra cost.

In view of the isolated location of this work, and the difficulty of securing technical personnel, our Engineering and Construction Service consider that the interests of the Department will be well served by concurrence in the above arrangements and, therefore, recommend that (a) permission be granted to secure the services of Mr. Waller as Clerk-of-Works at the rates and under the conditions stated above, and (b) that air travel be allowed in place of the provision under the agreement.

MEMORANDUM TO COL. HEARY.

Re: Indian Residential School, Seven Islands Indian Agency, Quebec.

Attached herewith is one copy of Progress Estimate No. 1 in the amount of One hundred and twenty-six thousand, seven hundred and twenty dollars and ninety cents ($126,720.90), for work done up to September 30th, 1950, on the Contract with Mr. Lucien Tremblay for construction of the above project.

The volume and value of operations covered by the Progress Estimate has been checked and certified by the Supervising Officer of Construction, Mr. Gaston Amyot, representing the Department. The estimate has also been compared with construction reports made to this office and is in accordance with the Contract.

In accordance with procedure prevailing within the Branch, this Progress Estimate is being sent to you for processing and for transmittal to the Treasury Division, Indian Affairs Branch, with the request that the cheque be made payable to and sent by registered mail direct to:

Mr. Lucien Tremblay,
General Contractor,
Riviere Portneuf,
Cte. de Saguenay, Quebec.

As the Contractor has not yet received any advances under the Contract, it will be appreciated if you will give this matter your early attention.

With regard to the classroom colours, please find attached a colour chart which shows the best colours as produced for school purposes. We have tried these colours in several schools and have found them superior to any others.

I am quite prepared to leave the selection of the other colours in the building to your own choice with the recommendation that dark colours such as the medium green shown here be used on all lower levels where childrens' hands are likely to come in contact with the walls.

REGISTERED OCT 16 1950 RECORDS INDIAN AFFAIRS 1617

Dear Mr. Neary:

As I informed you this morning, I have just visited the new Residential School which is being erected by your Department at Sept-Iles, P.Q. As stated during the course of our interview, I found the building of the school progressing rapidly and, from informations given to me by the local and Quebec Supervising Architects, the contractor is following both plans and specifications as required by the contract.

His Excellency Bishop LaBrie, due to the very late season, has taken it upon himself to authorize the construction of a residence for the principal and the staff, at a cost of $13,000.00. His only reason for acting as he did was to benefit by the presence of the school contractor who had part of the building materials on hand and who was able to obtain the balance very quickly as he owns two large freighting boats.

During the same visit, I had occasion to meet two Official Agronomists, Mr. Gagnon and Mr. Gauthier and, with them Mr. Rauzé, your Inspector, Father Décarie, the new Principal, and I discussed with the problem of erecting a small farm for the Sept-Iles School. Mr. Rauzé will have with him, when he comes to Ottawa at the beginning of the next week, the letter which Mr. Gauthier has written to him on this matter. It is Mr. Gauthier's opinion that a small farm, comprising two or three horses, ten cows, fifteen to twenty pigs, a henhouse capable of housing five hundred laying hens, is necessary to the welfare not only of the school, but of that of the Indians who will be residing on the reserve.

We were all of the opinion that the school contractor is the logical man to erect the buildings necessary for this farm as he not only has a large equipment, but can also supply all the lumber, hardware and labour necessary for this job.

Re: Oil Heating for the Sept-Iles School

Dear Mr. Neary:

I have already mentioned to Mr. Buck the advisability of installing an oil heating system at the above school.

This conviction has been arrived at after consulting His Excellency Bishop N.A. LaBrie, C.J.M., in whose diocese the school is situated. In a letter dated September 1st 1950, I find the following paragraph:

> "I am informed that the heating will be done with coal. From information received, I am told that coal will cost, when landed at the school, $40.00 per ton. There are at Sept-Iles two oil companies who maintain large oil tanks. Oil would be delivered by them allthrough the year, summer and winter. I believe that heating with oil would be cheaper than with coal because there would be no necessity to provide storage space for coal, which in that part of the country is always quite a problem. The Havre St. Pierre Hospital, which was using coal up to last year, has given it up for oil. Their main trouble was self combustion in the coal pile. This change is all the more remarquable as there are no oil tanks at Havre St. Pierre and the Sisters in charge of this institution have to buy oil in the fall of the year in barrels, for twelve months ahead."

T The Bishop also says that it seems that water will be heated by one of the boilers used for heating the school. This may be all right in winter, but he objects to using large boilers in the summer time only for that purpose. He states that it would be more economical to install a small oil heater for this purpose.

Buck

I believe that Mr. Macauley of the Dominion Coal Company mentioned Havre St. Pierre as one of their customers as an argument for the Sept-Iles School to use coal. The above statement of His Excellency shows that this statement of Mr. Macauley is not accor'ing to facts.

One other main reason for having an oil system in this school is that the storing of such a large quantity of coal -- 200 to 250 tons -- according to Mr. Macauley's opinion, will be quite a task. During the winter, and whether we want it or not, the Principal will have to use the boys of the school for handling the coal, which will prevent them occasionally to attend class or deprive them of necessary exercise. Moreover, coal will require a heating engineer and an assistant. For those who know labour conditions at Sept-Iles, this will be considered quite a financial problem and those who will be in charge of the school are certainly anxious to avoid all additional expenses.

As stated at the beginning of this letter, the Principal in charge of the school must operate it on the per capita grant allowed by the Department. It is therefore quite logical that he should ask that his work be made as easy as it can be done. Heating a school as large as this building is such a task that nothing should be done to complicate it.

Hoping that the above remarks will help your Department to adopt the best heating system for this school, I remain,

Yours very truly,

J.O. Plourde, O.M.I.

Dear Sir:

Indian Residential School - Seven Islands, Que.

I have for acknowledgment your letter of August 24 and the points which you have raised have been the subject of several discussions with our Chief Engineer and with the Reverend Father J. O. Plourde, O.M.I., General Superintendent, Indian Welfare and Training Commission, Missionary Oblates of Mary Immaculate.

The Oblate Fathers will be in charge of the operation of this school and naturally they are very much concerned over its economical operation. This Department pays a flat per capita grant for each pupil and the school management purchases food, clothing, fuel and other items out of this grant.

Firstly, with regard to the cost of the coal, I would like specific information as to the exact cost of it per ton, f.o.b. wharfside at Seven Islands.

Secondly, as there is no distributor or dealer at Seven Islands, it will naturally be difficult to arrange for storage facilities on the wharf or at Seven Islands and also for its transportation to the school.

Thirdly, we are informed that there are no coal users in Seven Islands and that we would probably be the sole

users. On the other hand, there are many users of oil and good storage facilities exist. Additional storage facilities are now being provided.

Fourthly, there is no definite assurance that a hospital will be built between Given Islands and Moisie and that it will use coal.

Fifthly, we would have to provide a storage shed at the school for the coal and we would further have to face additional labour costs in keeping the stoves filled and in removing the ashes. We naturally run these schools on a narrow cost margin and do not encourage the management to use the labour of the Indian pupils. Therefore, in many of our schools which burn coal, we have had difficulty in ensuring that the management did not use the older pupils on such work when they should have been in the classrooms.

There are other points and naturally your committee [redacted] be prepared to give further information concerning the above. Our Chief Engineer has discussed this matter with me and is aware that I am writing to you as above.

Yours sincerely,

Bernard F. Neary,
Superintendent of Education.

Ottawa, Ont.

Dear Sir:-

Re: Residential School, Seven Islands.

We were informed by the Tribee Company, Quebec City, that the original plan to installIron Fireman Stokers in this building has been cancelled and the coal burning equipment will be replaced with an oil burning installation. We were informed that the decision to change the equipment was brought about by the high cost of coal, in this case a figure of $35.00 per ton having been quoted.

We are selling the Clarke Trading Company Dominion Stoker coal from Sydney and they tell me it can be landed on the Wharf at Seven Islands for around $16.00 per ton. The extra handling to the Residence would not amount to more than another dollar or two at the outside.

If the Residence is large enough to consume 2/250 tons of coal on your order we believe that considerable saving could be made in the use of Dominion Stoker coal in this Institution as compared against what they would have to pay for oil.

When the other project for the proposed hospital between Seven Islands and Moisie materialises that would create another outlet for coal so if the aggregate quantity would run around 450 tons we could get a small steamer to float the coal from Sydney at a lower rate than they charge for a part cargo, so it is quite possible that the figure of $16.00 on the Wharf at Havre St. Pierre could be reduced.

On a comparative basis using 140 gallons of fuel oil to equal a ton of our Stoker coal and taking oil at 18½ cents per gallon this would be equivalent to coal at $25.90 per ton delivered.

Naturally we want to see the Government install coal burning equipment rather than have them purchase oil burning installations, and I am sure that this policy would find favour with the Minister.

If there is any further information we can give you that will assist in drawing up your plans for this plant do not hesitate to call on us and if necessary we are prepared to send our Combustion Engineer up to Ottawa to discuss the whole project with yourself or the Department of Public Works.

Superintendent of Education,
Department of Citizenship and Immigration,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Sir: Re: Indian Residential School - Seven Islands, Que.

I acknowledge with thanks the receipt of your letter of October 18th on the above subject.

For your information the best estimate at the present time on Dominion Stoker Pea coal is $15.00 per net ton ex ships tackle, Government wharf, Seven Islands. The Clarke Trading Co. have a store at Seven Islands, and that Company arranges the delivery of our coal to the hospital at Havre St. Pierre. I am sure they would be pleased to quote you a price on the Dominion coal for delivery to the Institution at Seven Islands. They have a truck that could be used to transport the coal from the wharf to the residence.

Although there are no bituminous coal users in Seven Islands, the Gulf Pulp and Paper Co., located right across the Bay at Clarke City, have used our coal for a good many years, and we put in a minimum of 1,000 tons a year to them during the season of navigation.

I know it would be difficult to obtain transportation at this late date, but if we could start to develop the matter early in April, arrangements could be made to float the coal from Sydney, N.S. to ~~Havre St. Pierre~~ Seven Islands for the Institution next season.

Personally, I do not believe it would be necessary to build a storage shed at the school but this is a matter that the people concerned with operating the school will have to take into consideration. An oil burning installation would not eliminate the necessity of a qualified attendant so the problem of filling the stoker and removing the ashes could be performed by the personnel required to operate the plant. In small plants the time required to handle the coal and ashes is not such that it requires the full efforts of an extra man.

If there is any further information that you would like to have on the subject do not hesitate to communicate with us and, if necessary, I would be pleased to go up to Ottawa and discuss the subject with you.

Yours very truly,

A. A. Macaulay,
District Manager, Coal Sales.

Dear Sir:- Re:- Indian Residential School - Seven Island, Que.

In the fourth paragraph of my letter of October 20th, I mentioned about floating coal from Sydney to Havre St. Pierre for the Institution next season, whereas I should have said from Sydney to Seven Islands.

Kindly correct this error.

Re: Seven Islands Residential School

This will confirm the information which I gave you by telephone concerning the cattle and the barn.

At a meeting held at Mr. Pratt's office, this whole matter was discussed at some length by the departmental officials concerned and in the presence of Mr. Pauze.

The following points of agreement were reached:

(1) That it would be advisable to defer the purchase of a herd and the erection of the barn at this school for at least two years.

(2) That during this two year trial period, we would have an opportunity of observing the effect of farming upon the soil and basing our future decision accordingly.

(3) That the school management be allowed to use an area of 100 acres as a school garden.

Yours sincerely,

Dear Father Renaud:

Re: Seven Islands Indian Residential School

The following is an extract from a telegram dated August 2nd received from Indian Superintendent B.G. Clench:

> "Could it be arranged to send some Indian children from this agency to the new residential school at Moisie about 12 from Romaine plus some others. Please wire reply so that there will be time to make preparations."

For your information I enclose a copy of our reply.

The Seven Islands Residential School has not yet been taken over by the Department, and before doing so it is our intention to have the Chief Engineer, or someone designated by him, to inspect the building.

As soon as you return to Ottawa, I would appreciate having an opportunity of discussing the situation at Seven Islands with you.

I am getting anxious to know what efforts are being made by the Principal of the Seven Islands Residential School to recruit pupils.

As we agreed when I discussed the matter with you in Quebec, it is absolutely essential that pupils be recruited and in the school before September 1st, 1952. The necessary application forms have been forwarded to the Principal.

I would appreciate hearing from you as to what action has been taken and what success has been obtained.

, August 14, 1952.

Mr. J.M. Pauze,
Supt. Indian Agency,
Seven Islands, P.Q.,

Superintendent Clench has telegraphed stating that he has ten children from Romaine who will be attending the Seven Islands Indian Residential School. He advises that these children will be going forward by Northern Pioneer for the residential school and will arrive at the school about August 17. Mr. Clench also advises that there are twenty-one children from Natashquan who will proceed to the school and should reach there before the end of August.

Superintendent Clench is not able to secure the necessary physical examination for these children and is anxious to send them to the school with the least possible delay.

It would be appreciated if you would contact the local Medical Superintendent in order that all the children admitted to the Seven Islands Indian Residential School be examined by the medical doctor and the necessary physical examination certificate on the application for admissions form be completed during the month of September or at any rate before the Principal forwards his quarterly return for payment of the Per Capita Grant for the September Quarter. We are instructing Superintendent Clench to complete the applications for admission for all the children he is sending to the Seven Islands Indian Residential School and forward these applications to your office for the completion of the necessary certificate of health.

, August 27, 1952.

Mr. J.M. Pauze,
Supt. Indian Agency,
Seven Islands, P.Q.,

I have recently received a number of applications for admission to the Seven Islands Indian Residential School. These applications were forwarded to this office in triplicate by Father Laurin. It is noted that the applications were signed by yourself and the necessary medical health certificates completed. The Department approves the admission of all these children and we are returning to you the duplicates and triplicates of these applications.

It would be appreciated if you would instruct Father Laurin that in the future he should forward the necessary applications to your office and you should forward them to this office for the necessary consideration. Should any of the applications warrant any special comments you should give them in a letter attached to the applications for admission. When the necessary applications are approved you will be advised accordingly. On receipt of the approval you should then advise the Principal that the children may be admitted to the school as grant-earning pupils. For your information we require only single copies of the applications for admission.

Philip Phelan,
Superintendent of Education.

Mr. J.M. Pauze,
Supt. Indian Agency,
Seven Islands, P.Q.,

With reference to the September Quarterly Return for the Seven Islands Indian Residential School, attached I am returning the duplicate copy of this Return as only one copy of the Return is required in this office.

It would be appreciated if you would advise the Principal that we are allowing thirty days for all the pupils who were in residence September 1st or prior to September 1 as the Department has been paying operation costs up to August 31 and if Per Capita Grant was paid for more than thirty days there would be a duplication of payment. This duplication of payment is not approved by the auditors.

For the column headed "Total Number of Days Pupil in Residence during the Quarter", the Principal has used ditto marks to show repetition of the number of days children were in residence. Please advise the Principal that this practice must be discontinued and he must indicate opposite each pupil's name the respective number of days the pupil was in residence.

You are advised that we have received the necessary applications for all the children listed on the Return and you may advise the Principal that a cheque for the amount of the grant will be forthcoming within the next week.

You may advise the Principal that any childrens' names who are added to the Return must be entered following the last pupils on the present Return. The names of these new admissions should also be included on Form I.A. 411. It is presumed that the Principal has a supply of these. Any discharges should also be entered on Form I.A. 411.

Please instruct the Principal that he may claim grant only for pupils who are actually in residence. It is noted that in several cases on the September Return the pupils left the residence during September while the Principal has claimed grant for them. We have disallowed the claim and have allowed grant only for the time the pupils were in residence.

You may advise the Principal that we are asking Treasury officials to make out the cheque for the Per Capita Grant payment as follows:

> "Please make cheque payable to:
> Seven Islands Indian Residential School
> and forward to Rev. L. Laurin, Principal
> Seven Islands Indian Residential School,
> Seven Islands, P.Q."

If there is any other way the Principal wants his cheques sent, it would be appreciated if you would let us know and we will make arrangements.

Dear Mr. Phelan.

Would you kindly send us forms for admission as it is our wish to rebuild our file here in school.

Due to a shortage of forms - our applications for admission were filled on all kinds of sheets -

I found the work here very interesting - but it is quite a task to follow a big group of boys all-day and at the same time to keep an eye opened on all the school problems -

Truly yours.

Mr. J.M. Pauze,
Supt. Indian Agency,
Seven Islands, P.Q.,

We have received nine applications for admission to the Seven Islands Indian Residential School for children from the Seven Islands Band.

Our records indicate that this school has an average attendance of approximately one hundred and seventy children and we have been informed that the school is already at full capacity. It would be appreciated if you would visit the Seven Islands School and advise whether the school can comfortably accommodate the nine children for whom applications have been received and whether further applications for admission should be considered.

We are not taking any action on the applications recently received until we hear further from you.

Philip Phelan,
Superintendent of Education.

Mr. J.M. Pauze,
Supt. Indian Agency,
Seven Islands, P.Q.,

With reference to the December Quarterly Return for the Seven Islands Indian Residential School, it is noted that Form I.A. 411 was not included with the Quarterly Return. Please arrange to have this form completed and forwarded to this office as soon as possible and instruct the Principal that future Quarterly Returns must be accompanied by this firm, otherwise the payment of the Per Capita Grant is delayed until this form is received.

Please advise the Principal that as pupil # 21 was placed in hospital on October 15th, the school was entitled to thirty days hospital grant, consequently we are allowing 45 days grant for this pupil. We have allowed 45 days grant for pupils 06, 018 and 029 for the same reason.

The Principal has claimed 56 days grant for pupil # 081. It would appear that this pupil was truant during the quarter, however, the Principal has neglected to indicate the period of truancy. Please give us this information and instruct the Principal that on future Quarterly Returns information in this regard should be shown under the Remarks Column.

, January 16,1953.

Mr. J. D'Astous,
Regional Supervisor of
Indian Agencies,
55B St. Joseph St.,
Quebec, P.Q.,

On November 17, 1952 we received nine applications for admission to the Seven Islands Indian Residential School. Our records at that time indicated that there were approximately one hundred and seventy children enrolled at the school and we were further informed that the school was filled to capacity. At that time we wrote Superintendent Pauze regarding this information and asked him to advise whether the school could accommodate the nine children.

On December 4th Superintendent Pauze replied that these children could be accommodated comfortably and that possibly ten more applications could be considered at a later date as accommodation would be available for them. On December 10, we approved the admission of the nine children.

On January 9 we received applications for admission of nine more children. The admission of these was approved.

We have now received applications for eleven more children to be admitted to the Seven Islands Residential School. Before considering these applications it would be appreciated if you would give us your opinion as to whether any more children should be placed in the Seven Islands Residential School. You should bear in mind that at least ~~five~~ hundred cubic feet of air space is required for each pupil in the dormitories. A complete and detailed report would be appreciated.

Yours truly,

Philip Phelan,
Superintendent of Education.

55B, St. Joseph St., Quebec,
January 21, 1953.

Indian Affairs Branch,
Department of Citizenship and Immigration,
Ottawa,
Ont.

Att'n: Mr. P. Phelan.

I have your letter dated January 16, 1953, your file # 352-10 (E6). I just had a telephone conversation with Superintendent Pause and Father Lambert; both assured me that they could take the additional eleven children with no inconveniences for these and those already in the residential school.

I have not figured how many cubic feet there would be for the children in the dormitories, but the two gentlemen mentioned above tell me that there is sufficient space, air circulation, etc., to keep the conditions very acceptable.

The Superintendent assures me that the new children being taken in belong to families where the parents are away and that if we did not take them in the residential school they could not attend school at all. As they have received over 200 beds down there and as those beds were ordered by the Branch they feel that it is only logical to fill them if the need arises. Father Lambert is very enthusiastic and he assures me again that everything is running smoothly.

, January 26,1953.

Mr. J.M. Pauze,
Supt. Indian Agency,
Seven Islands, P.Q.,

In view of the contents of Mr. D'Astous letter of January 21st, a copy of which was forwarded to you, the Department approves the admission of the following pupils to the Seven Islands Residential School:

Philippe Joseph
Bernadette Vachon
Malvina Thomas
Marie Andre
Bernadette Thirnish
Annette Thirnish
J. Real Vollant
Justine Thirnish
Robert Fontaine
Jean Baptiste Fontaine
Mariette Thirnish

With reference to the eight copies of application for admission attached, the Department is not prepared to approve the admission of these children until definite information and figures are provided to indicate that the school is not overcrowded and that sufficient dormitory and classroom accommodation at the school is available to accommodate the children comfortably. Although the Department is anxious to give as many as possible children an education, care must be exercised to avoid overcrowding the school to such an extent that the education of all the children suffers. Please advise.

We are holding the original copies of these applications pending the approval of the admission of these children to the Seven Islands Residential School. It is possible that in July when there will be a number of discharges the Department may re-consider these applications.

Philip Phelan,
Superintendent of Education.

Re: Your letter File 352-10 (E6)
January 26, 1953.

With reference to your above letter I wish to confirm you that even with 105 boys and 105 girls in dormitories our Residential school will not be overcrowded. As for the accomodation in the classrooms I wish to inform you that most of these children are from the same school (Residential and Day Schools pupils are in the same classrooms) having no Day School building here on the new Reserve.

I recommend that the last eight applications submitted be reconsidered and accepted by the Department.

Mr. J.M. Pauze,
Supt. Indian Agency,
Seven Islands, P.Q.,

With reference to your letter of March 11th, the Department approves the admission of four of the children to the Seven Islands Indian Residential School.

It is noted that Jacques Bernard St. Onge is only five years of age and as the school is quite crowded, the Department is not prepared at this time to approve his admission to the Seven Islands School. Please advise if arrangements can be made to have this boy remain at home.

Superintendent of Education.

Attention: Education

Dear Sir,

J. . Paschene (Bobby)
Fort Mackenzie

This child was in Park Savard Hospital for about four years. He must be between five and six years old now and on his recent return to Fort Chimo it was obvious that he is completely out of place there. He no longer speaks the Indian language and his mother being dead he is in the care of a none too careful father. Our nurse hoped that it would be possible for this boy to be put into a residential school where he could gain some useful education, which is not possible at Fort Mackenzie.

Could you be good enough to give this case your consideration please.

Yours very truly,

P. E. [illegible], M.D., D.P.H.

Mr. J. D'Astous,
Regional Supervisor of
Indian Agencies,
55B St. Joseph St.,
Quebec, P.Q.,

Attached is a copy of a letter recently received from Dr. Moore regarding the admission of E.W. Paschene (Bobby) to a residential school.

It will be noted that this boy is between five and six years of age. The only possible school that this boy could be admitted to is the Fort George C.E. Residential School if his father is Anglican or the Fort George R.C. or Seven Islands Residential School if his father is Roman Catholic.

It would be appreciated if you would look into this matter and arrange to have the necessary application for admission completed if you feel that this boy should be placed in a residential school. It is realized that the Principal of a residential school might not be interested in accepting this boy particularly when he has only recently been discharged from a hospital where he has been confined for the past four years as it is often necessary to provide special facilities and food.

Dear Dr. Moore:

With reference to your letter of August 25 regarding the admission of S.W. Paschene (Bobby) a former patient of the Park Savard Hospital entering a residential school, please be advised that we are taking the matter up with field officials.

I anticipate that I shall know what can be done to accommodate this boy in a few days and I shall then write to you again.

Yours sincerely,

We understand that the above mentioned lad is a Non-Catholic and, therefore, should go to the Fort George C.E. or the Moosonee C.E. However, as this lad is gone hunting with his parents and it would be impossible to reach him at the present, this problem will have to be postponed till next year.

As Mr. D'Astous is away, he has asked me to reply to this letter and to tell you that in the near future he is going to make a report on his trip in the North in which he will be able to outline certain recommendations for the improvement of these people.

Mr. J.S. Allan,
Supt., Indian Agency,
Moose Factory, Ont.

Winter Operation of Attawapiscat Indian Day School

Salary is being paid at the rate of $112 a month to the missionary teacher at this point. The recipient according to the pay list is Rev. Father Loiselle but it is understood that teaching duties are being performed by the Rev. Father Fay. Please inform this office who is now acting as teacher of the Indian Day school and have him complete and return to this office a copy of one of the forms enclosed. On the back of the form he is to add the date upon which he began service as teacher in this school and the months during which he conducted it and the number of days in each month that the school was in session.

It is understood that transmission of written reports during the winter months may be subject to delays and irregularities. Would it be possible to obtain at the end of each month a report by radio to Moose Factory where your office would reduce it to writing for forwarding to this office.

Meanwhile a report from you is desired concerning the following points:

(1) What facilities now exist for the conducting of school during winter and how many pupils can be accommodated?

(2) How many pupils do you estimate will attend school regularly during the winter months?

It is desired that this school and others of the same type situated in your agency should make reports in the usual manner through your office to this office

Dear Bishop Renison:-

We are in receipt of a letter from Rev. E. Louttit stating that he has not received any salary for his services for the quarter ended September 30th, 1946 at the Old Factory River School.

Our records show that in December we forwarded to you a cheque issued in favour of Rev. Mr. Louttit for the months of July, August and September, 1946. I would appreciate it if you would communicate with Mr. Louttit.

Yours very truly,

Bernard F. Neary

Dear Colonel Neary:

I have your letter of March 4th with regard to the Rev. R.E. Louttit's stating that he had not received any salary for his services for the quarter ending September 30th and that you had forwarded a cheque to us in December.

I would like to explain that there are only one or two chance planes in the whole winter going to Old Factory River on James Bay. The cheques to the Missionaries were sent after the New Year and Mr. Louttit may not have received his until March. Archdeacon Cook is trying to arrange some way by which these Missionaries can have a bank account outside where their cheques can be deposited. I am writing to Mr. Louttit and the matter will be attended to.

Yours faithfully,

Robert Moosonee

It is noted that there has been some irregularity regarding the receipt of reports and payment of salaries to the missionary teachers at these points.

In order to establish their eligibility for a regular salary please have each of the following complete and return to this office one copy of the enclosed teachers' classification forms:

Rev. Cyril Elliott
Rev. Samuel Isserhoff
Rev. Reuben Lentitt
Rev. J.W. Donaldson

Each of these gentlemen should also state on the back of the form (a) the date on which he began his teaching duties at his present post.

(b) The months (by name and year) during which he has taught and the number of days in each month that the school was in session.

In addition to the above, separate letters concerning each school are requested from you stating:

(a) facilities for conducting school during winter and the number of children who can be accommodated therein.

(b) Your estimate of the number of children likely to attend regularly during the winter months.

It is desired that these schools should furnish the usual reports and returns through your office to this Division. Because, however, of t e irregularity of winter mail service your opinion is requested as to the feasibility of having these teachers make an end-of-the-month report to you by radio, which report your office could put on the proper forms and forward.

Ottawa,
March 16, 1944.

EX'D.
A.

Mr. F. Matters, Indian Agent, Chapleau, Ont.

With reference to our discussion of a proposed school on the Constance Lake Reserve, it has been estimated that the following material would be required to erect a building 60' x 30' with 10' walls and with a full basement having a cement floor. The height of the basement would be approximately 9', of which 3' would be above ground.

Cement for walls	537	bags
Lumber " "	2625	bd. ft.
Feather siding	2800	" "
Inside walls	2625	" "
Ceiling	2250	" "
Rough flooring (This would also be used for cribbing)	4250	" "
Matched flooring	2250	bd. ft.
Roofing	3000	" "
Rafters	92	pcs. 2 x 6 x 20'
Ceiling joists	92	" 2 x 6 x 16'
Floor "	136	" 2 x10 x 10'
Bridging	500	lin. ft. 2" x 2"
Shingles	130	bundles
Bracing and ties	25	pcs. 2 x 6 x 10'
Tar paper	200	rolls
Hardware, windows and doors		

The above figures are only approximate and are subject to some variation. We feel that the approximate cost of material, plus the paint required for interior and exterior painting, would be $3800.

A ROOF OF FIREPROOF, ROTPROOF COLORFUL ASBESTOS SHINGLES

at the lowest price in Johns-Manville history!

It's true! A roof of genuine Johns-Manville Asbestos Shingles at the lowest price you have ever had to pay. And what a shingle! Combining beauty of color with the tried and time-tested advantages of asbestos, it represents the most outstanding value in all J-M's more than 85 years experience in the manufacture of roofing materials for the home.

Beauty Here is beauty such as you would never have thought possible in a fabricated shingle! The clean-cut shadow lines that make for interest and charm on a roof. The simplicity and dignity of line that are invariably associated with the finest architecture. Truly, it is difficult to believe that a shingle so lovely in appearance can also possess the permanence of stone.

Color But the stylists of J-M Durabestos Shingles were not content with beauty of design alone. They sought—and found—outstanding beauty of color, too. There is a soft green blend, for example, that seems to harmonize perfectly with any surroundings. A blend of rich, warm reds that gives a distinctive touch to any home. A black blend that makes one of the most strikingly handsome roofs you have ever seen. And there is a gray blend too—a color which is particularly suitable for present day homes.

Fireproof Like all Johns-Manville Asbestos Shingles, these Durabestos Shingles are fireproof—not just fire-resistant. Even the white heat of a blow torch cannot burn them! Against that ever-present menace which destroys millions of dollars in property each year—the roof communicated fire—they give your home effective protection. This advantage alone may some day mean the difference between security and disaster should sparks or brands from a nearby fire happen to fall on your roof.

Rotproof and Weatherproof Made of asbestos and cement, two practically imperishable materials. J-M Durabestos Shingles are immune to rot or decay. Built to defy the ravages of time and weather, a roof of these durable shingles needs no periodic upkeep—no expensive repairs. Applied on your new home or over the old shingles on your present home, it is an investment in protection that will endure as long as your house stands.

LASTING, LOW-COST PROTECTION AGAINST THE 3 WORST ENEMIES OF YOUR ROOF:

Shown above are a few typical examples of the use of J-M Rigid Asbestos Roofing Shingles by leading builders of fine homes. On existing homes, for re-roofing, they are easily applied right over the old shingles.

NEW FAST-LAYING DESIGN CUTS APPLICATION COSTS!

The development of the Durabestos Shingle was the result of years of study and research to produce a fabricated asbestos-cement shingle that would cut application costs to the bone. The answer was found in a strip type shingle which, when applied on the roof, covers in one simple operation as much area as 5 ordinary shingles!

In actual application tests, the Durabestos Shingle required less time to apply than any other Johns-Manville Rigid Asbestos Roofing Shingle and only slightly more time than the fastest-laying asphalt strip shingle.

Home-owners, builders and architects everywhere have been so enthusiastic in their response to this shingle that J-M has been able to take full advantage of modern mass production economies in its manufacture. As a result of these economies, plus its low application cost, you can now provide your home with the protection of a colorful asbestos shingle roof at the lowest price in Johns-Manville history!

Based on over 85 years of manufacturing experience in roofing materials, we recommend J-M Durabestos Roofing Shingles as the most satisfactory and economical shingles over a period of years any home owner can buy. We believe it is one of the most attractive and durable roofing products we have ever manufactured and its reasonable price recommends its selection.

From the WORLD'S LARGEST ASBESTOS MINE nature provides your home with modern roofing!

The ancient Tartars believed Asbestos to be akin to the salamander— fabled beast that lived in fire . . .

Charlemagne used Asbestos "magic" to avert a war with his powerful enemies . . . Taking a tablecloth of Asbestos, he cleansed it with fire before their eyes . . . Not knowing of this fireproof mineral that can be woven, such sorcery struck fear into the hearts of the Moslems, and they departed in peace.

As history marched on, men everywhere came to know this "magic mineral," but only in comparatively recent times has Asbestos been turned to the protection of lives and property—to the creation of new living comfort—and the saving of millions of dollars annually for industry and home owners.

Pictured above is the famous Johns-Manville mine at Asbestos, Que. It is the largest Asbestos mine in the world. Out of this huge pit, Johns-Manville mines ton upon ton of the raw Asbestos, hour after hour. Then, in Johns-Manville manufacturing plants, it is fabricated into literally hundreds of building and industrial materials which defy the ravages of fire, weather and time.

Durabestos Roofing Shingles are representative of the many Asbestos products which have come out of Johns-Manville's eighty-five years of research and development. The great J-M Research Laboratories are the largest of their kind in the world . . . devoted to the discovery of new ways to control man's ancient enemies—fire, weather and wear.

MAR 21 1944

The Indian Affairs Branch, Ottawa.

Re; Your letter 65-7-1, March 16th.
Constance Lake School.

Following our discussions in Ottawa regarding the above school I returned to Chapleau, then left Tuesday last to visit the reserve, and canvass the possibility of procuring material in the immediate vicinity, arriving in Hearst on Tuesday night.

First of all I got in touch with a Mr. E. Larson, a contractor living at Hearst, who was recommended as a competent builder, and as far as I could find about the only person who could take on the job of building the school, with him I went over estimates I had prepared on the train as to the amount of material required for the type of building we had in mind.

Mr. Larson had several suggestions to offer regarding the kind of material to use in the light of his experience with the climate of the district, which pretty well tallied with my own experience in Chapleau, one of these was that the roof should have at least a one-third pitch, so that the accumulation of snow would not weigh too heavily on the roof, another that the building out/to be insulated on the sides and ceiling to save fuel and ensure adequate heating at all parts of the building.

I agreed with his idea, as it was just what I had done to my own house in Chapleau, where the weather is pretty much the same as it is in the Calstock area.

Mr. Larson will be willing to consider either a tender for the construction of the building or on a day labour plan as soon as as suitable guide plan can be prepared, I presume it will be possible to have a plan drawn up up.

I then proceeded to interview the hardware and building supply dealers to find out what material was available for immediate purchase and secured a list of prices from the George Taylor Hardware, and the Fellow Hardware at Hearst, the prices of the latter were all higher than the former, so I eliminated those, and the prices on the attached requisition are all from The George Taylor Hardware Co. except for the

for the Birch Flooring, which is taken from the Halliday Co. of Hamilton catalog, and the paint, which I notice from a purchase order just received can be purchased much cheaper from the representative of the Sherwin Williams Co. in Ottawa.

The George Taylor people are prepared to invoice the goods at once, and hold to our order in their warehouse without any storage charge, until we ar ready to take delivery, there not being any storage facilities in Calstock that we could use if delivery were made at once.

On the basis of the material available I would recommend that it be built as follows,

Full basement with cement floor

2 X 10 floor joists, covered with a sub floor 1" rough ~~+~~ ½ BIRCH.

2 X 4 wall studding, covered outside with Gyplap sheeting, this is fireproof material, V jointed to prevent drafts, a full half inch thick which will not warp or dryy out, I favour this against lumber as ~~it~~ any lumber available is green and is bound to dry out and draw on the studs, with a clapboard finish on the outside of the sheeting.

Inside walls, filled with 3" insulation batts, by using this it will only be necessary to have one layer on the studding, which I recommend to be ½" Gyproc, this is easily and quickly applied and will leave a good surface to be painted.

The ceiling to be the same as the inside walls.

Roof, one inch rough lumber on the rafters, covered with tar paper and Asbestos shingles, these are absolutely fireproof and last a lifetime, they are not affected by heat or cold which at times is extreme here, and are not subject to the drying out and curling which so often happens to cedar shingles, I could not geta a price on the latter, there not being any in the vicinity, very few being used so far North.

I propose a door at each end of the building, with a small porch and outside door on the front, with five windows in each side, the size quoted on being two lights, upper 20 X 30" and the lower 30 X 30".

When in Ottawa no basement was proposed and I got a price of $29.28 on an "Adam Hall Cast box stove, large enough to take a three foot stick, this price F.O.B. Hearst, tax included, however with the basement I think it would be preferable to install a wood furnace, which for the size of the building, and the locality should be rated as having a capacity of 25,000 cubic feet. AT LEAST.

In your letter of material required it appeared that 2 X 4 for wall studding had been ommitted, these I have added to the requisition, with regard to the tar paper, I did not get a price on this, but I question the amount estimated and suggest that you have it checked by Mr. Doucie, accordingto my estimate we need only enough to cover 7,000 square feet.

I have also left open the amount of nails needed for his estimate, which ought to be better than mine, with regard to the ceiling rafters, the longest available here are 16 feet, and I have added enough in number to allow for splicing if necessary by using the 16's.

I did not receive your letter until I had returned to Chapleau, and the quotations I secured were on the basis of the original building 50 X 25', without a basement, so I have had to make the changes required as to the amounts etc.

Also required will be suitable bell to call the children to school, and a good sized Union Jack, the latter I would like to have before I pay treaty this year, whether the building is finished or not, I am assured that a suitable flag pole will be erected.

With all this detail I trust that you will be able to go ahead with the purchase of the material, if there is any further information required I will be glad to try to get it for you, I might add that the order if placed should be addressed to The George Taylor Hardware Co. Hearst, Ontario, except for paint and Birch flooring as mentioned previously.

Ottawa,
March 29, 1944.

Mr. F. Matters, Indian Agent, Chapleau, Ont.

I desire to acknowledge receipt of your letter of the 19th instant, enclosing requisition for materials required for the proposed Constance Lake Indian Day School.

We have submitted these requisitions to the Purchasing Branch and purchase order is being issued today.

I wish you would get in touch immediately with the George Taylor Hardware Company, Hearst, Ontario, and advise them that the purchase order will reach them shortly. I note from your letter that they are prepared to store the goods until they are required, but as we are paying for the material from the appropriation for the fiscal year 1943-44, it would be absolutely necessary for us to have the account dated not later than March 31, 1944. Please note these instructions particularly. The account should reach us some time previous to the 20th of April, as we are allowed to pay from the old appropriation until that date, but, as just stated, the account must be dated previous to March 31.

We have reviewed your letter very carefully and enclose a rough sketch of the proposed building. You will notice that this sketch is suggestive, but I believe will be sufficient to convey to you the idea that we have in mind.

You will notice that we are providing an entrance for wood, material etc. into the basement by means of a ramp. This opening should be wide enough to provide space for the entry of fuel and other material of greater bulk that might be stored in the basement.

You will also note that in the sketch four windows are indicated. These might easily be regrouped in pairs, in order to provide more lighting. On one side, however, we believe it would be better if half windows were used high from the floor, in order to prevent any cross light and at the same time provide sufficient lighting for the room. This would also permit blackboard space below these half windows.

The door might be on the opposite side from that indicated in the sketch, if you think such a position would better suit local conditions. You should provide as much window space as possible in the basement, in order to allow daylight to enter. No windows should be put in the wall opposite the front door.

I note that you suggest 2 x 4 wall studding and, in order that the purchase order might not be complicated and delay us, we have ordered this. However, it is our idea that it would be preferable to use 2 x 6 studding, in order to give better support to the roof. This size of studding is especially necessary, as there will be no sheeting on the interior of the walls. Our suggestion might entail some additional expense, but would, I believe, greatly strengthen the building. As regards the Gyplap sheeting for the outside wall, I would like to draw your attention to the fact that this article has very little bracing power. Personally we prefer diagonal sheeting. This latter sheeting could be covered with asbestos shingles which would make the building more fireproof than it would be if the other method were followed and, besides, would make the building more rigid. It would be appreciated if you would let us have your comments on these suggestions.

In the event of our suggestions being followed, we would have to change the 2 x 4 studding to 2 x 6 studding. However, do not take this matter up with the George Taylor Hardware Company at the present time, as it can be adjusted later, and, in the case of any additional expense, we can have necessary authority obtained from the Purchasing Branch before the erection of the building commences.

Dear Sir.

I write to you on behalf of the Treaty Indians at Ogut and Ont. This morning Mr Ogut and told that there were 60 indian children of school age children there. You can understand the need of a school. There are the buildings of a hunting co. there that have been unused and could be secured. So that a school building would not need to cost much. A residence would also be found for the teacher. The Buildings are run with Pidgeon lumber to Port Arthur. Thanking you for your kind co-operation

Dear Sir;-

Further to our conversation some time ago about material for the proposed school building at Constance Lake Reserve, near Calstock.

I am advised by our Ottawa office that a Purchase order has been issued and which you will receive in the course of this next day or so, covering the material quoted upon ~~x~~ when I was in Hearst.

Please have your invoices made out as soon as possible and forwarded to me at Chapleau before April 10th, also be sure that they are dated March 31st. or the date that the order reaches you if previous to this.

We do not require immediate delivery, so do not ship to Calstock until further advised, it may be that there will be one or two changes necessary, such as the subetitution of 2 X 6 for 2 X 4 lumber, and it is possible that a change will be made in the outside sheeting of the building, I will see you about this in good time, but we want to ensure that the invoice of the goods on the purchase order is put through at once.

You will find that the amount of material has been greatly increased in some instances, this is due to the fact that on my return to Chapleau I was advised that a change had been made in the plans, and a concrete basement was to be included.

I will be up to Hearst to see you before it is necessary to have any of the goods shipped.

Yours sincerely

Re: Your letter 65-7-1, March 29th.

This will acknowledge receipt of your letter as above, needless to say I was glad that the you were able to get the purchase order through in time, I am attaching a copy of my letter to the George Taylor Hardware Co. regarding the invoicing of the material.

Thanks for the sketch, it gives me a much more complete picture of the type of building that you have in mind, and when construction begins I will see that your ideas are carried out.

I think that the windows as laid out in the sketch ought to be increased to six, which would give us approximately 18' X 5' of window space on one side, and this with the same number of smaller windows, high up and staggered as to location on the opposite wall should provide enough lighting, these might be covered with blinds during the teaching period if it were found that the cross light was hard on the eyes of the children, also I think that the small windows should be of the transom type, so that they could be opened to give ventilation.

It might have been as well had you changed the requisition to read 2 X6 instead of 2 X 4, at the price given for the former size, as I found it necessary to mention the possible change in my letter to the George Taylor Hardware, also about the outside sheeting, as it was quite possible that they would proceed to accumulate the material and then find that they had some that we did not need, I quite agree that the 2 X 6 would be a far better proposition than the lighter material, and feel that I was very lax in my recommending this size, as I should have known from the expanse of walls and roof that a stronger wall would be preferable.

With regard to the outside walls, as I mentioned, my main objection to lumber for the primary sheeting was on account of it being green, and thus liable to

.....dry out.

dry out and create draft spots, however if the building is to be insulated and Asbestos Siding Shingles applied with a good lap allowed, then there would be no objection to lumber and no chance of any draft getting through, and the diagonal method of sheeting would be much better.

I trust that you will accept my explanation with regard to the letter to the George Taylor Co., and the last paragraph of your letter, I felt that I had to decide to advise them rather than have any difficulty later.

As soon as I receive the invoices I will send them forward for payment, and feel quite safe in saying the we will have them in ample time.

MEMORANDUM: Superintendent of Welfare and Training,-

Please refer to the invoice on the file hereunder in favour of the George Taylor Hardware Co. Ltd., of Hearst, Ontario, of $3,008.89, covering material ordered for the construction of an Indian Day School at Constance Lake.

The file indicates a recommendation to the Governor in Council to establish an Indian Day School on the Constance Lake Reserve, Chapleau Indian Agency, and that funds are available in Vote 165 1944-45.

The purchase order, No.23309, of March 29th, 1944, was received in this office from the Purchasing Branch and has been set up charging this expenditure to the 1944-45 accounts.

Correspondence on the file further indicates that the materials ordered have not been delivered, and I do not understand how Indian Agent Matters can sign the certificate on the bottom of the voucher that the material has been supplied, the work performed, that the charges are fair and just and that the expenditure has been incurred.

The account on the file is returned to you in order that the account may be presented for payment when the material has been delivered and that it may be legitimately charged to the 1944-45 accounts.

Dear Sir:

I wrote some little time ago to the Indian Department about a school for 60 Indian children at Aroland just a few miles west of here. These Indians are of the Longlac Band.

Mr. Hoey of the Indian Department confused this with "The Constance Lake Reserve" which is in the province of Quebec.

Now I did not ask for a school at "Constance Lake" but at Aroland which is 12 miles west of here on the main line of the C.N.R.

Kindly enquire about this.

I am sending forward herewith copy of a letter dated March 24, 1944, received by this Branch from the Reverend M. Stanley Elliott, Nakina, Ont., and also copy of a letter received by Mr. M. J. Coldwell, M.P., from Mr. Elliott, dated April 18, 1944.

It would be appreciated if we could have a full report from you on the desirability of establishing an Indian day school at Aroland. Are the Aroland Indians actually living on a reserve or are they only temporarily employed at that point? It would be appreciated, also, if we could have a statement indicating the number of children of school age. While no provision has been made in the estimates of this year for the construction of an Indian day school at Aroland, the construction of such a school, if recommended by you, might be included in the Government's post-war rehabilitation program.

Dear Mr. Coldwell:

I have for acknowledgment your letter of May 24 and also copy of a letter dated April 18, 1944, received by you from the Reverend M. Stanley Elliott, Nakina, Ontario.

This Branch has already authorized the construction of an Indian day school near Calstock, Ontario, and it is my hope that construction on this building will start almost immediately. This building is being erected on a new Indian reserve to be known as the Constance Lake Reserve. These reserve lands were recently purchased by this Branch from the Ontario Government, for the establishment of groups of Indians that have been living at Pagwa and other points along the Canadian National Railway. When Mr. Elliott communicated with us on March 24, it was our understanding that the new school would accommodate the children from Nakina. It is just possible, however, that an additional school may have to be erected to provide educational facilities for the members of the Longlac Band. I am today communicating with the Indian Agent in respect to this matter. I should add, however, that no provision has been made in the 1944-45 estimates for the construction of a school at this point.

In reply to your letter of July 13th. on above file.

I have been expecting from day to day to hear of a surveyor being sent up to lay out the reserve and road to the reserve, before any work could be done on the school.

Will you kindly draw this to the attention of Mr. Allan who has been trying to get a surveyor for some time now, as soon as lines are run we ought to be in a position to get started on the road, but until I go over this, which I had expected to do some time next week with Mr. Arneil it is not feasible to apply for any money as an estimate of the cost.

Having finished with some of the other jobs in the agency and being about through paying Treaty, I will be able to concentrate more on this locality now.

I wish to acknowledge receipt of your letter of May 29th, file 65-7-1, with attached copy of a letter from the Rev.M. Stanley Elliott, of Nakina, Ont. regarding the adviseability of opening a school at Aroland, Ont.

In reply I wish to say that I have made enquiries every year at Treaty payments at this point, regarding the adviseability of opening a temporary school in one of the old Aroland Logging Co. buildings. I have also discussed with the Indians at great length the adviseability of sending their children to residential schools. Unfortunately, several years ago three children died at Fort William during the time they were attending residential school. The Indians were very much concerned and refused to send their children to a residential school since that time.

During Treaty payments this year, I stayed an extra day to discuss the school question thoroughly with these Indians and I wish to report that after a very careful survey only nine children would actually remain at Aroland, to attend school, if the Department opened one at this point. I have no guarantee that the nine would actually attend as some of the parents stated that they might go trapping.

These Indians are typical bush Indians, living the Indian mode of life and derive their living by hunting and trapping, and they take their families to their trap lines and move from place to place continually. Under these circumstances I do not think I would be justified in having the Department open a temporary school at this point.

In conclusion, may I point out that there are several fairly large Indian settlements, where the Indians do not reside on Indian reserves along the main line of the Can. National Railways; namely; Aroland, Ombabika, Taahota, Collins, Savant Lake, Armstrong and Allanwater.

I have got in touch, several times, with Father Couture and Father Rolland, in connection with trying to persuade these Indians to move to a reservation where permanent work could be secured for them and where they would be able to send their children to school, but unfortunately we could not persuade them to move, and the missionaries tell me it is impossible to do very much with this type of Indian. However, I do think some action should be taken regarding schooling for these children after the present War is over.

Re; Constance Lake School.

In company with Mr. Arneil I visited the new reserve at Constance Lake a few days ago, and went over the propsed site with him, this has been decided upon, in such a position that we will be able to lay out the village around it and the other principal buildings.

In view of thefact that it has not been possible to have the reserve surveyed, and thus build the road first, and the large number of children who are now at Calstock without any educational facilities, we thought it best that the building of the school should be proceeded with as soon as possible and that the cement basement as planned be omitted, as this would be a very slow and expensive proposition to freight the material to the site without a road, the balance of the material could be taken by a small scow across the lake.

We also saw Mr. Larsen, who is the only contractor available in the district, who has a good reputation for sound work, and who would be able to start work about August 15th., he was not willing to give us a price for the job complete, would only take it on a day labour plan; with the labour available and the rate to be paid, which was $1.00 per hour for Mr. Larsen, scaled down to .45¢ per hour for some of the Indian labourers, the cost would be approximately $2,000.

If you agree to the plan to proceed without the basement, and I cannot see any other way to get the school in operation this fall, will you makethe amount available so that I can pay them every two weeks as the work proceeds, we also got a promise from Mr. Perry of Arrowland Lumber Co. to rent us his Bulldozer to clear the site, this ought to take about two days.

You will note Indian Agent Matters' letter of August 8. In this he refers to the fact that it has been decided not to have a basement under the proposed school at Constance Lake. Mr. Arneil mentioned this to me, but did not give any details. No doubt you have discussed the matter fully with him. In the event of your approving the suggestion in the Agent's letter, I have prepared encumbrance requisition and request for cheque which, of course, also requires your signature.

Dear Sir

I hereby make application for the position of Teacher on the Calstock Indian Reserve, a work which I believe is to be opened up in the very near future.

I have had a number of years experience in Indian work both in Saskatchewan & in Ontario, & was Principal & Missionary in charge of the Indian Residential ~~School~~ at Moose Factory James Bay, for nearly five years.

I am a graduate in 'Arts' of the University of Saskatchewan & of Emmanuel Theological College, Saskatoon, Sask^n., also a Veteran of the Great War of 1914-18, serving nearly four years Overseas.

My age is 58 & I am a married man with One child, a son, now serving Overseas in the R.C.A.F.

The arrangements as outlined by Mr. F. Matters Indian agent at Chapleau Ont. are quite satisfactory to me & I am ~~now~~ prepared to start September 1st next if required. I look forward to the work at Calstock & hope that my application may be accepted

Yours Very Sincerely

Re: Teacher for Constance Lake School.

I am enclsoing the application of The Rev. J. Blackburn for the position of teacher at the above school, I would endorse his application as that of a man who is well qualified and one on whom we can depend to have our wishes carried out.

I saw him when passing through Cochrane on August 14th., and explained the situation at Calstock and what would be required of him, if at all possible I think that the teacher ought to be appointed soon, so that he may be on the spot whilst construction is in progress and help me in the supervision of the work.

I have your letter of the 18th instant, enclosing application from the Reverend J. Blackburn for the position of teacher at the Constance Lake School.

The Department does not feel that it is possible to appoint the Reverend Mr. Blackburn immediately. However, as the school will be nearly completed by October first, we are willing to appoint him as teacher from that date, at a salary of $100.00 a teaching month, plus bonus. I enclose the necessary forms, which he should complete and return to this office.

I enclose also requisition forms on which he should state the supplies that he considers will be necessary to start the school.

I would like a little information regarding deductions to be made from wages paid by me for the erection of the Constance Lake School.

This school is being erected by day labour and I plan on paying them every two weeks.

The Indians will be free of any deductions as they are working on their own reserve, but there will be several white men employed, and it is with these that I would like some direction.

According to the lumber company book keeper they make a flat rate deduction for Income Tax purposes of 10% for ~~xx~~ single men and 2% for married men as they come under the seasonable occupations list, would it be inorder for me to do the same thing as I understand carpenters come under the same classification?.

Further with regard to Unemployment Insurance, will it be in order for me to continue only with any that might have unemployment books, I do not know if any have these, but presume that if they have we will have to continue the filling in spaces with stamps for the time they are employed by us.

Re. Constance Lake School.

On my visit to the location of the above school, on the new Constance Lake Reserve, last week, I saw the George Taylor Hardware people who are supplying the material, Mr. E. Larsen the contractor -also Mr. De. Wolfe and Mr. Parry of the Arrow Land and Logging Co., besides a number of the Indians.

Mr. Larsen had just finished a construction job, and after a day to pick up his tools would be able to go to Calstock to begin work, this would be on August 17th., he was taking one other carpenter and would secure some labourers from among the Indians.

The George Taylor Hardware had most of the material required on hand, and the balance was on order and would be at the site in good time.

At Calstock I went over the site with Mr. Perry of the lumber company, and he was to put his tractor and Bulldozer on the job of clearing the amount of land required at once, he estimated that two days work would clear an area about 100 feet square or more, this would be enough for our immediate needs.

Since my return I have been advised by Mr. Brenner, of Phillips and Brenner, Surveyors etc. that they had been engaged to do the survey work on the reserve, and requesting a date for me to meet their man at Hearst, I have given them August 30th. as being most convenient to me, as I will have to go up every two weeks to pay the men engaged in the construction of the building, and will go over the site with him, and plan out the townsite as suggested, using the best location and leave it to him to line up a road according to the land levels to that point.

Any comment or suggestions you may have will be appreciated.

Mr. F. Matters, Indian Agent, Chapleau, Ont.

I have your letters of the 21st instant, in connection with the erection of the new Constance Lake School.

As you state there will be no deductions from payments made to Indians for income tax, as they are working on their own reserve.

With reference to income tax deductions from the white men employed, it will be in order for you to follow the same procedure as the lumber company. At the end of every two weeks you should draw a cheque in favour of the Receiver General for the amount of income tax deducted and you should forward this to the Inspector of Income Tax for the district.

All the white men employed should have unemployment insurance books which they should turn over to you while they are working on this job and you should buy the necessary stamps and put them in the books, which should be returned to the men when the work is completed.

When preparing labour return forms to account for the advance which you have been forwarded two entries should be made on the last two lines. One entry should read "Amount deducted for income tax" and should show the total deducted and your cheque number. The other line should read "Payments for unemployment insurance stamps" and should show the total expended for this purpose and your cheque number.

Re: File 3-65, Pagwa River

xx xx xx

Several other questions regarding trapping and relief were discussed and explained to their satisfaction.

After the meeting was closed I began paying Treaty as I wanted to be all through by noon the following day to catch the train East, to have missed it would have meant another four days at Pagway River.

Most of the Indians present came for their money, but 26 heads of families or single persons either appeared at the pay table and refused their money or else did not appear at all, George Faries was among those who did not appear at the table, Simeon Taylor #39, Joseph Natawabin #70 and Gauis Reuben #72 appeared and even after I had explained they they did not have to leave Pagwa River if they did not wish to do so, and that the acceptance of their money would not make any difference to what happened at Constance Lake, that they would still get every consideration from the Department wherever they lived, still refused to accept their money and left it on the table, I had Constable Spencer attest on the roll to this effect.

They did not know why they would not accept it under the new Band and number, the stock reply being "We do not want to have anything to do with Calstock", and unless I listed them under their old Band and numbers they were not interested, I showed them that this could not be done as the Band lists were our only method of keeping account of them, I had the Chief and interpreter show them on my books where Indians had been paid by cheque, so that if it happened that I did not get to Pagwa any other year it could easily be sent to them, but to no avail.,

I was very patient with them, and spent the rest of the day and part of the next morning in paying the rest of those present and left for Calstock at 3.30 p.m. feeling satisfied that I had done everything in my power

to convince them that no coercion was being used at all.

Regarding relief I checked and found that several old people were in very poor circumstances and had not been getting the full ration as authorized, and although some were among those who refused their money I advised the manager of the Hudson's Bay Store that I would write him and send a list of the goods to be supplied to them in future, through the interpreter I learned that some of the old people were afraid to accept the money as they had been told by George Faries or his friends not to do so, I would classify him as a pretty much of a local bully.

This whole situation appears to emanate from one of two sources, either Mr. Ericson, a C.N.R. section man who also runs a store, a pool room and deals in furs, or the manager of the Hudson's Bay Co., I rather think it is the former, as I learn that he had written a letter to Archdeacon Woodall of South Porcupine, complaining that the Rev. N.R. Clarke was trying to force the Indians to go to Calstock, which is not true, he may have advised them but he is not in the position to attempt to force them to go.

Neither of the telegrams you received were drawn up or written by George Faries, who speaks poor English and I am given to understand cannot read at all. I think it would be worth while to get the original messages which will be on file at the C.N.R. Office at Pagwa and to find out by a comparison of handwriting who is creating the unrest, if the matter was handed over the R.C.M.P. they could and I'm sure would find the culprit, as I am perfectly satisfied that it is the work of one of the above, or both, as if the Indians move they will lose their business.

With regard to the night letter of June 19th. Faries is wrong in his statement that they would not be paid unless they promised to move to Calstock, I stressed the opposite all the time, they could have but would not accept the Treaty money except under their own terms which were impossible, Mr. Arneil can verify that last year the great majority of those present were in favour of Calstock

and still are, but not so many of these men were present this year as they waited until I went there/to pay treaty. I expect to go up with Mr. Arneil when he visits the agency about the end of July or early in August.

I think this matter will settle itself as soon as we get the school established at Constance Lake reserv, and when the Indians find that they will be much better off there than at Pagwa River, in the meantime unless there is a very great change in opinion among them I would strongly suggest that no other effort be made to pay them Treaty money this year, they having had the chance but refused to accept it, and that the proposed action by the R.C.M.P. be proceeded with.

QUARTERLY REPORT ENDING MARCH, 1945, FOR CHAPLEAU AGENCY

Welfare and Training;

During the quarter I visited both the Mattagami and Constance Lake Day schools, I found both of them being run efficiently, and the children quite eager to learn, they will xxxx both have school gardens when the season opens.

In both schools I have stressed the importance of manual training, gardening, use of tools etc., this was to be done, if necessary at the expense of the class room work suffering.

Both Mr. Doherty and Rev. Blackburn appear to be well liked by the Indians, and they are doing a lot of good work apart from the class work, by their advice and guidance.

The schools are closed now for the summer, but I was very pleased when at Constance Lake a few days ago to see the children playing ball, they had been taught the rules and knew the game fairly well, organized games will help a great deal in dispelling the inferiority complex which affects a freat number.

Re: Constance Lake School.

After having a discussion with the Inspector of Public Schools of the Cochrane District, I wrote the Department of Education asking them to give him permission to inspect the above school when he was working in the District.

I am advised by the Department of Education that the request should come from Mr. Phelan and I would ask him to make application for the Inspector to do this.

Our Mattagami Day School is inspected regularly once a year by the Public Schools Inspector of the District, and I find it is a great help to the teacher to have the benefit of his advice. It also tends to keep them more efficient when they know that a qualified Inspector will be checking up on their work.

AGENT'S REPORT FOR THE QUARTER ENDING MARCH 31st, 1946.

xx xx xx

Matters & Remarks:

During March the Public Schools inspector for the district was in Chapleau and inspected the Chapleau Residential school, I have not got his report on the class room work, but he appeared to be very well pleased with the school and children, the former gave him the impression of being well run, and the children were clean, bright and healthy.

The Day Schools at Mattagami and Constance Lake are operating well, and I hope that we will be able to keep the same teachers next year, they are both interested in their work, the children have been good in their attendance.

There is not quite so much work in the district as formerly, due to seasonal slackness in the railroad and lumber industries, but as far as I know all the able bodied men are still working or out trapping, the Muskrat season is open now, but the weather is very much against a good season, as it is impossible to travel due to the ice conditions.

I would like to see something done in providing accomodation for Manual training at the Chapleau School, this was included in the Post war list, and is a very necessary item for the boys' training.

- Col. Neary -

I wish to confirm my conversation with Mr. Phalen and yourself concerning the clearing of a area surrounding the Day School at Conatance Lake Reserve. The clearing of this area is to make an adequate playground and school garden. The clearing is very heavy and will entail the cost of approximately $250.00.

It would be appreciated if Mr. Matters might be advised regarding this approval at as early date as possible, in order that we may use a bulldozer, at present working on the reserve, for a few hours on this project.

As it is Indians who are doing the work, they expect to be paid at least once every two weeks. I would suggest that the $250.00 be encumbered and sent forward as an accountable advance so that I may be able to pay them at the same time as I pay those who are working on the road and houses.

Reverend Sir:

We have received your application for classification on the Indian school teachers's salary schedule. It is noted that you have requested classification as a Grade III welfare teacher.

You will note upon reference to the April issue of the Bulletin that a Grade III teacher is one holding a first class teaching certificate. You do not produce evidence of holding such a teaching certificate.

Could we please be advised if you have had teacher training in a normal school conducted by a Provincial Department of Education or if you hold a teacher's certificate.

Re; File 65-7-1
Letter August 7th. 1947

I was very sorry to see that the above letter had been sent direct to Rev. J. Blackburn instead of to myself, as, knowing the man and the work he has done for this last few years it is adding insult to injury.

He holds his B.A. certificate and was qualified and did teach in one of the universities, as is shown on his application, he has worked every summer since going to Constance Lake reserve without any pay from the department at all, and is doing so now, doing general welfare work among the families on the reserve.

His wife, Mrs. Blackburn,has been holding sewing classes for both the school girls and the older women on the reserve without even thinking of asking for any renumeration.

It is fair to say that throughout the year that between them they put in as much time doing welfare work as the the ordinary teacher puts in in the classroom, as every day or night there is someone around who is sick or in trouble.

These people left a town where there was every convenience to go into this work, going to an isolated point where there is no convenience at all, neither light,water or other white company, they are two miles from a telephone and whenever anyone is sick on the reserve have to go out to phone the Doctor, in the wintet time this is quite a job.

When Mr. Blackburn went to the reserve none of the children understood a word of English, ans since then he has made wonderful progress with them, he is

able to talk to them in their own language, which is a far greater asset than any teaching certificate, without this pregress would have been very slow.

He did write asking that he be allowed to take up the course by correspondence, but when I last saw him he had not had any reply, actually I think this would be a waste of his time, he only has a few more years to teach before he is 65 and I think we ought to use him to the full whilst he is available and pay him a reasonable salary for the work he is doing.

It was my understanding that these changes were intended to help such cases as this, and I do hope that not too much weight is given to holding of certain certificates and too little to practical experience.

I suggested in my reccomendation that you speak to Mr. Arneil about this case before passing on it, and I would appreciate if you would see him and do whatever you possibly can in view of the circumstances, his appointment as a Welfare teacher Grade 1, would simply give him about the same salary for 12 months work as he now recieves for 10.

Dear Col. Neary

Thank you for your letter concerning my application for Grade III. 'Indian Welfare Teacher' rating.

I applied for this on the advice of Indian Agent Mr F. Mathers of Chapleau, & because I & my wife have been doing this type of work for the past three years & since the start of this Reserve. It is a newly formed Reserve & over 200-miles from the nearest agency. Consequently I have been helping Mr Mathers to get things started up, besides the care of the sick & the Welfare work in general.

I have taken two Teacher Training Courses in connection with our Mission work, also I have read some of the Ontario Normal Training School ~~work~~ books but I have never actually been to Normal school nor received one of their Certificates for Teaching. I also took some Educational work & Teaching in my University work for my B.A. degree.

For further information I would refer you to Indian agent Mr Mathers of Chapleau who now has the letter which you sent on to me.

With Every good wish Yours Respectfully

Re;Teacher grading Constance Lake day school.

Without making any further recommendation on the above I think it advisable to forward to you a copy of an excerpt from a letter I recently received from Mr. Blackburn, the teacher in question.

" I had written a letter to Ottawa about the grade of the teacher here, but before I had a chance to mail it I received a second one from Col. Neary saying that I had been classified as a Grade 1 Welfare teacher with a salary of $1.320.00 on a twelve months basis. As you know I was getting $127.00 per month for the school year of 10 months or $1.270.00 for the year. The extra granted means that I get the noble sum of $50.00 for July and August, or in other words a reduction from $127.00 per month to $110.00, the Irishmans rise. Evidently a University degree counts for nothing in the eyes of the Ottawa officials for I am put in the same grade as one who has only taken his Junior Matriculation. I am therfore too disgusted to bother mailing my letter so it remains on my desk unposted."

Reference your letter of September 17

The policy of all Departments of Education in the various provinces of Canada is to insist upon a teacher holding a proper teacher's certificate before granting such a teacher the various salaries laid out in their salary schedules. Our Department is merely conforming to this general practice in insisting that our teachers hold proper certificates.

We have several other instances where teachers hold degrees and find themselves in the same position as the Reverend Mr. Blackburn. It is regretted that the Rev. Mr. Blackburn objects to his present classification and we wish to know if he would rather revert to his former classification of day school teacher than his present one of welfare teacher. However, we have no alternative other than to insist upon the holding of proper teaching certificates before granting salary increases.

This will acknowledge receipt of your letter of June 23. We have as yet to hear from Mr. Elliott, but I am sending you an application form, in the event that he writes to you.

I note from a copy of a letter which we have received from Mr. Matters that he feels Miss Reesor would be better employed at the Mountbatten School. I hope that you have had an opportunity of speaking to Miss Reesor and that we will hear from you regarding her employment at Mountbatten.

Dear Col. Neary:

Many thanks for your's of the 26th. inst. and I note it's contents.I don't think Mr. Stephenson could expect anything more fair than that, and I will see he is informed of my opinion.

On June 16th. I wrote to Mr. Matters whom I thought was still at Chapleau. I was very glad to hear of his promotion.He should be a very valueable man in his new position. The letter was in regards to a successor to The Rev. J. Blackburn at Calstock. Has any appointment been made to date? I have a man in mind I may be able place before you, whom I would not hesitate to recommend.I am not definite at present as he supposed to go up the Bay,but he may not be needed there. I will know definitely in two weeks as I will be finished visiting the west side of James Bay then.

Dear Miss Reesor:

I was pleased to receive your letter of June 10 with attached application form. With your qualifications and experience, you would be entitled to a starting salary of $180.00 a teaching month, effective 1 September, 1948. I believe that we gave you some details concerning the school at Kettle Point last year. Mrs. Orr, who taught there last year, has resigned with the intention of taking a smaller one-room school. Mrs. Clemens, the junior teacher, intends to remain in our service. If you are interested in any further details concerning this school, I would ask you to write directly to Mr. M. W. McCracken, Superintendent, Indian Agency, Sarnia, Ontario (Post Office Building). In fact, I would suggest that when you are attending summer school in Toronto, you take the opportunity of running down to Sarnia one week-end. If you would advise Mr. McCracken in advance, it is possible that arrangements could be made for him to show you the school.

Dear Mr. Meney.

Your letter came to-day, and I am definitely interested in going into an Indian School. I am to see Mr. Whitney at Chapleau yesterday, about that school, at Brunswick House in Timmathatin.

I spent this last week-end at Mattagami Post, in from Lagama. I visited the Rev. John Jeffries and his sister Helen. Mr. Potter, the Public School Inspector had been at that school last Friday.

I think, Mr. Jeffries is doing a fine piece of work, and, apparently Mr. Potter knows of work by, he and both his wife.

Father was telling me about the school at Brunswick House. It will be new, including blackboards, heating, flooring. It seems grand.

Miss Bartlett is the Nurse for the Indians and she is stationed at Chapleau. I met her at Gogama as I was waiting for the train. I told or asked her about Brunswick House.

As for myself, I'm getting a teachers' training course this Summer and Father wishes me to take it in Toronto. Incidentally, my letter is one of the teachers for this course in Toronto this Summer. I expect I'm to live with my two aunts and I'll be back here [illegible] taking this course. I like it, so I'm quite anxious to get on the ice.

This is getting to be a long letter, but my pencil seems fascinated to write yarn.

In your letter, you stated that the salary would be effective Sept. 1, 1948. Does school open Sept the first? I had hoped it would be the seventh. I wanted to go to the Toronto Exhibition.

Thank you very much for writing me so soon.

Dear Jack,-

I am enclosing a letter from Mr. Phelan and a letter from him to Miss Reesor of Foleyet. You will probably have met her during your treaty trip.

I would not be very keen to have her at Constance Lake as I think it would be preferable to have a married couple on this Reserve but think she would fit in very nicely at Mount Batten school which I presume will be running around September. If I were you I would approach her on this matter and recommend to the Department that even if she was living at the Reserve a month or so before school opened it would be to her advantage as she would get to know the people and pupils.

I am sending a copy of this letter to Mr. Phelan so that he may understand my idea of what would be best to do. Best Wishes.

Re: File 65-7-1(E1),dated June 22, 1948
Miss Reesor,recently teacher at Folyet.

Your letter as above was forwarded to me from Mr. Matters at Muncy.

I was fortunate in being able to interview Miss Reesor when passing through Folyet a week ago. She is keenly interested in getting into the Indian teaching service, especially at the new reserve to be started this year for the Brunswick House people at Tophet.

In your letter you mentioned the possibility of her going to Constance Lake. I would suggest that if at all possible a married couple be selected for this position as there is already more work on this reserve than one person can handle, and it is steadily increasing,as new families move in. In my conversation with Miss Reesor and from reports concerning her,from various people in the community where she lives I believe her to be a very efficient and capable woman and I would recommend that even if it was necessary for her to be on Mountbatten Reserve a month before the school is ready to open,she would be allowed to move in and get acquainted with people and children. According to our plans Mountbatten school should be ready before the end of September. I might say that the recommendation has the approval of Mr. Matters who is familiar with all the details of the case.

I will communicate further with Miss Reesor after I have received your comments on this matter.

I have recently had a letter from the Reverend N. Found, B.A., B.D., of R.R.# 3, Meaford, Ontario, concerning employment as teacher on one of our Indian Reserves. Mr. Found advises that he is an Ordained Minister and that he and his wife are very much concerned about the Indians and feel that they would like to devote their time to the work.

Unfortunately, Mr. Found does not advise as to his denomination but I am advising you of this information so that you may take any action you might deem necessary.

I would appreciate it very much if you would advise me what has been done in this regard as school should be opening by September 7th.

I might point out that I do not think it wise to leave this ~~agency~~ without any supervision for too long a time as this band have not yet learned to look after their own affairs and the discipline among the younger men with regard to drinking etc. is still very poor.

Dear Mrs. Anderson:

As you are probably aware, the position of teacher at the Sucker Creek Indian Day School has been filled. However, we have two other positions in which you might be interested.

One of these is at the Walpole Island Indian Day School near Wallaceburg, Ontario. This is a three room school and you would be required to share the teachers' residence with Miss McLean, the Principal.

The other school is at Constance Lake in the Chapleau Agency. This is a one room school and you would have the teacherage to yourself and your family. Please find attached one of our application forms which I would like to have you complete and return here if you are interested in further details of either of the above positions.

Dear Col. Neary,

I have just returned from a three months' visit to England and have to take up the administration of the Diocese.

First of all I wish to thank you and the department for the very quick action with regard to the clearance of the students' cheques. I suppose it is partly because they had been better instructed than previously. There has been a little complication in the fact that Mr. Ellis and Mr. Higginson at Mistassini have received their cheques direct. Our treasurer did not understand this and he has had correspondence with them on the subject. I am sure that he can explain that we have had to advance them travelling expenses on account, but for next year it might be possible to have all the students paid through the Indian agents, as some of them have been this summer.

There is one matter which I may have overlooked. The Rev. Joseph Blackburn who has been in charge of the school at Calstock, told me last year that he was afraid that his age would make it impossible for him to remain at the school where he and his wife have done excellent work. I therefore offered him a mission at Foleyet but I was not certain that he would accept it. I believe he has done so and there is a vacancy at Calstock. Perhaps I should have consulted you earlier but I would like to know if you wish me to nominate a man for Calstock? I imagine you would not want him to be an ordained clergyman but someone who could develope along your pattern into a trained teacher and welfare worker. If you wish me to do so I think I can find you a man shortly.

I shall be glad if you would wire me on this subject at once as I am going to Toronto next Wednesday.

With kindest regards,
Yours faithfully,

Dear Sir :-

Having seen the advertisement in the Expositor for a teacher for Sucker Creek school, I herewith tender my application for the position.

Prior to my marriage I always resided at Little Current, as 'Bertha Willis' I taught in the Sucker Creek school for four years and at the Shawanaga River Indian school for three years.

I have a permanent second class certificate and eleven years teaching experience. You may consult Chief Abotosaway for references of my former services there or the Public School Inspector. Some of the people have desired me to return and I, therefore, have written this application.

However, I wish to state that my husband and two children will be with me. The children are four & a half years, & one and a half respectively. I would obtain someone to stay with them during school hours but of course I wish to feel free to supervise them occasionally or when necessary. They never have been allowed to destroy property & I can assure you the building would be kept as it now is.

We would like to return to Canada for a year or more, and this seemed like the opportunity to do it.

I can assure you I will endeavour to perform my duties satisfactorily if my application is accepted. I would greatly appreciate a reply at the earliest convenience, as we would have several matters to settle up before leaving here.

I understand the teacher's quarters are furnished. How many rooms are there? Is the building wired? If the hydro passes there and it has not yet been wired, would it be allowed by the Indian Department? My husband could do the work and I would like to bring some of my applinces, if I were to come. Is the fuel supplied also?

What salary would I receive? From the schedule, I didn't know if it varied with the amount of experience or how it is arranged. How many pupils are enrolled there?

This seems quite lengthy, but I wished to make clear my position and to gain some further information.

Yours respectfully,

Bertha H. Anderson.

Dear Sir: ATT'N: B. F. NEARY

Since receiving a copy of the above noted letter, I have received no further word concerning a new Teacher for the Constance Lake Reserve. As it is now past the time for opening the School, I would be very pleased to hear what you have been able to do in this regard.

As I am alone in the Agency Office at the present time, I find it impossible to make any inspection trips to Constance Lake, and I am afraid that conditions on this Reserve will deteriorate very quickly with no one there to supervise and do some welfare work.

Re: Mountbatten Indian Day School

Dear Mr. Church:

This will confirm our recent telephone conversation in which you were advised that we were quite prepared to accept your services as teacher at the Mountbatten Indian Day School when its construction is completed.

Since last speaking to you, I have been advised of another vacancy in the Chapleau area. A temporary teacher has been appointed until the end of June, 1949, but we are anxious to obtain the services of a teacher for September, 1949.

This school is the Constance Lake Indian Day School, and it has one advantage over the Mountbatten School in that your teacherage quarters would be in a separate building. I enclose a photograph of the school and the teacherage at Constance Lake. If you are interested in further information about this second position, I would suggest that you write directly to Mr. J.L. Whitney, Clerk in charge, Chapleau Agency, Chapleau, Ontario, for such date. I am sending Mr. Whitney a copy of this letter so that he can anticipate hearing from you. Would you kindly return the photographs in due course.

Dear Bishop Renison:

I believe that I will be able to secure for you the services of a qualified teacher for the Constance Lake Indian Day School next September. This young man is Mr. H.L. Church, presently teaching at Renfrew, Ontario. In the near future he is marrying a young lady who is a Registered Nurse. Both of them are anxious to try a period of service with the Indians. I have sent him pictures of the Constance Lake School, and I think that he and his wife-to-be will accept. Mr. Church is 22 years of age, has a First Class Teaching Certificate with three years of experience. He is of the United Church belief, and I could ascertain, if you wish, as to the religious conviction of his wife.

Dear Colonel Neary:

I am very grateful to you for your interest in suggesting the name of Mr. H.L. Church and his wife, who is a registered nurse for the Constance Lake Indian Day School.

It may be that this suggestion can be carried out, although Mr. W.H. Thompson seems to be doing a very good job and is taking much interest in the Indians.

I have had it in my mind for some time to suggest to you, that we ought to have a Teacher at Mistassini for a longer period than two or three months. Evans and Higginson did a good job there last summer. Unfortunately, owing to my absence in Lambeth, I was unable to visit the Mission last Summer but it is very much om my mind. As you know, there are about six hundred Indians connected with the Post. The School and the Teachers' Residence should be completed by now.

How would you like to consider the possibility of putting in somebody like Mr. Church and his wife?

The time will soon come when modern development will make it necessary to have someone there most of the year, if not, all the time.

It would be a great challenge for a young man, who is a teacher and a nurse as his wife. It would give them a respectable living.

If you think well of the idea, would you be kind enough to ask Mr. Church to write to me here.

With kindest regards,

Yours faithfully,

Dear Bishop Renison:

Constance Lake Indian Day School.

I was very pleased to receive your reply of December 16 concerning Mr. and Mrs. Church.

Your plan would be ideal but for the fact that Mr. Church is an Ontario teacher and he is anxious to continue teaching in that province. I had some difficulty in persuading Mr. Church to consider one of our schools. He has an Ontario Provincial Teaching Certificate and is anxious to keep his Superannuation fund in good condition. He can get credit for teaching experience in Ontario Indian Day Schools but not in any other province. He can only get credit for Ontario when he has an annual inspection from a Provincial School Inspector.

However, I will keep on the look-out for someone like him for Mistassini but there is still a great shortage of male teachers.

The other school for which I had him in mind was the one to be erected next year at Mountbatten near Toppet. He preferred Constance Lake because he could live in a separate teacherage there.

In closing may I extend to you on behalf of the Education Division our sincerest wishes for a happy and prosperous New Year.

Yours sincerely,

Bernard E. Neary,
Supt. of Indian Education.

Education

Although the Constance Lake School got away to a poor start this Fall there are 25 pupils in attendance and except for illness, the attendance is quite regular. In some phases of work, Mr. Thomson the new teacher, doesnot measure up to the Blackburns. This is most noticeable and understandable when visiting the Indian homes, which are not up to the standards of cleanliness etc. which were previously maintained. On the other hand he has instituted several ideas of which I heartily approve. One is the encouragement of a weekly dance in the school-house complete with lunch, which is supplied by the Indians themselves. Especially among the younger men on this Reserve, this weekly dance has very definitely cut down on the drinking which was being done both on the reserve and in the neighbouring village. The young men themselves told me on my last trip that now that they were able to enjoy this special event each week they did not feel the need of looking elsewhere for entertainment. He is also strenuously organizing boy's sports and under his supervision an outdoor rink has been built and is being maintained and he is attempting to teach the rudiments of hockey.

Reverend Sir:

I have for answer your letter of February 17th and regret that your pay has not yet been received.

However, I find that we wrote to Mr. Whitney on October 25th and sent him the usual forms for completion by you. As these have never been received here, no action has been taken to make payment to you for teaching duties at this school. I am again writing to Mr. Whitney today and have asked him to write directly to you in Toronto concerning this matter.

With regard to the questions raised in the second paragraph of your letter, we are now endeavouring to secure only the services of certificated teachers for our Indian Day Schools. Due to the shortage of teachers this is sometimes very difficult to do. Nevertheless, we are attempting to adhere to this policy. As a result, the number of qualified teachers in day schools has shown an increase of twenty-five percent in the last year.

Our requirements are that a teacher hold a certificate granted by the Provincial Department of Education. I would suggest that you make further inquiries with regard to Normal School training at the Toronto Normal School. The High School course at the Ontario College of Education presumably qualifies for high school teaching. We have very few vacancies for high school teachers as our schools are mainly elementary and intermediate.

Sincerely yours,

Bernard F. Neary,
Supt. of Indian Education.

Dear Mr Neary,

Recently I was thinking about the coming summer. Summer school naturally came into my head as I am desirous of having a better classification and rating.

Would it be possible for the department to offer me any financial assistance toward this (such as a bursary etc). The reason for my enquiry in this regard is that unexpected bills have put my financial state in a rocky position for some little time to come.

If the above is not possible what opportunities are there available for say taking a correspondence course to cover the work?

Another item is that if I cannot afford summer school, would it be possible for the department to recognize the welfare work that of necessity one must carry on if on the reserve during the summer months with some sort of remuneration.

Further to the welfare work, since owing to the isolation of this reserve, I am now fulfilling almost all the duties required for the classification of Welfare Teacher (as per Indian School Bulletin June 1948) would it be possible for a change to be made in the near future from straight teacher to welfare teacher with the corresponding adjustment in wages.

Mr J. L. Whitney the Indian Superintendent for this agency in Chapleau can supply you with any further information desired regarding the welfare activities (and there possible expansion) here at Constance Lake.

Thank you for the time I have taken and with every best wish,

Sincerely yours,

William H. Thompson

Constance Lake Indian Day School.

Dear Mr. Thompson:

I have for acknowledgment your letter of February 11th.

The funds with which we are provided for tuition grants are for Indians only. It would not, therefore, be possible to offer you financial assistance towards attending a Summer School, as requested.

With reference to your classification as a Welfare Teacher, it is usual to grant such classification only to teachers who have special qualifications in the social sciences. Exceptions are made where a man and wife are both living on the reserve. In this way we acknowledge the fact that the wife often is able to do a great deal of nursing and welfare activities.

We have been corresponding with a qualified teacher who has made application for the Constance Lake Indian Day School next September. He has a first class teaching certificate with 3 years of experience and his wife is a nurse.

I gather from your letter that you are now interested in continuing to teach in our Indian schools. You will recall that when I inspected your school at Spanish River last year, you were inclined to feel that you would not remain in teaching. For this reason we presumed that

you were only teaching at the Constance Lake School due to the lack of qualified teachers at the present time.

Would you be interested in another school for the academic year 1949-50? I have an isolated school in mind in which we might be able to obtain for you the classification of welfare teacher. I would of course wish you to attend summer schools and attempt to get a teaching certificate if you intend to remain in our day school teaching service. We are constantly reducing the number of unqualified teachers and our policy is definitely to employ only qualified teachers when such are available.

I would like to hear further from you as to your future plans.

I have your note of February 25 and realize that you are just as anxious as I to get your missing salary cheque sent. We have searched our files in vain for your Income Tax forms and I am therefore sending you a T.D.1 form which I would like to have you complete and return to me. I will then arrange to have you paid for services at the Constance Lake Indian Day School.

I am sorry to have to put you to this trouble but feel that it will be much faster than corresponding with other parties who may or may not have your Income Tax forms.

Re: Constance Lake Day School.

The copy of your letter dated February 28th. to Bishop Renison was of interest to me as I had had a verbal report just a few days ago from Mr. Whitney, that he was not very well satisfied with the work Mr. Taylor was doing at Constance Lake.

It will be very difficult to get a couple who will compare with Rev. and Mrs. Blackburn, but it does require a married teacher who's wife would take an interest in welfare work among the Indian women, and I trust that the projected change can be made.

Re: Agent's report on Constance Lake School.

The academic progress of the children attending this school seems fairly good.

While at the school I examined work books, and listened to reading of all grades. I found their writing quite good, and mathematics and reading good, this latter in spite of the fact that these children are exceptionally shy.

Class room deportment was quite good and the pupils carried out the teachers instructions readily and cheerfully.

The school building was not clean and it was quite cold. The teacher does not put himself out to do janitor work, which, he feels he "does not get paid for". As a result of this the chores are allotted to the older boys and girls and are carried out with little or no supervision. For instance, the fire is allowed to go out at night so that the school is cold until noon hour the next day and the children have to work with their hats and coats on.

In spite of the fact that I had Mr. Larsen build storm porches on both entrances to the school, the doors are continually left open at night, causing

damage to the doors and floors of the school room.

The teqcher is not punctual in attending classes , often sleeping until nine a. m. and as a result thechildren have no incentive to be punntual themselves.

The conditions of the toilets are deplorable and, in spite of repeated directions from myself and Miss Jane Bartlett, our nurse, they show no improvement from my last visit in December.

As you can see from above, the attitude of the teacher toward the property over which he is supposed to have supervision is very careless.

Re- Constance Lake Reserve

Dear Mr. Whitney:

I have been concerned about the above named Reserve and management.

Concerning the people on the Reserve, I feel a married couple would be more suitable. Time patience and understanding is necessary.

Then to, there are the irresponsible parents, the teena age boys and girls, and infant children, where I feel the advice of a woman or a mature person would be more effective.

The welfare of the community to me seems to be a great responsibility, and I do not feel that it should be left to one person.

Dear Col. Neary,-

I have your letter of Mar. 5th, with information about Mr. B. Philip Welyea. I am keeping his address and will write to him.

As far as I am concerned, if you agree, I will put him down for one of our schools this year.

Before now, you will have seen my letter. I asked Canon Cook, to speak to you, because I thought he might be able to give you local information.

As soon as I hear from you, I will begin to make out our programme for the year.

I am enclosing a note from Mr. de Pendleton, who is taking a special course in Toronto this Winter. You will remember, that at your permission given by telephone last October, he was sent to fill Calstock School, for a month. I gave him a form to fill in, which he sent to the Dept. He needs his month's salary and I hope he can get it soon. His present address is on his letter.

I have investigated the matter of the papers sent to this office last October to be forwarded to Rev. DePendleton.

These papers were forwarded to Constance Lake Reserve with instructions that they be forwarded to Rev. DePendelton if he had left. Mr. Thompson did not have his forwarding adress and so he sent them on to Bishop Renison for forwarding to Rev. DePendleton. As Bishop Renison in all probability knew his adress, I expected that he would have received them long before this.

Rev. DePendleton arrived at Constance Lake Reserve October 1 and was there until October 29th according to the school register.

Dear Colonel Neary:-

This will acknowledge the receipt of your cheque from the Department for $150.00 which came in to-day.

Referring back to your letter of February 23, 1949, in which you suggested that I take up the matter of normal training with the authorities in question. This I have done, and they advise me that I can be given a first class deferred interim certificate on the successful completion of Summer Course.

I am therefore sending you the enclosed certificate to be signed by your Department, since this hardly comes under the purview of the Provincial authorities of the Ontario Public Schools.

Just what difference in salary does a deferred first class interim certificate make? I mean approximately.

I know a young man who would be interested in teaching Indian children. He has a great deal of practical experience, but I don't think he has ever gone on line beyond Grade X. Would he be eligible to teach?

Again thanking you for your interest,

TO WHOM IT MAY CONCERN:

The Reverend Eric E. de Pendleton has taught in Indian Day and Seasonal Schools for the periods indicated below:

1. Waswanipi seasonal Indian School - June 1 - September 4, 1947.
2. Metagami Indian Day School - Sept. 25 - December 31, 1947.
3. Constance Lake Indian Day School - October 1948.

In the last two instances Mr. de Pendleton acted as a supply teacher, pending permanent appointment.

During this time his work was satisfactory and I feel that he should be given an opportunity of attending a First-year Normal Summer Session.

With reference to your telegram of the 16th instant, we are enclosing herewith, cheque No.J0211659, in your favour, for $10.65, being refund of Retirement Fund Account (final payment). The reason that your contributions were not all refunded at once was due to the fact that all Retirement Fund contributions prior to January 1st, 1949, were transferred from the Superannuation Branch to Central Pay Office and they were in the process of being transferred when application was made for a refund of your account. Your first cheque therefore only covered contributions from January 1st to June 30th.

Constance Lake Indian Day School

I know that you intend to advise me later concerning the plans of Mr. and Mrs. Church.

In the meantime, I feel that we should quietly investigate the possibility of securing the services of another teacher for the Christmas holidays.

I have an application from Mr. W. Lowrie of MacTier, Ontario. Mr. Lowrie is a qualified and certificated teacher but I think an interview with him will be necessary to ascertain his suitability.

I am writing to you with a copy to Mr. Matters so that you can get together and decide whether it will be possible for one of you to see Mr. Lowrie in the next month. I would suggest that you write him to make certain that he is still at MacTier.

Mr. W.S. Makinson,

Dear Sir:

You will recall our previous correspondence in September concerning a position in one of our Indian schools. At that time we did not have a suitable vacancy but I believe we may have one at Christmas which might be of interest to you.

This is a rather isolated reserve and we would prefer a married man with his wife. However, I note that you state in your application form that you have two dependents. Would they be going with you to the school or would you be on your own?

This school is in Ontario and is in the Chapleau district.

Unfortunately your starting salary would be low, due to the fact you do not hold a teaching certificate. However, I believe that we can make representations for you to attend two summer sessions in Toronto and this would work for your teaching certificate.

If you are interested in further details please do not hesitate to write me at once.

Sincerely yours,

Bernard F. Neary,

Dear Mr. Whitney:

I have a male teacher available who might be satisfactory for the above school when Mr. Church leaves at Christmas (as I presume he intends to do).

This is Mr. G.L. Marsh whose address is Ladywood, Manitoba. Mr. Marsh formerly taught on the Fisher River Reserve in Northern Manitoba and left Departmental service to teach in a provincial school. Apparently, the living accommodation has been very unsatisfactory, and Mr. Marsh is willing to teach in either Manitoba or Ontario.

Therefore, I would appreciate your writing to him with details of the Constance Lake setup as I believe he would be interested in this school. He is a qualified and experienced teacher and also has a Manual Training Specialist Certificate. He is married and has a small family.

Dear Mr. Marsh:

I have for answer your letter of December 3 and [illegible] that you wish to return to our teaching service. I have just written today to Mr. J.L. Whitney, our Indian Superintendent at Chapleau, Ontario. He has a teacher at the Constance Lake Indian Day School who may be leaving at Christmas. I have asked Mr. Whitney to write directly to you with any details of the school which he thinks might be of interest to you.

Re; Constance Lake School

I have just returned from another inspection of the work on the above school.

Things are proceeding satisfactorily, a day or so had been lost by the lumber not having been delivered for the beams, but I was able to arrange in Hearst to have it delivered the next day, and work will now proceed.

The site had been cleared, and the cedar posts for the foundation all put in, also a shed has been erected for the storing of material and for the carpenter to sleep in.

Before starting on the building it was necessary for Mr. Larson to build a small scow to transport the material to the site, and also a flat bottomed row boat, these will be left intact for use after the building is finished.

Four Indians have been employed in the cutting of the posts, also digging the holes, and clearing out a small creek that is used for the transportation of the material.

I have your letter regarding the paint and will now order it to be shipped, also the hardwood flooring.

Re; Constance Lake School.

I have just returned from an inspection and paying trip to the above school building, I found that fairly good progress had been made, the walls are now sheeted, the rafters on for the roof and the sub floor in.

The carpenters had ran short of material for sheeting the roof, and were going to do another small job for a matter of three days whilst more material was got to the site, I was assured that this would be delived two days after I left, so expect that further progress is being made.

A start was made with a cottage for the teacher, the cedar posts being in ready for the beams, it will be necessary to complete this, as although the Arrow Land and logging Co. will provide him with temporary accomodation, they will not be able to do so for all the winter.

I have asked the contractor to let me have a list of the material required for a four roomed bungalow, 24 ft by 24, will it be necessary for me to forward a requisition to get this material, or can an apporopriation be made to cover the cost on the same prices and basis as we are paying for the school material, it will be of similar construction.

Now that the roof is being put on all the other material is being shipped, so that we should not have any further delays.

We will need some means of heating the school, and I would recommend that two wood burning

heaters be used for this purpose, I will look up the types best suited and will forward a requisition to cover.

I understand that Mr. Blackburn is bringing all his own furniture except for the kitchen stove and heater, I presume that these will be supplied by the department as was done at Mattagami, and will also requisition these in a day or so.

Mr. Blackburn has sent me a further list of supplies needed for the classroom and I am attaching requisition to cover them, he asked for some Manual training outfits, but I think these may be left until the project is under way.

I fully expect that the school will be all finished by the middle of October and if we get the supplies in the classes can start immediately.

Mr. R.A.Hoey

The T.Eaton Co. Limited, Toronto, have advised that they could not supply the two wood-burning heaters called for on purchase order No. 26896 and are therefore considering the order as cancelled.

As stated in conversation of even date, I have ordered a larger and better type of heater but was able to procure one only. This may be adequate. If not, kindly advise if it is necessary to order the second heater. We can get one of the same quality in approximately six weeks' time from the same firm - General Steel Wares Limited, Ottawa.

Re: Purchase Order 26896

A copy of the above purchase order was sent to you on October 2 and covered two wood burning heaters for the Constance Lake School. Subsequently it was found that these heaters could not be secured and our Purchasing Branch has located a circulator heater. This is much larger than the other heaters and it is felt may be big enough for the school. However, if you consider a second one is required you should let me know. Purchase order No. 26896 should be considered cancelled and I enclose copy of purchase order No. 27069.

Re; Constance Lake School;

I visited this building last on Oct. 26th., and found work rogressing steadily, it had been slowed up due to some of the material being late in arriving, but good pregress is being made.

Roughly the work to be done yet consists of applying the Asbestos shingles on the outside of both the school and the cottage, also the hardwood floors are to be laid in both places, painting and the building of outside toilets will just about finish the job.

Both buildings are solidly constructed according to the plans, and Mr. Larsen is doing a very thorough job, and when finished we will have a solid building which will be quite warm.

In connection with the heating, although the circulator type of heater is better in theory, the practical experience is that the upper part of the rooms are warm, but the floors and lower part cold, for instance the Arrow Land Co. have installed a circulator type heater in their office, it is an oil burner and of a large size, yet when I was there last week the men were complaing of the cold office, when they come in wet they cannot get near the heat, having had some experience with these in the past was the reason I requested the regular wood heater.

I have instructed Mr. Blackburn to install the circulator heater on arrival, but I think it will be necessary to locate another regular camp heater, will you have the Purchasing Branch try the Adam Hall Co., who specialize in this type of material.

At the present time I have about $250.00 left of the sum allocated for the building of the school, to cover the rest of the building and the painting I estimate that another $400.00 will be needed, can you arrange to have this forwarded to me, before November 8th, which will the next pay day.

I took the liberty of ordering the necessary stove pipes for the school and cottage heaters and stoves, so that they could be installed on arrival, the stove and heater for the cottage arrived the day I was at Calstock, these pipes are to be 28 gauge galvanized iron, the ordinary stove pipes being too flimsy to be safe.

On the return from my next visit I expect to be able to report that one building is finished and the other almost so.

P.S. Due to the lateness of the season for building houses on the reserve, a lot of the families have left, but I have a good number of applications for lots to be taken up in the spring.

On April 8th. 1944, I put through the account of the George Taylor Hardware Co, in the amount of $3,008.89 for payment, and presumed that it would be paid in the usual course of events.

In my discussions with the above firm relative to the material for Constance Lake School, they advise that no record is on their books of having received payment.

Will you kindly check up on this and let me know if it has been paid, and the cheque number, or if not paid will it be necessary for me to submit another account.

Mr. F. Matters, Indian Agent, Chapleau, Ont.

I have your letter of the 5th instant, with reference to the account of the George Taylor Hardware Company. This account has not been paid. At the time it was submitted we thought that we might be able to pay it from the 1943-44 appropriation but, as the goods had not been delivered to the site, the Treasury Branch took exception to our paying the account at that time and insisted that payment could not be made until we could assure them that the items shown on the account had been delivered to the site of the new school. In addition we were under the impression that possibly some of the items on the original account might be shipped later, which might make a very slight variation in the price.

On receipt of the correspondence I discussed the matter again with the Treasury officials and I am returning the account to you and suggest that, if all the items on this account have been delivered to the school site, you prepare a new voucher and attach the account to it and as soon as it is returned to us arrangements will be made to issue a cheque in payment immediately. Any material that has not been delivered to the site of the school should be struck off the account.

Re; File 65-7-5
Letter Nov. 9th. 1944

This will acknowledge receipt of the above letter regarding the material for the Constance Lake School.

There were several changes in the material specified on the first Purchase order, it was decided verbally when I was in Ottawa to use the Johns Manville Asbestos siding for the outside of the school, this was done and there is a difference in the price of this article as against clapboard, it makes a much better finish, is permanent and does not need painting every year or two and is fireproof, any clapboard we would get today would be of a doubtful quality, besides this we had to get more lumber, applying the sheeting diagonally tends to more waste, but will be much stronger, door sets and other hardware, also lumber to build a shed which is being used as a store room, and living quarters for the carpenters at the present time, but which is being left intact for use as a store room in the future, it will have to be moved later on. PLUS STORM WINDOWS BOTH BUILDINGS

We did not get the amount of cement required for the proposed basement, only a small quantity and some lime for the building of the chimneys.

At the start this was a rough list intended to charge part of the cost up to the last fiscal year, I proceeded on the assumption that we had a credit balance of $3,008.89 set up with Taylor Hardware, and have drawn material against this as required, with the intention of striking a balance when the job waa finished and forwarding an account for the difference.

When in Hearst a few days ago, I checked with the George Taylor Hardware to get an estimate of how it was going to come out, I find that our total account for both the School and the house will amount to about

$4.500., against this I have purchase orders to the amount of $4,056.71.

The Taylor company do not mind which way the account is put through, but which way would be most satisfactory to the Treasury Branch; either submitting the accounts as per the purchase orders; PLUS EXTRAS PURCHASED. or putting through a set of invoices of the goods actually delivered to the site, in a larger amount than that authorised.

Possibly I should have applied for each extra item as it was required, but that would have meant a series of delays, and I folloed out what I think was the only practical way to get the work done in the quickest time at the least cost.

Please let me know in which manner you would like the accounts submitted, and I will arrange to have this done by the hardware company.

Mr. F. Matters, Indian Agent, Chapleau, Ont.

I have your letter of the 13th instant, with reference to material for the Constance Lake School. Please forward a set of invoices showing the goods actually delivered to the site. We will have to clear the account with the Purchasing Branch. We feel that this is the best manner in which to handle the payment.

Re; File 65-7-5, Nov. 7th. 1944

In reply to your letter as above, I have located the license for the purchase of Unemployment Insurance stamps, in checking over the file I had overlooked the circular of October 24th., and was referring to a letter of October 1st. on the same subject from Mr. McInnes.

Regarding the requisition, this is a form needed at the Post office for the purchase of such stamps, at the time I wrote the local office had none on hand, and I thought it possible that you had some in the office for your own use, these are now available here.

Sorry I was not up to date on this, not having had any in the past I did not pay enough attention to the details furnished but have learned lots about it this last few weeks.

Re; Constance Lake School.

When I made my last inspection at the above school on November 9th., I took some photographs of the School, Teachers residence and of the two combined, of which I am attaching a print of each.

The residence was completed on Nov. 16th. and is now being used by the teacher, at the time that the picture was taken the opposite side of the school building was finished, and since then the work inside has proceeded, also outside toilets have been built, and steps built on both the school and house.

When these are completed are think we will have a very good set of buildings, the centre building shown in the full view of the site, is a shed that has been used for storage and sleeping quarters for the workmen.

Mr. F. Matters, Indian Agent, Chapleau, Ont.

I have your letter of the 20th instant, enclosing photographs of the school and teacher's residence at Constance Lake. The Department was very pleased to receive these and the buildings appear to be very serviceable.

In looking at the pictures it would appear that to limit the fire hazard it would be desirable to cut down a number of additional trees, in order to leave as open a space as possible around the new buildings. Possibly you could arrange to have this done during the present winter.

Re; Constance Lake School;

I visited the above school on December 5th., and found that work has been suspended for the winter, the inside of the school is finished, and the first classes were called for December 6th.

This last week the children have been in attendance but helping to unpack and prepare the school for teaching.

The outside is not quite finished, as the Asbestos shingles had not all arrived, and about 11 squares are yet to be applied, this will not affect the heating of the building for this winter, and classes will be able to carry on.

Whilst waiting for these to arrive, and I was definitely advised by the George Taylor Hardware Co. that they had been shipped on November 8th. the carpenters had built the outside toilets (3), and finished off anythin else that was to be done with the exception of cupboards.

I find that I will need $38.18 to complete the payment of the carpenters, and unemployment insurance stamps, this will balance the account as to the advances made and the amounts paid out.

I would also recommend that 3 cupboards be procured, or at least 2 cupboards and 1 set of open shelves, the latter and one cupboard for the school supplies, and the other for the storing of medical supplies.

Mr. Larsen, who has been the carpenter at the school, oeffered to build these at a price of $15.00 for material and labour, they will 6 feet high, one six feet wide.

With regard to the attached lists of equipment and material for the Constance Lake Day School.

When the school was first opened it was apparent that some of these things would be needed, but I thought it desirable to leave it for a while until we had a chance to get a list of everything that might be needed at once.

I have put on one list the items that I could get a line of price, and on bther items which I think you may be able to procure cheaper and easier from your office.

The lumber is to be used in the construction of benches etc. to hold the wash basins and pail of drinking water in the school, also any other oddthings that may be needed.

The set of carpenters tools should include all the articles that would be needed around a building of this type, on the basis of there being nothing in that line at the school.

Mr. F. Matters, Indian Agent, Chapleau, Ont.

With reference to your letter of February 21 and my reply ot March 2, in connection with supplies for the Constance Lake Indian Day School, I am advised by the Purchasing Branch that the blinds requested by the teacher are Venetian blinds, which cost in the neighborhood of $4.00 each. We feel that a less expensive blind should fill the purposes at this point and, consequently, we will supply six cream coloured blinds. It is impossible to secure these in 32" width and therefore we will supply 36" width. As you know, these can easily be cut down to the required width.

There must have been a mistake on this somewhere, pos ibly here, as the blinds I had in mind, and the type that I thought the number referred to were cloth blinds, cream at 90¢ each, which are quite satisfactory.

I take it from your letter that you are having them secured through the Purchasing Branch, if not please advise.

With regard to the attached account of The George Taylor Hardware, covering material purchased for the Constance Lake Day School.

I received this account in theeatly part of January, and on checking found that a number of receipts covering freight and express charges were not included, since then I have been trying to get the account completed for presentation, and today have just received some of the vouchers.

The majority of the material washauled by truck from Hearst to Calstock, a distance of about twenty three miles, in view of the late date I thought I had better let you have the account, so that as much as possible could be paid, I have deducted all the credit notes attached, also one lot of 13 squares of shingles which were not ordered, and as far as I have been able to check up were not delivered.

The lot of shingles referred to in the sixth paragraph of Mr. Fulton's letter of March 22nd. are charged for on this account, and are needed to complete the siding of the school building, some purchased for this purpose having been used on the cottage, so that it would be habitable in the winter.

Dear Sir;-

In reply to your letter of March 22nd. regarding material supplied for Constance Lake School.

I will submit the account for payment and attach your letter advising of the circumstances relating to the freight bills and shipping charges, requesting that they accept the account for payment.

In my previous letters I questioned whether one or two lots of Cedar grain shingles had been supplied, and according to the advice I receive from the contractor only one of the 11 square shipments should be charged, as none other than the original 20 squares of shingles were delivered to the job, the other 11 squares were ordered and are needed, but are still being held in Hearst until required.

I really think a duplication has been made with regard to this item, and will deduct one lot from the account I submit, if there is any question in your minds about the quantity actually delivered, you could have your representative check the amount at the school, b th applied and loose, as there are no other buildings in the neighborhood covered with this material, it ought to be easy to see how much has been delivered.

Trusting this meets with your approval, as I simply have to get the account in at once

Gentlemen;-

With regard to your invoice of material supplied for Constance Lake School, there are one of two items on which I would like further information before being able to pass it for payment.

With regard to Cedar Grain Shingles, I see that we are invoiced on #1378 H for 30 squares at $10.25 per square, then on 2226 H for two lots of 11 squares each at $14.50 per square, this appears to be rather a drastic difference in price, also I rather think that only 11 sqs. were required, if the two lots have been shipped I expect it is due to duplication as we had to wait quite a while for these and many enquiries were made regarding them.

With regard to Caulking guns, we were charged on invoices #2221 H and 2225 H at $7.05 each, then one credit on 2227 H for the same figure, it is possible that one gun has been left on the job for the completion of the application of the cedar grain shingles, but I would like to have it verified, as when the invoice is checked in Ottawa they will need an explanation.

As mentioned on our purchase order #23309, it is necessary for receipted vouchers to be included with the invoice to cover freight or other transportation, this would apply to the following items;-

Invoice	#1372 H	203.50	Invoice	#2221 H	1.90
[illegible]	1372 H	.80	Do.	2221 H	2.15
Do.	1372 H	[illegible].50	Do.	2221 H	2.96
Do	1373 H	53.[illegible]	[illegible]	2222 H.	1.67
Do.	1377 H	1.57	Do.	2225 H.	136
Do.	1378 H	[illegible].01	Do.	2226 H.	30.00
Do.	1379 H	[illegible].50	Do.	2226 H.	28.14
Do.	2221 H	[illegible].99	Do.		

I do not wish to have the above remarks considered as being critical of the preparation of the account

but it is better to have everything in order before presenting it to the Treasury auditors, rather than have them writing back pointing out differences.

Although we could not get everything that we wanted just when we wanted it, I must say that your men at Hearst did everything they possibly could to help out in securing the material needed.

As soon as I can get the items mentioned cleared up I will forward the account for payment.

Dear Sir;-

In reply to your letter of March 7th., regarding the accounts outstanding.

The reason for sending you the notice was that I had not received any reply to my letter to you of January 24th. regarding the accounts invoiced and dated January 19th.

I had also returned to your nearst office a small account dated January 10th., #2244 H., this for the purpose of getting the prepaid express slip, I have not had any reply to either.

I will attach a copy of my letter to you of January 24th., and would appreciate if you could give it immediate attention.

Mr. F. Matters,

Chapleau, Ontario.

Dear Sir:

Attached you will find all the receipts for transportation that we are able to secure.

On many occasions other goods than for your account would be shipped to Hearst in the same Express or Freight shipment, and only your portion of express or freight would be charged to you. Therefore the express or freight receipts would not be of use to you as they would not correspond with the amount charged you.

In regards to transportation by truck from Hearst to Calstock the same also applies, as we hire our delivering done by the month, and charge you only for the actual time it takes to deliver materials.

I am sorry we are unable to give you exactly what you require, but due to Mr. Smiley leaving and a new party taking over, it took some time for Mr. Philban to become familiar with the details. I believe you will have no trouble with any future invoices. We would appreciate it if you would rush our invoices through for payment as soon as possible.

We are enclosing Credit Note for one only Caulking Gun, $7.05, as it has since been returned and charged to the Contractor, who is keeping it.

In regards to difference in price of Cedar Grain Shingles, the ones priced at $14.50 had to be secured from a company in Southern Ontario, and we had to pay them resale price plus L.C.L. Freight. The shingles secured in that way were the only shingles available in Ontario to complete

your job. The manufacturer was sold out. One of the 11 square lots is still on hand at our Hearst Warehouse, being held there as your contractor was unable to complete the job before the freeze-up. As they were brought in especially for this job, we felt it only right that we should invoice you and hold them in stock, to be taken by you in the spring.

We thank you for the reference you make in the second last paragraph of your letter, and appreciate that you realize there were many obstacles which prevented us giving you the service we would have liked, but war makes many things impossible. We consider ourselves fortunate to be able to carry on business as well as we are doing after five years of war.

I am looking forward to meeting you some time soon, and wish to thank you for the consideration given to us.

Memorandum:

DEPARTMENTAL PURCHASING AGENT.

Re: Purchase Orders 27143 and 23309.

The above purchase orders were issued in connection with repairs and improvements to the school and teacher's residence at the Constance Lake School. The total of these two purchase orders was $3,374.71, plus transportation of the goods ordered.

We are now in receipt of the attached account, certified by Indian Agent Matters, and this amounts to $4,922.61, which includes the transportation costs. Mr. Matters points out that owing to conditions existing at the present time it was necessary to make several changes in the type and quantities of the materials purchased. As a consequence, the items shown on the account do not exactly coincide with the items shown on the purchase orders.

When the buildings were nearing completion, it was found that extra work had to be done, and, as labour was available at that time, the Agent secured the materials necessary. As a result, the amount expended for material has exceeded the total of the two purchase orders already issued.

Reports received show that we have two good buildings, namely a school and teacher's residence, at this point, and Indian Agent Matters, who has had considerable experience in building, has certified that

Memorandum

Indian Affairs Branch

APR 11 1945

Re requisition March 2nd instant for Constance Lake Indian Day School.

Orders for the goods covered by the above requisition have been placed, with the exception of:

10 Coping Saws
100 Coping Saw blades size 10
100 Coping Saw Blades size 18

We can obtain the blades but not the coping saws, which are in very short supply at present.

Kindly advise if we may cancel these three items from the requisition, or if you wish us to try to obtain same later on.

Memorandum:

DEPARTMENTAL PURCHASING AGENT.

Re: Purchase Orders 27133 and 23308.

The above purchase orders were issued in connection with repairs and improvements to the school and teacher's residence at the Constance Lake School. The total of these two purchase orders was $3,374.71, plus transportation of the goods ordered.

We are now in receipt of the attached account, certified by Indian Agent Matters, and this amounts to $4,932.61, which includes the transportation costs. Mr. Matters points out that owing to conditions existing at the present time it was necessary to make several changes in the type and quantities of the materials purchased. As a consequence, the items shown on the account do not exactly coincide with the items shown on the purchase orders.

When the buildings were nearing completion, it was found that extra work had to be done, and, as labour was available at that time, the Agent secured the materials necessary. As a result, the amount expended for material has exceeded the total of the two purchase orders already issued.

Reports received show that we have two good buildings, namely a school and teacher's residence, at this point, and Indian Agent Matters, who has had considerable experience in building, has certified that

all the materials secured were absolutely essential and purchase of them could not be avoided if the buildings were to be properly completed.

Under the circumstances, it would be appreciated if you would issue an additional purchase order for $1,162.42. I would appreciate also receiving from you a memorandum which we can present to the Representative of the Treasury, permitting payment of the account, even though the items on the accounts are not exactly similar to those appearing on the purchase order.

MEMORANDUM:

REPRESENTATIVE OF THE TREASURY.

With reference to Mr. Crowley's memorandum to you, dated April 20, in connection with the expenditure at the Constance Lake School, I submit the following explanations:-

Constance Lake is a new reserve, to which we were moving a number of Indians, and one of the promises made to them was that educational facilities would be provided immediately. With the approval of the Minister's office, we endeavoured to ascertain if tenders could be obtained for the erection of the building. However, Indian Agent Matters, who is well acquainted in that part of the country, advised us that the only contractor available in the district was Mr. Larsen, who had a good reputation for sound work. Mr. Larsen was not willing to give a tender on the work complete but offered to supervise the work and work himself on a day labour basis, with the understanding that the Department would purchase the material.

In preparing the original plan for the school, we arranged to erect the building in such a manner that eventually it could be used for a council hall or recreation centre for the adults and children on the reserve and consequently made no arrangements for living quarters for the teacher to be attached to the building to be used as a school. After commencing the work, it was brought to our attention that a teacher's residence was necessary if we hoped to obtain a teacher. Consequently, for the expenditure incurred we have actually two buildings - one used for school purposes and the other as a residence for the teacher. Attached to this memorandum are three

REPRESENTATIVE OF THE TREASURY.

With reference to Mr. Crowley's memorandum to you, dated April 20, in connection with the expenditure at the Constance Lake School, I submit the following explanations:-

Constance Lake is a new reserve, to which we were moving a number of Indians, and one of the promises made to them was that educational facilities would be provided immediately. With the approval of the Minister's office, we endeavoured to ascertain if tenders could be obtained for the erection of the building. However, Indian Agent Matters, who is well acquainted in that part of the country, advised us that the only contractor available in the district was Mr. Larsen, who had a good reputation for sound work. No. 1 shows the building used for school purposes; No. 2 shows the building erected as a teacher's residence and No. 3 shows the location of both the school building and the teacher's residence. The building in the centre was a temporary building erected as store-room and sleeping quarters for the workmen. It was later moved to another portion of the reserve. The expenditure incurred covered the cost of the labour and materials required for the buildings shown in the pictures attached.

Re; Painting Calstock School.

The above school was not painted when the building was completed last year, due to the lateness of the season, and wanting to open the school as soon as possible.

The paint is there ready to apply, and on my last inspection trip with Mr. Arneil we thought it best to try to get the work done before school re-opens next month, so advised Mr. Blackburn to get two of the Indians to start work painting under his supervision, all the inside has to be painted and the outside trim.

I trust you will approve of this, as it was necessary to get the men started whilst the road work was stopped, later they will all be employed on the road building job, Mr. Arneil will confirm this on his return.

Re: Constance Lake School.

I am enclosing a couple of sets of photographs showing the above school since the red paint was applied to the trim.

There is one of the front of the school and the cottage, one of the inside of the school with some of the pupils, and another with some of the children in the school garden, in which can be seen the right of way which has been cut for the road to Calstock.

It is necessary that we have some kind of a hand sleigh suitable for hauling fuel wood or other material to and around the Constance Lake School.

I am advisedby Mr. Larson, who erected the buildings on the Reserve, that he could build us a suitable sleigh for $17.50. I would request your authority to get such a sleigh from Mr. Larsom.

I have your letter of February 4, enclosing account dated June 25, 1945 - Reference No. EG-3-27-26 - Order No. 1828, amounting to $22.50.

In connection with this account, I would direct your attention to my letter of September 13, 1945, in which I requested you to forward a receipt from the transportation company for 90¢ covering the prepaid charges. This receipt has not yet been received from your firm and consequently there has been a delay in making payment. Please let me have this receipt.

"Number three shows the front of the school and the teachers cottage. The land in front of the school consists of clay which, in the spring and fall particularly, makes it extremely difficult to keep the school floors clean, and it was to seed this that some time ago I requested the authority to purchase some grass seed. Mr. F. Matters, Indian Agent,
CHAPLEAU, Ontario.

In reporting on his inspection of the Constance Lake School on Nov. 6th, Inspector Blanchard writes as follows:-

"The building which is being used as a school seems to be quite adequate. Natural lighting is definitely poor, but this cannot be helped. It is hoped that the new school will be built just as soon as possible.

We realize that the building used for school purposes will at some later date be used for a community hall. However, we thought that the present buildin was quite adequate. Apparently the Inspector considers the lighting insufficient. We would appreciate having your comments on the Inspector's remarks.

Re: File 65-7-5 (WT-1), Letter Dec. 10/46.

This will acknowledge receipt of the above letter regarding the Constance Lake Day School.

I would say that the building itself is quite adequate. The natural lighting, although not very good according to the present school lighting standards, is still sufficient and ought to be considered as such for some years yet, as it is not projected to build a new school until the Reserve has been much further developed.

During the winter time and with snow on the ground the building is quite bright inside, and the Inspector did arrive there this year before the snow. The building is recognized as being one of the best in the district as compared with other white schools. I do not think that the Inspector really expects us to proceed with the building of a new school for some time, but is more or less pointing out that some day it will be necessary.

Yours very truly,

F. Matters,
Indian Agent.

Col. B. F. Neary,
Indian Affairs Branch,
Ottawa, Ont.

Dear Col. Neary:

During our conversation in Toronto, you requested that I try to procure a picture giving a better view of the Constance Lake Day School. I am enclosing some that I have just secured which I think will give you a better idea of the building, also of the inside showing some of the pupils.

You also suggested that you would like to get a plan of a one room school with accomodation for the teacher under the one roof. I asked Mr. Larson for some suggestions along this line, as he drew the plans for all the Constance Lake Buildings. I am enclosing three rough plans and if you would like further construction details on any one of them, please return and I will get a more detailed plan for you.

I have received the Special Permit from the Provincial Department for the taking of fur-bearing animals by the children of the Chapleau Residential School under the direction of the Principal, so I expect to have the scheme operating for the muskrat season this year.

I am writing this to you personally so that you will be sure of getting the pictures and if there is anything further with which I could help you, please let me know.

Yours very truly,

Dear Mr. Matters:

I appreciate very much your letter of February 11 and attached plan and pictures. They arrived just as Mr. Indian Agent Lariviere was in the office and discussing plans for the construction of a one-room log school in his agency, so we were able to put your plans to good use immediately.

We are trying to obtain a few books for use in the trapping course in our Residential Schools. We will send these to you as soon as we hear from the publishers.

I am very pleased to hear about the permit you have received for the taking of fur bearing animals by the children of the Chapleau School.

Sincerely yours,

Re: Furniture in teacher's cottage
Constance Lake Reserve

The furniture in the above noted cottage is the property of the Rev. Jos. Blackburn. Mr. Blackburn is leaving Constance Lake to take up duties in Folyet at the end of August.

When in Constance Lake last week Mr. Blackburn advised me that the house to which he is going in Folyet is furnished and that he would not need to take any of his furniture with him. He requested me to write to you to ascertain if the department would consider buying his furniture to leave in the teacher's cottage. I believe this would be a very sound idea as it is hardly probable that the new teacher will have furniture of his own.

I have seen this furniture often and assure you that it is all in good repair and well kept. I am enclosing a list of the items marked with their cost when new and the amount which Mr. Blackburn is asking for each piece.

I would recommend that this furniture by purchased and left at the cottage.

I would appreciate your comment on this matter at your earliest convenience.

Mr. J.L. Whitney, Clerk in Charge,
Indian Agency, Chapleau, Ontario.

We have your letter of the 19th instant with reference to purchasing from Rev. Joseph Blackburn the furniture in the teacher's cottage at the Constance Lake School.

I enclose for your information the scale of issue for a teacher's residence. You will note that we can secure new furniture much cheaper than the prices asked by Mr. Blackburn for second-hand furniture.

Under these circumstances we would prefer to supply new furniture for this residence.

Concerning the information contained in the above noted letter.

Since the Blackburns will be leaving Constance Lake at the end of August it will be necessary that new furnishings for the teacher's cottage be available for the first of September.

Do you wish me to send in a requisition for the scale of issue of furniture which you enclose or will the matter be looked after from Ottawa?

Mr. Scott, Indian Department
Commissioner,

Dear Sir,

Last summer i had the favor to meet you here and at Abitibi, when you talked to me about this question of having a summer indian school a teacher at Abitibi.

I have considered this matter and at your request i think i can do some thing for it. Both considering that these indian children don't understand a word of english, i think it wouls be convenient to have this summer a teacher who could talk both languages cree and english, in order to give a start to the little indians. I hope to be able to find this person.

Please, then, let me know if this question will issue, and what wages your department intend to give.

I go up at the end of May, or beginning of June. If i can do some more for the opening of this indian school i will do it with determined.

I remain yours truly J. Evain ptre

The Deputy Superintendent General,-

With reference to Father Evain's application for a summer school at Abitibi I beg to say that I think that such a school is the only one suitable for these Indians, as they disperse in the fall for their winter hunt.

According to the census there should be over thirty children of school age, and if the Priest can secure a teacher and any place to hold the school, I would recommend that the Department should allow a grant of $150 for the summer's work. The school could be kept open for about five months. This is the amount of the grant the Department is making to the Temagami and Nepigon summer schools.

A small supply of school material could be sent to the Priest, and I would suggest that the selection of a teacher be left to him.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 25th ult., addressed to Mr. Scott, of this Department, with reference to the establishment of a summer school for the children of the Indians at Abitibi.

In reply I beg to say that, provided you can find a suitable place in which to hold the school, the Department will allow a grant of $150.00 for the summer's work, and payment of the same will be made quarterly upon receipt of returns showing the attendance at the school. A supply of blank forms for this purpose is being sent you.

If you will be good enough to fill in the blank form for school material, which is also being sent you, the Department will supply a reasonable amount. This includes the necessary books,,etc. for the use of the pupils.

The selection of a teacher will be left with you, but you should advise the Department as soon as you have secured a suitable and competent person for the position.

To the Secretary, Dept. of Indian Affairs, Ottawa

Dear Sir,

In reply to your favored letter No: 310111 I let you know that the best and most suitable teacher I can get for this summer's school of Abitibi, is a young lady 22 years old, who got married last fall, mistress L. K. Simpson, lately miss Ellen King, who talk both languages, English and Indian; her husband will come up and help me to fix the local and look over the necessary things of the school. I will give as school room, a part of the church and fix it in a suitable way and as chip possible; I hope to them, to make over there the tables and pews, to mount the black board fix the stove, because stove is necessary, considering the cold days we have over there even in the summer, and other things.
I think it ~~not~~ would be easier to buy up there some of the articles, as I told the teacher to mention on the list.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 12th inst. with reference to a teacher and supplies for the proposed summer school at Abitibi, and in reply I beg to say that the Department will be pleased to avail itself of the services of Mrs. Simpson as teacher of this school, if it is opened, and she has been so advised.

With reference to the supplies for the school a requisition will be made on the Government Stationery Office for the necessary stationery, and, when the school is opened you may, if you find them needed, xx purchase the axe, brooms, chair, cups, cupboard, pail and stove and pipes asked for in the requisition. The Department considers, however, that it may be possible to do without the stove during the months the school will be in operation. An account, in duplicate, for these articles should be forwarded to the Department for payment.

Sir

I have the honor to inform you that I have this day visited the Chippewa Indians of Rama and the Mississaugas of Scugog and have completed the annuity payments to the Chippewas and to the Mississaugas of Scugog. I have not completed the payments to the Mississaugas of Rama as they were not present. I have left the pay lists with the Chief Simon Jacobs to be distributed to the absentees.

On the School, I think I have now only seven pupils and the average present will be very little more than five. Two boys have left to attend the Orillia Separate School. Several boys have left to work on their fathers farms and some of them have gone to their parents homes.

Dear Sir,

I visited the School of Abitibi this 5th and 6th of Sept. in company with Rev. Fr Catafago of Haileybury; we got very pleased and surprised to see the progress of the children, as will tell you also the agent Mr Burwash who visited the school. The parents appreciate very much this favor of the school. But the teacher tells me that she made no wages, and spend all the money for passage and board. I tell you myself that it costs very much to go and live there up.

Now, I will ask your Honour to grant an other school for next Summer at the H.B.C Post at Long Point, on Long Lake; they are over than about 30 children who could go to school; If you grant me $100. or dollar, I promise to have

Dear

Reading Right of Indian Affairs

In reply to yours of the 3rd March, C: 310111,
I would say that I think the same teacher
will accept the Leads again this summer, in consideration
of the increased salary; she is Mrs. John Simpson, and
I have heard from Mr. Burnside and John King, who
visited the School last summer, that teacher has given
great satisfaction to the Indians, and for my part I am
surprised to see the children doing so well and so quick.
Last year we got stopped by ice the 3rd of June;
We don't think that the School can be opened before
the 5th of June

Being very thankfull towards
the Department for its generosity to help
the Indians, while to be civilized and learned
I remain, Dear Sirs,

When recently at Fort Abitibi I paid a visit to the school at that place and found 42 children in attendance under the tuition of Mrs. Simpson.

The children showed that they were receiving considerable benefit from the instruction given them, Mrs. Simpson inculcating habits of cleanliness as well as teaching them to read and write.

A number of the children were examined as to their proficiency in their studies and showed that they are making creditable progress.

A portion of the church ~~was~~ used for school purposes and it would not be advisable to make any other arrangements at present as there is reason for believing that the trading posts will be removed shortly to some point near the line of railway. If this is done the Indians will naturally remove also and any expense incurred in erecting a school building will be lost.

Honorable Sirs,

I would like to know if the Abitibi school will be opened again this summer. For my part, I like to believe that your department will grant this important favor to these Indians whose children get a great benefit of it.

But I must tell you that miss J. A. Simpson teacher this summer, she found too hard to live over there the costs and expenses being too high and everything too dear at Abitibi; so, she told me — to look for an other teacher. I spoke to Mrs Richard Gibbons, her sister, who is speaking both english and Indian, and who is able also to be a good teacher for that school; she is ready to accept the place for the same price that last year: $ 200.00.—

Now here is the list of the material needed for this summer: 2 dozens more of first readers, catholic 1st year; — 5 dozens of slates; (paper slates should be preferable, being lighter and not so easily brittle;

Sir.

I take the liberty to call your attention to the fact that the district of which I am Teacher, is situated over a hundred miles from North Temiskaming, the place of my residence. So, the chances to go out that and come back are very heavy.

Last Spring I thought it would be better to go via Mattawa by railway and steamboat. But owing to the irregularity of the steamboat from Mattawa to Nipissing it took me six days instead of five, so that the chances were still greater. Going by that I paid the actual $25.00 going out, and the same for coming back, so that it gives a total of $50.00 for travelling only. Over and I pay for board at Nipissing 50 cts. a day. So that for 90 days it amounts to $45.00. Then I have only $5.00 left for three months' work. I think it would be only fair for the Department to add at least

$450.00 for my salary amounting - approximately - to $600.00 for three months teaching.

I know - other Teachers in the same District who receive the same salary - than I, and who have not the least expenses to make - to reach their school, beside having made less profits than I have.

This year 65 children have attended school and I think a salary of $75.00 for three months would not be too much for such a number of teachers - as I have - more - for reasons for it.

Four months' teaching, as the Department refused it last year, would be useless. The Indians being hardly able to remain three months at the first session, it comes to the third month, most of them leave, and it would be too cold to begin before June or to stay longer than to the end of July.

One more I beg the Department to consider this matter fairly.

Hoping you will understand the justice of my appeal I have grant my humble request.

Sir,

I have to acknowledge the receipt of your letter of the 29th ultimo enclosing an application for the position of teacher of the Abitibi summer school from Mrs. John R. Simpson.

In reply I beg to say that the Department will accept Mrs Simpson's services and will pay her $175.00 for the season, provided the school is kept open three full months. School should be re-opened just as soon as Mrs. Simpson can reach Abitibi.

As Mrs. Simpson has had experience in this school before it will not be necessary to give her full instructions.

I have made arrangements with the missionary Rev. Father Grandin regarding that matter & the board will be glad to receive pupils. Should the agents of such Indians as desire to attend school from their reserves be unwilling to do so, would you kindly let me know & I will endeavour to arrange matters.

Also could I have two applications for the admission of half breed pupils. The arrangements could be made as to teaching, and [illegible] charge applied for the education. I am applied for admission for two years. Should the children be unwilling to remain for the full term, could they be withdrawn at any time, or would you require them to remain the full term.

I have to inform you that the Chief and Councillor of the Abitibi Band called at the Department today and complained that some of your pupils, who are grown up young men over the school age, are damaging the church in which the school is held and the Chief and Councillor claim that they are a nuisance and should be dismissed from the school.

The Department is of the opinion that these young men should try and obtain work during the coming summer, but if they wish to attend school for the purpose of receiving an education there is no objection to their doing so, so long as they behave themselves, and they should only be there during school hours. The Department would like you to inform these young men that this concession is made on the understanding that they behave themselves whil in school and it will expect reports from you from time to time as to the manner in which they conduct themselves. Should they at any time fail to carry out the above instructions you are at liberty to expel them from the school and you should give your reasons for so doing to the Chief and the Department.

Sir,-

I have to acknowledge the receipt of your letter of the 30th ultimo, enclosing a communication from the Rev. Father Evain regarding Miss Alice McBride, who has applied for the position of teacher for the summer term at Abitibi.

In reply I beg to say that, in view of Father Evain's report as to the character and ability of this girl, the Department will approve of her appointment as teacher during the present summer and will pay her at the same rate as was allowed the former teacher, namely, $175.00 for her services for three months.

You will be good enough to instruct Miss McBride to commence her duties at this school as soon as possible. It is expected that she will teach three full months, from the date on which she re-opens the school.

Kindly give this matter your prompt attention and inform the Department as to the date upon which Miss McBride leaves to take up her duties at Abitibi.

Rev. Sir,-

The Department has received an application from Mrs. Jas. Don. McLaren of Nedelec to teach the school which is conducted during the summer months only for the benefit of the Indian children at Abitibi.

As there is no Indian Agent at Temiskaming, I am referring this matter to you and will be very pleased if you can furnish information regarding this woman and whether you consider she would be qualified to conduct the summer school at this point.

This school was open last summer during June, July and August, and I will also be pleased if you will state whether in your opinion you consider the school should be conducted during the coming summer.

It is thought that you may be in a position to furnish the Department with the information asked for.

Dear Sir,

In reply to your letter — march 3 — no. 310111 — re an application from Mrs. Jas. Dan. McLaren to teach summer school at Abitibi, I am glad to state that this woman was recommended to me by reliable people. She was well appreciated when she taught at Long Point.

I am not, myself, visiting the Indian missions but I often heard of the great benefit accruing from those summer schools. Father Evain, O.M.I. — 15, Massue St., City of Quebec, P.Q. — passes through here when going to Abitibi, every Summer, and I know from him that a school in that mission is a serious need. Last year, he took much trouble to get a teacher for that place.

In further reference to your letter of the 26th ultimo applying for the position as teacher of the Abitibi school for the summer months, I beg to say that your appointment to this position is approved, with salary at the rate of $175.00 for three months' services.

You should arrange to re-open this school on or about the first of June, next, and it should be kept open continuously until the end of August. You should then prepare and forward a return showing the attendance and days taught, in order that the amount of salary due can be paid you.

You should forward a request for the books and school material which you consider will be required, together with the address to which it should be sent.

It is hoped that you will meet with success in your work at this school during the coming summer. The Department will be pleased to hear of your acceptance of this position, and also whether you can begin duties at the time stated.

Re Indian Schools

To the Superintend,-

I am greatly interested in the summer schools kept in my missions , specially those of Abitibi and Timagami, where I could verify the good order, the devotion and the practical capacity of the directing teachers; I take the liberty to ask that those teachers be granted an increase in salary.

It is impossible for a woman like Mrs. Donald Mc.Laren who has travelled from Abitibi to North Temiscaming with five young children to live with a salary of $ 50.00 per month; it is at least the double which she requires , considering furthermore that her activity and devotion to teach the band of Abitibi is above elogy. I have ascertained this during the full month of June which I spent as missionary at Abitibi.

I have just spent 10 days at Timagami, and I found the same earnestness with Miss El. Honam who keeps the school at Bear Island. This person teaches only five months, and has naturally her year spoiled. I recommend therefore the same salary of$100.00 per month for this teacher. In making these recommendations I am only answering to these devoted person's request, who begged me to intercede in their favor, I am doing this with greater pleasure knowing their merit.

Yours very humbly

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 14th instant requesting increases in salary for the teachers of the summer schools at Abitibi and Temagami.

In reply I beg to say that, after full consideration of this matter, the Department has decided to allow both these teachers an increase in salary and they will be paid $75.00 per month each during the period the schools are open. Mr. Agent Cockburn will be informed of the increase being granted Miss Honan at Temagami and Mr. Agent McDonald of the increase granted to Mrs. McLaren, teacher of the Abitibi Summer School. Any balance of salary due at the increased rate will be paid when the next payments of salary are being made these teachers.

The Department regrets that it cannot agree to the granting of an increase to the extent of your request, as the funds at its disposal are very limited.

Sir,-

I have to acknowledge the receipt of your letter of the 9th instant, in which you state that Mrs. J. D. McLaren, who was recently appointed for the position of teacher of the Abitibi Day School, would prefer to teach the Long Point School this summer.

In reply I beg to say that the Long Point School last year was in charge of Miss Jane Polson, and Rev. I. Evain, Villa Marie, Que., reported that she was not conducting the school in a satisfactory manner and in his letter of August 27th, last, he suggests that Mrs A. Amesse be engaged as teacher for the present summer. No action, however, was taken on his suggestion of appointing Mrs. Amesse and, at the present time, the Department has no teacher in view for this school. There would, therefore, appear to be no objection to Mrs. McLaren taking charge of the Long Point School for the present summer, but, before authorizing her to do so, the Department would like you to get into touch with Father Evain. No doubt, you will be able to arrange matters with him and the Department will expect to hear from you as to what school Mrs. McLaren will be in charge of during the present summer.

If Mrs. McLaren takes charge of Long Point you should consult Father Evain with reference to securing a teacher for the Abitibi School and submit any nomination made by him for the Department's approval.

Re:- No. 35-2-1

Sir:-

Replying to your letter re appointment of Miss A. McBride for the school of Abitibi, I wish to say that I have no objection to the nomination. I never received any complaint, and I have good reasons to believe that she is fulfilling her duties in the proper manner. I, therefore, approve of it if Mr. Lewis, the Agent, is also in favour

OTTAWA, April 12th, 1922.

Madam, -

In further reference to your letter of the 3rd instant applying for the position of teacher of the school at Abitibi for the coming summer months, I beg to say that Rev. I. Evain, missionary in charge of the district, informs the Department that he will be pleased to recommend your appointment.

I have, therefore, to inform you that the Department will approve of your appointment to begin duties on or about the 1st of June, next. The salary allowed will be at the rate of $75.00 per month, plus any bonus provided by law.

Mr. Agent Lewis, Temiskaming, is being informed of your appointment, and you should arrange to take up duties by the 1st of June, next.

Should you require any school material, you should prepare a list of the same and forward it to the Department together with full shipping directions, and same will be shipped through the Government Stationery Office here.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

Reverend Sir:-

I have yours of the 5th instant, concerning the Abitibi Indian Day School. I have noted that it would be impossible to use the church for school purposes any longer.

As this summer school has never been any real success, I am of the opinion that the Department would be well advised to discontinue the sessions. However, we are writing Mr. Agent Lewis to get his opinion before definite action is taken.

I note further that if the summer school is opened at Abitibi again, it will be necessary to erect an inexpensive school and that you would be prepared to supervise this work at a probable cost of Six or Seven Hundred Dollars.

The Department is in receipt of a communication from the Rev. Father Evain, informing us that it will be no longer possible to hold the summer school for Indian children at Abitibi in the church. He intimates that it would be necessary, if we wish to continue the classes, to erect an inexpensive school building. He offers to supervise the construction in that event.

I am of the opinion that we might discontinue our summer school at Abitibi for a year or two, as the work done has not warranted the expense involved. The Indians are too nomadic in their habits for real results. The Department would like your recommendation in this connection.

October 10th, 1922 19

Sir:-

In reply to official letter No.35-2-1 of the 6th.inst. I beg to report that I do not consider the attendance at the Abitibi Summer school, would warrant the expenditure that would be incurred by the erection of a school building. My experience is that the Indians stay around the Post during the visit of the missionary dn the month of June, and until the distribution of the Treaty nine annuity is made, and as soon as that is over they depart, with few exceptions, and camp along the rivers adjacent to the N.T.C.Rly. until the hunting season commences.

I have found a large attendance at the school during my visits to the Abitibi Post this past two summers, in the month of June, but I know that after my departure, the attendance dwindled down to a very small number.

In connection with this matter I also beg to report that as none of these Abitibi Indian children are able to speak any English, it is absolutely essential that the teacher be able to talk Indian, and it is a difficult matter to obtain the services of a teacher able to speak the language, that possesses sufficient qualifications to be able to teach the children very much.

Rev. Sir! -

In further reference to official letter of the 6th instant regarding the summer school at Abitibi, I beg to say we are informed by our Agent, Mr. W. H. Lewis, North Temiskaming, that he does not consider the attendance at this point would warrant the expenditure that would be incurred by the erection of a school building. He further states that he has been notified by the manager of the Hudson's Bay Company store at Abitibi Post that they intend to remove their business to LaSarre sometime this fall.

As there would not be a sufficient number of children remaining at Abitibi to warrant the continuing of a summer school, the Department is of the opinion that it would be useless to continue a school at this point. This work will, therefore, be discontinued for a year or two until such time as the Department is assured that there will be sufficient children to warrant the school being re-opened.

We are informing Mr. Agent Lewis accordingly.

As the Hudson's Bay Company are removing their stores to another point, it is considered that there would be an insufficient number of Indian children remaining at Abitibi to carry on a summer school. To the Superintendant of Indian Affairs
Ottawa,

Sir,

I am receiving an application from Miss Mary Anne McDonald who last year in the North, a teacher of Abitibi school; I may say, the first who has been teaching there. She was engaged for nine months yearly at Haileybury, and I am not to her, since — But having been put out by the fire of last fall, she says that she is free now —

It was decided, last winter, that the Abitibi school should be closed, and one of my best reasons was that the last teacher was not appreciated, and having not the sufficient authority to keep the indian children correct. Indeed, I was sorry to think that the Indian children of Abitibi would be without any school; and, knowing that Miss McDonald, of a reasonable age (30 at least, and more) is willing to teach again, I am taking the liberty of asking the Department to try an other summer again —

I am Your humble Servant

I have to acknowledge the receipt of your letter of the 21st instant, requesting that the Abitibi summer school be re-opened during the coming summer, and nominating the services of Miss Mary Ann McDonald as teacher.

In reply I beg to say that, before the Department can approve of the re-opening of this school, we will require to be informed as to the number of Indian children at that point who would be likely to attend. We understood that there would not be a sufficient number of children remaining at Abitibi to continue the work this coming summer. However, if you will inform us of the number of children likely to attend, we will then be in a position to decide as to whether we can approve of the re-opening of the school or not.

Monsieur le Secrétaire,

En réponse au no. 35-2-1,
- avril 25, 1925 -

Je dois vous dire qu'il est un peu difficile de déterminer le nombre d'enfants indiens qui fréquenteront l'école d'été à Abitibi + la saison prochaine. J'aime à croire que, durant les mois de juin et de juillet, l'attendance dépassera facilement le nombre de 25.

Toutefois, voici la condition que je vous suggérerais de demander à l'institutrice, Mademoiselle B. A. McDonald.

Elle enseignerait tant qu'elle aurait un nombre minimum de ..... (20 par exemple) d'élèves durant trois jours, ce nombre devenait insuffisant, elle devrait fermer l'école et n'exigerait salaire que pendant le temps qu'elle enseignerait.

Si elle accepte vos conditions, je suis encore disposé à fournir l'église cette année en témoignage que précédemment.

Sir:

Rev. Father I. Evain requests that the summer school at Abitibi be re-opened this coming summer. Last Fall he was under the impression that there would not be sufficient children to warrant its re-opening, and you were informed in official letter of October 14th, 1922, that the work at this point would be discontinued. The Reverend Father now states that he has reason to believe that for the months of June and July there will be an attendance of at least 25 children, and has nominated the services of Miss A. McDonald, who formerly taught this school. She has lately been teaching at Haileybury, but her services are now available for Abitibi.

We are informing the Rev. Father that we will approve of the appointment of Miss McDonald, to begin duties on or about the 1st of June, next, and that she is to keep the school open while she has a minimum attendance of 20 pupils. If the attendance goes below that number, she is to close the school. The salary allowed her will depend upon the attendance and success achieved.

I have to acknowledge the receipt of your letter of the 26th ultimo, in further reference to your request that the school be re-opened at Abitibi during the coming summer, and stating the number of children that would likely attend.

In reply I beg to say that we will approve of the re-opening of the school and the appointment of Miss A. McDonald as teacher, to begin duties on or about June 1st, next. This school is to remain open on condition that there is a minimum attendance of at least 20 children. The salary allowed Miss McDonald will depend upon the attendance and success achieved. If there is a sufficient attendance, we will be prepared to pay the same salary as was allowed last year, viz: $75 per month, plus any bonus provided by law.

I have to refer to that portion of your letter of the 8th instant relative to the re-opening of the Abitibi Summer School and the appointment of Miss Mary A. McDonald as teacher. If you consider that there are sufficient Indian children at this point to warrant the re-opening of the school and that it would meet with success, you may arrange with Miss McDonald to take up duties during the months of June, July and August, next. If you agree to re-opening the school the Department will allow Miss McDonald salary at the same rate as was paid last year, viz.: $75 per month supplemented by any bonus that may be provided by law. Sir:

I have to acknowledge the receipt of your letter of the 17th instant, informing the Department that you consider it advisable to re-open the Abitibi school during the coming summer, and that you have requested Miss Mary A. McDonald to take up duties on the 2nd prox.

In reply I beg to say that the action taken is approved. We note that she will teach during the months of June and July, and August if enough Indian families remain at the post to warrant the keeping open of the school during that month. As you were informed in our letter of the 12th instant, the salary allowed will be at the rate of $75 per month, supplemented by any bonus that may be provided by law.

As soon as a requisition is received for any school material required by her, an order will be placed with the Government Stationery Office to forward the same.

Madam:

I have your letter of the 25th instant, applying for re-engagement as teacher of the summer school at Abitibi, and enclosing a recommendation from Rev. Father Evain.

In reply I beg to say that enquiry is being made as to whether it would be advisable to continue the work at this point next summer or not. As soon as we are satisfied that enough Indian families remain at the post to warrant the school being kept open, your application will receive favourable consideration, and you will be further advised.

Sir:

An application has been received from Miss M. A. McDonald, who taught the summer school at Abitibi last summer, for re-engagement as teacher for the coming summer. This application is endorsed by Rev. Father Evain, the missionary at Abitibi. Before considering her re-engagement, I shall be pleased if you will state whether in your opinion this school should be conducted next summer or not. You should state if a sufficient number of Indian families will remain at this point to warrant the school being opened, and, if so, if you would approve of the re-engagement of Miss McDonald.

An early reply will oblige.

It was agreed that Miss Mary-Ann McDonald was to teach again during the months of June and July the Indian children of Abitibi.

She has just informed me that she is to be married and cannot teach any longer.

I have requested Mrs. Donald McLaren of North Temiskaming, who has taught before with success the Indian children, if she would accept the position. Her reply was in the affirmative on the condition that she be furnished a small dwelling, this I hope to be able to find, and a bonus from your Department to pay her travelling and other expenses in connection with her displacement, this I believe would be reasonable. It would amount approximately to about thirty ($30.00) dollars.

Would your Department approve of this arrangement?

I beg to acknowledge receipt of official letter No.35-2-1 of the 29th. of April in reference to the application of Miss Flora McBride for the position of teacher of the Abitibi Summer School, and in reply would say that this young lady has had no previous experience as a teacher. She has the same qualifications as any of the previous teachers at Abitibi or Long Point Summer Schools. She has a good education and speaks Indian fluently, which is very near essential in such a place as Abitibi where the children do not speak much English. The term of 2 months is so short that it is doubtful whether the services of a qualified teacher could be obtained for that period as the expenses of transportation and board would use up the greater part of the salary.

The teachers for Abitibi and Long Point Summer Schools have always been sent from this vicinity, and at the present time this is the most eligible applicant available.

Sir:

I have your letter of the 4th instant, furnishing particulars as to the qualifications possessed by Miss Flora McBride who has applied for the position as teacher of the Abitibi Indian Summer School.

In this connection I beg to say that we have received a communication from Rev. Father Evain, R.C. missionary to the Indians at Abitibi, in which he requests that Mrs. Donald McLaren, of North Temiskaming, be appointed as teacher. He states that he has asked her if she would accept this position, and that her reply was in the affirmative, on the condition that she be furnished with a small dwelling. The Rev. Father states that he will be able to find suitable living accommodation for her. We are writing him today, informing him of the application which you forwarded from Miss McBride, and requesting him to state definitely which of the two applicants e prefers for the position. As he is deeply interested in the work among the Indians at Abitibi, it is necessary that he concur in the appointment of the teacher for the coming summer. I beg to acknowledge receipt of official letter No.35-2-1 of the 7th.inst.in reference to the appointment of a teacher for the Abitibi Summer School,and note that the Rev.Father Evain has requested Mrs.McLaren to teach at this school this coming summer. This woman was a fairly good teacher some years ago,but now has a family of 6 children and I fail to see how a woman with a family that size can devote all her time to teaching school.

As the Rev.Father is the missionary to these Indians it is essential that he should approve of the teachers that are appointed for these schools, but he really knows very little about the qualifications of any of those who are able to teach school in this vicinity as he has been away from here for a number of years,and very rarely visits here.Also some of the younger ones are far more competent than were the teachers of these summer schools some years ago,as the educational facilities have been much better in recent years in this district.I would like to see some results achieved in these schools as both the Abitibi and Long Point countries are fast becoming settled with white people,and it is necessary that these Indian children should learn something more than their catechism.

Ottawa, April 6th, 1926.

Rev. Sir:

I have your letter of the 1st instant, informing the Department of your approval for the reopening of the summer school at Abitibi and the appointment of Mrs. J. D. McLaren as teacher.

In this connection I beg to inform you that we are requesting Mr. Agent Lewis, North Temiskaming, if he considers it advisable to do so, to arrange with Mrs. J. D. McLaren to reopen the school on or about the 1st of June, next. We will allow her salary at the same rate as was paid her last year, viz. $90 per teaching month. If Mr. Lewis considers that it is advisable to conduct a school at Abitibi during the coming summer, he will make the necessary arrangements to do so.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Ottawa, April 6th, 1926.

Sir:

A request has been received from Mrs J. D. McLaren, North Temiskaming, who formerly taught the Abitibi Summer School, for her reappointment for the coming summer. The Department has also received a communication from Rev. Father Evain in which he states he is favourable to having this school conducted again during the months of June and July, next, and the appointment of Mrs. McLaren.

If you consider that this school should be reopened again this coming summer and that the services of Mrs. McLaren will be satisfactory, you may inform her of her appointment, and arrange with her to begin duties on or about the 1st of June, next. We will allow her salary at the same rate as was paid last year, viz. $90 per teaching month. Please inform the Department later as to whether you approve of the reopening of this school, and, if so, if Mrs. McLaren will accept the position at the salary offered and the probable date on which she will begin duties. Please give this matter your early attention.

I beg to inform the Department that I have received a few applications for the position of teacher for the Abitibi Indian Summer School, the choice of Rev.Father Evain and mine is########## Miss Marguerite McBride who will be ready to leave for Abitibi the 1st of June.
The abitibi School did not give very much satisfaction last summer,it is hard to keep the Indians at the Abitibi Post,they are always in a hurry to leave for the different towns along the railway.
I would be pleased if the Department will give them one more chance and ,as I will be there next month I will try to convince them to stay at the Post so that their children can go to school.

Sir:

I have your letter of the 25th instant, nominating the services of Miss Marguerite McBride as teacher of the Abitibi Summer School.

In reply I beg to say that, in view of your recommendation, the Department will approve of the conducting of this school for the coming summer and the appointment of Miss McBride as teacher. We note that her appointment meets with the approval of Rev. Father Evain. The salary allowed her will be at the rate of $90 per teaching month. We note that Miss McBride will be ready to leave for Abitibi on the 1st proximo. She should conduct this school, if possible, for a period of three months.

We note that you intend visiting this post next month. Please assist the teacher in any way you can and endeavour to persuade the Indian parents to see that there is a regular attendance.

In reply to official letter no 35-2-5 of the 3oth of last month, I beg to inform the Department that Miss Katherine McLaren has no experience as school teacher, her age is ### 18 years, the reason Reverend Father Evain would like to get her is that she is able to speak the indian language very well and it is important as most of the children at Abitibi speak Indian only, none of the children there are in high classes and will never be, because it is impossible to keep the Indians at the Post any more than two months and sometimes less. For this reason I am of the opinion that it would be better to have Miss McLaren than a qualified teacher who would be able to speak to the Indians in their own language.
I have seen Miss McLaren a few times and I may say she is an intelligent looking girl.
The Abitibi Indian Summer School, generaly opens the first day of June.
I may that Miss McLaren is the daughter of Mrs. J.D.McLaren who has been teaching school in Abitibi a few years, and at Lang Point the last two years.

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Abitibi Day School for the Quarter ended Aug 31st 1921

Teacher Alice M. Bride

P. O. Address North Temiskaming

Dated September 19th 1921

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department

W. S. Lewis
Indian Agent or Superintendent

Dated at North Temiskaming

this September 19th 1921

Agents and Superintendents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column

INSTRUCTIONS TO TEACHERS.

1 Fill up all the columns in this Return

2 All the columns of the Return *must be added* and the totals placed at the foot thereof

3. The total number of days absent and days present not to be omitted, as these two columns added together should give the total number of school days.

4. Number and date of holidays to be inserted in the column for remarks

5 By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be paid for.

6. The class standard of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular standard. The standard course for each class will be found on the back of the Daily Register and is to be followed

7 No names other than those of Indian children are to be included in this Return

8. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the Department through the local Indian Agent or other authorized official

9. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

10 The average daily attendance during the quarter may be ascertained by dividing the total number of days' attendance of all the pupils by the number of days school was open in the quarter.

11. No teacher's salary will be paid until this Return has been received by the Department

12. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

13. The school must be opened and closed punctually at the hours approved of by the Department

14. This form to be used for Day Schools only.

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the North Thunder Bay School for the Quarter ended 30th Sept 1923

Teacher M. A. McDonald

P. O. Address La Cloche

Dated 29th Oct 1923

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. H. Lewis
Indian Agent.

Dated at North Temagami

this 16th of November 1923

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorised holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.

2. All the columns of the Return *must be added* and the totals placed at the foot thereof.

3. The total number of days absent and days present not to be omitted, as these two columns added together should give the total number of school days.

4. Number and date of holidays to be inserted in the column for remarks.

5. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be paid for.

6. The class standard of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular standard. The standard course for each class will be found on the back of the Daily Register and is to be followed.

7. No names other than those of Indian children are to be included in this Return.

8. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the Department through the local Indian Agent or other authorized official.

9. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

10. The average daily attendance during the quarter may be ascertained by dividing the total number of days' attendance of all the pupils by the number of days school was open in the quarter.

11. No teacher's salary will be paid until this Return has been received by the Department.

12. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

13. The school must be opened and closed punctually at the hours approved of by the Department.

14. This form to be used for Day Schools only.

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 2, and end on June 30 in each year.

The following holidays will be allowed during the year:—All Saturdays, Labour Day, all local, municipal, Dominion and Provincial, public holidays, Thanksgiving days, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday and Victoria Day.

In addition to the above, the Roman Catholic schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school work such a holiday may be desirable, the holidays should during the summer (two months) come upon the most some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session not less than 1½ hours, with a recess during each session of not less than 15 and not more than 20 minutes.

In computing salaries for broken periods, teachers will be paid in the proportion that the number of days they have taught bears to the total number of teaching days in the year.

Salaries of teachers will be payable quarterly upon receipt of returns, but where a teacher is engaged to take charge of a school, duties to commence after the summer holidays, payment for the September quarter will be made as provided for in the case of broken periods in the previous paragraph; and at the end of the year, or when services expire if before the end of a year, the necessary adjustment will be made and all arrears, if any, paid.

All teachers will be required to give at least one month's notice of their intention to resign.

Dated .....14th August 1924

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

.....W.A.T. Lewis .....
Indian Agent.

Dated at North Temiskaming Ont

this 16th August 1924.

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorised holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.

2. All the columns of the Return *must be added* and the totals placed at the foot thereof.

3. The total number of days absent and days present not to be omitted, as these two columns added together should give the total number of school days.

4. Number and date of holidays to be inserted in the column for remarks.

5. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorised holidays will be paid for.

6. The class standard of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular standard. The standard course for each class will be found on the back of the Daily Register and is to be followed.

7. No names other than those of Indian children are to be included in this Return.

8. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the Department through the local Indian Agent or other authorized official.

9. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

10. The average daily attendance during the quarter may be ascertained by dividing the total number of days' attendance of all the pupils by the number of days school was open in the quarter.

11. No teacher's salary will be paid until this Return has been received by the Department.

12. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

13. The school must be opened and closed punctually at the hours approved of by the Department.

14. This form to be used for Day Schools only.

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 3, and end on June 30 in each year.

The following holidays will be allowed during the year:—All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public fast or thanksgiving days, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday and Victoria Day.

In addition to the above, the Roman Catholic schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

In computing salaries for broken periods, teachers will be paid in the proportion that the number of days they have taught bears to the total number of teaching days in the year.

Salaries of teachers will be payable quarterly upon receipt of returns; but where a teacher is engaged to take charge of a school, duties to commence after the summer holidays, payment for the September quarter will be made as provided for in the case of broken periods in the previous paragraph, and at the end of the year, or when services expire if before the end of a year, the necessary adjustment will be made and all arrears, if any, paid.

All [redacted] will be requ[redacted] to give at least one [redacted]th's notice of their intention to resign.

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorised holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.

2. All the columns of the Return *must be added* and the totals placed at the foot thereof.

3. Number and date of holidays to be inserted in the column for remarks.

4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorised holidays will be allowed.

5. The class standard of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular standard. The standard course for each class will be found on the back of the Daily Register and is to be followed.

6. No names other than those of Indian children are to be included in this Return.

7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.

8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

9. The average daily attendance during the quarter may be ascertained by dividing the total number of days' attendance of all the pupils by the number of days school was open in the quarter.

10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

11. The school must be opened and closed punctually at the hours approved of by the Department.

12. This form to be used for Day Schools only.

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 3, and end on June 20 in each year.

The following holidays will be allowed during the year: All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public [illegible] Thanksgiving days, the King's Birthday, the Good Friday, Easter Monday, the remainder of the week following Easter Monday and Victoria Day.

In addition to the above, the Roman Catholic schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Whenever the interest of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter, upon receipt of quarterly return. As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salaries for that quarter will be for two months only. During each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between these dates only, unless, as heretofore stated, special provision has been granted for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

All questions relating to the day schools should be referred to the local Indian Agent.

In addition to the above, the Roman Catholic schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter, upon receipt of quarterly return. As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. During each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between those dates only, unless, as heretofore stated, special provision has been granted for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

All questions relating to day schools should be referred to the local Indian Agent.

Dated at [illegible]

this [illegible] day 1926

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorised holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return

2. All the columns of the Return *must be added* and the totals placed at the foot thereof.

3. Number and date of holidays to be inserted in the column for remarks.

4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorised holidays will be allowed.

5. The class standard of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular standard. The standard course for each class will be found on the back of the Daily Register and is to be followed.

6. No names other than those of Indian children are to be included in this Return.

7 The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.

8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

9. The average daily attendance during the quarter may be ascertained by dividing the total number of days' attendance of all the pupils by the number of days school was open in the quarter.

10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

11. The school must be opened and closed punctually at the hours approved of by the Department.

12. This form to be used for Day Schools only.

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 3, and end on June 30 in each year.

In addition to the above, the Roman Catholic schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

The following holidays will be allowed during the year—All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public fast or thanksgiving days, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday and Victoria Day.

Where in the interest of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than [redacted] minutes.

5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.

6. No names other than those of Indian children are to be included in this Return.

7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.

8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.

10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

11. The school must be opened and closed punctually at the hours approved of by the Department.

12. This form to be used for Day Schools only.

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 3, and end on June 30 in each year.

The following holidays will be allowed during the year:—All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public fast or thanksgiving days, Victoria Day, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday.

In addition to the above, the Roman Catholic schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school work such action may be desirable, the holidays during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter, upon receipt of quarterly return. As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. During each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between those dates only, unless, as heretofore stated, special provision has been granted for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

All qualified [redacted] relating to [redacted] day school [redacted] be referred to the local Indian Agent.

Indian Agent

Dated at North Temiskaming

this 7th of August 1928

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.

2. All the columns of the Return *must be added* and the totals placed at the foot thereof.

3. Number and date of holidays to be inserted in the column for remarks.

4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.

5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.

6. No names other than those of Indian children are to be included in this Return.

7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.

8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.

10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 2, and end on June 30 in each year.

The following holidays will be allowed during the year:—All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public fast or thanksgiving days, Victoria Day, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday.

In addition to the above, the Roman Catholic schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter, upon receipt of quarterly return. As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. During each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between these dates only, unless, as hereinbefore stated, special provision has been [illegible] for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

Indian Agent

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.

2 All the columns of the Return *must be added* and the totals placed at the foot thereof.

3. Number and date of holidays to be inserted in the column for remarks.

4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.

5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.

6. No names other than those of Indian children are to be included in this return

7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.

8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.

10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

11. The school must be opened and closed punctually at the hours approved of by the Department

12. This form to be used for Day Schools only.

Form No. 144

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 3, and end on June 30 in each year.

The following holidays will be allowed during the year:—All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public fast or thanksgiving days, Victoria Day, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday.

In addition to the above, the Roman Catholic schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter, upon receipt of quarterly return. As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. During each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between those dates only, unless, as heretofore stated, special provision has been granted for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

All questions relating to the day school [illegible] be referred to the local Indian [illegible]

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 3, and end on June 30 in each year.

The following holidays will be allowed during the year:—All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public fast or thanksgiving days, Victoria Day, the birthday, Good Friday, Easter Monday, the remainder of the week following Easter

In addition to the above holidays, the Roman Catholic schools will be allowed as holidays a limited number of holy days of obligation not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter, upon receipt of quarterly return. As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. During each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between those dates only, unless, as hereinafore stated, special provision has been granted for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

All questions relating to the day [redacted] should be referred to the local Indian Agent.

In addition to the above, the Roman Catholic schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter upon receipt of quarterly return. As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. During each of the other quarters in the school year—if school is regularly taught—three months salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between those dates only, unless, as heretofore stated, special provision has been granted for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

All questions relating to the day school [redacted] be referred to the local Indian Agent.

DAY SCHOOL RETURN

DEPT. OF INDIAN AFFAIRS
SEP 27 1930

I HEREBY CERTIFY that the within return is a true and faithful statement of the attendance and tuition at the Abitibi Summer Day School for the Quarter ended Aug 29 1930

Teacher: Katherine M Larsen

P. O. Address: Ville Marie

Dated Sept 15 1930

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Indian Agent

Dated at Ft. Iberville

this 15th of Sept 1930.

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.

2. All the columns of the Return *must be added* and the totals placed at the foot thereof.

3. Number and date of holidays to be inserted in the column for remarks.

4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.

5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade

6. No names other than those of Indian children are to be included in this return.

7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.

8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter

10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

11. The school must be opened and closed punctually at the hours approved of by the Department.

12. This form to be used for Day Schools only.

Form No. 144

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 3, and end on June 30 in each year.

The following holidays will be allowed during the year:—All Saturdays, Labour Day, all local (municipal), Dominion or Provincial, public fast or thanksgiving days, Victoria Day, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday.

In addition to the above, the Roman Catholic schools will be allowed as holidays a limited number of holy days of obligation not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter, upon receipt of quarterly return. As schools are open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. During each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between these dates only, unless, as heretofore stated, special provision has been granted for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

All communications relating to the day school should be addressed to the local Indian Agent.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Haza
Indian Agent

Dated at E. Dame de Portage this 3-10 of Oct 1932

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.

2. All the columns of the Return *must be added* and the totals placed at the foot thereof.

3. Number and date of holidays to be inserted in the column for remarks.

4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.

5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.

6. No names other than those of Indian children are to be included in this return.

7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent

8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.

10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

11. The school must be opened and closed punctually at the hours approved of by the Department.

12. This form to be used for Day Schools only.

Form No. 144

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 3, and end on June 30 in each year.

The following holidays will be allowed during the year—All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public fast or thanksgiving days, Victoria Day, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday.

In addition to the above, the Roman Catholic Schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year, but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter upon receipt of quarterly return As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. During each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between those dates only, unless, as heretofore stated, special provision has been granted for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

All questions relating to the day school should be referred to the local Indian Agent.

Sir:

I have to acknowledge the receipt of your letter of the 17th instant, informing the Department that you consider it advisable to re-open the Abitibi school during the coming summer, and that you have requested Miss Mary A. McDonald to take up duties on the 2nd prox.

In reply I beg to say that the action taken is approved. We note that she will teach during the months of June and July, and August if enough Indian families remain at the post to warrant the keeping open of the school during that month. As you were informed in our letter of the 12th instant, the salary allowed will be at the rate of $75 per month, supplemented by any bonus that may be provided by law.

As soon as a requisition is received for any school material required by her, an order will be placed with the Government Stationery Office to forward the same.

Sir:

Referring to previous correspondence regarding the appointment of a teacher for the Abitibi Indian Summer School, I beg to say that a communication has been received from Rev. Father Evain in which he requests that Mrs. Donald McLaren, of North Temiskaming, receive the appointment. He states that he has personal knowledge as to the qualifications of both Mrs. McLaren and Miss McBride and that he has no hesitation in recommending that Mrs. McLaren receive the appointment.

The Department, therefore, approves of the appointment of Mrs. McLaren for the coming summer, to teach a period of two months. The total salary allowed her will be at the rate of $90 per month. Please inform her accordingly, and arrange with her to begin duties at a time when it is considered advisable by you to re-open the school. When the period of her services is completed, you should see that she prepares and forwards the usual returns showing the attendance, days taught, etc., in order that payment of salary due can be made. Please ascertain definitely from Mrs. McLaren whether she accepts, and the date upon which it is intended that she will re-open the school. We are informing Rev. Father Evain of the approval granted for her appointment.

Sir,

I have your letter of the 25th instant, nominating the services of Miss Marguerite McBride as teacher of the Abitibi Summer School.

In reply I beg to say that, in view of your recommendation, the Department will approve of the conducting of this school for the coming summer and the appointment of Miss McBride as teacher. We note that her appointment meets with the approval of Rev. Father Evain. The salary allowed her will be at the rate of $90 per teaching month. We note that Miss McBride will be ready to leave for Abitibi on the 1st proximo. She should conduct this school, if possible, for a period of three months.

We note that you intend visiting this post next month. Please assist the teacher in any way you can and endeavour to persuade the Indian parents to see that there is a regular attendance.

Sir:

I have your letter of the 22nd instant, regarding the accommodation of Rev. Father Evain and yourself that Miss Katherine McLaren be transferred from her position as teacher at the Wolf Lake Indian Day School to teach the Abitibi Summer School for a three months' period from June 1st, next, and that the Wolf Lake School is to remain closed during that period.

In this connection I have to say that the Department will approve of this arrangement, and Miss McLaren may close the Wolf Lake School at the end of the present month and take charge as teacher at the Abitibi School during June, July and August. The salary allowed her during the period she is teaching at Abitibi will be at the rate of $70 per teaching month. You should advise Miss McLaren of the approval granted for her to teach at Abitibi during the three summer months and arrange with her to begin duties as early in June, next, as possible.

To the Secretary,

Department of Indian Affairs,

Ottawa.

Sir:-

x x x x

R.P.Evain tells me that he will arrange with your Department for the School and its furnishings, which I think will be needed for the summer, some of the articles could be bought at the Hudson Bay post, as it is so difficult to transport these articles to this far off Mission. In any case, I have marked with a cross x the objects which I could procure at Abitibi with your consent and your orders through Father Evain.

You will tell me what you judge to be preferable now, does the Department take charge of the transport of these articles to the Abitibi post, or shall I myself be obliged to transport them from here? In any case, every thing should be well packed. An answer would very much oblige,

Your humble servant,

Sgd. Mrs. John R. Simpson.

Sir.

To the Superintendent
of Indian affairs,

Dear Sir.

Mrs J. Simpson tells me that she is surprised about your asking the list of school material left at Abitibi, because she sent it to your Department. but if lost Please ask Her on other list she is willing to give you satisfaction. She received her payment, and she is very much thankfull.

Hoping that this School will be reopened next spring and an other one opened at Long Point, on the Quinze Lake

I remain Your humble and grateful Servant for all the kind attention given to my requests

Sir,-

In reply to your letter of the 4th instant for supplies for the Abitibi Summer School, I beg to say that the Department does not consider it advisable to order a new blackboard for this school at the present time.

If a blackboard is required at this school, you should forward a requisition for it before the school re-opens next year.

The other articles on the requisition are being ordered from the Government Stationery Office.

To the Indian Affaire Branch, Ottawa, Ont.

Re. Your letter No. 319-4 (E6)
Dated March 15th, 1951

Since we have seen persons fully familiar with requirement by the Department of Education, Quebec. On text books required for our Indians Roman Catholic schools, our reserves, we have prepared the attached requisitions which will bring about change to required standard.

1.- Requisition for Agency supply to refill or adjust stock at schools.

2.- Requisition for direct shipment Manowan Indian Reserve, here we have estimated for 1st, 2nd and 3rd grade. I doubt they will require 4th grade before 1952, September.

3.- Requisition for direct shipment Obedjiwan Indian Reserve. Here we have allowed only for 1st and 2nd grade, estimated for seasonal requirement only.

4.- Requisition for direct shipment Weymontachie Indian Reserve. Here we have allowed only for 1st and 2nd grade, estimated for seasonal requirement only.

As regard general supplies we have already placed for all schools. Mistassini and Waswanipi, both are considered as Protestant schools, last fall we received adequate supplies on text books, etc., complete standard, shipment was held at Agency and will be forwarded early this spring.

During annual visit, it is the intention to check all supplies at all schools and bring to-date and inline.

To the Secretary of Indian affairs
Ottawa

Dear Sir

I have the pleasure to announce to you that the abitibi school is going first class. I am just arriving from this post, where I have expended a month. I left here with the teacher, on the 23rd of May: we had a hard time to go up: snow, ice, and rain; the school has been opened the 5th of June. When I left, a week ago, over 50 indian children were attending at school. The Indians are pleased and speak about the school and the teacher who is succeeding very well. But I tell you she will not make very big wages, because the expenses have been very high.

Henceforward, the expenses I made myself according your agreement, for supplying the school I give myself the work. Keep it clear of my own expenses. Remember the lumber is very dear over there. I have done every thing the cheapest I way possible.

Dear Sir

I am arriving from a long journey among Indians
I find your blanks I fill them and send them
immediately. I heard yesterday that this school is
going well all the time
The band of Long Point, are living - have
need a school also, I hope your liberal
Department will grant it next summer

Very Respectfully
Yours

I came from Edmonton where a good deal
of whisky is given to Indians, but I think the agent
is looking about just now.
any way I can tell you that White Bear, Robinay
and John Ettitje have been seen drunk by Mrs Jamie
last three weeks, herself reported to me.

Yours truly

Chief Clerk

To the Superintendent of Indian affairs
Ottawa,

Honorable Sir,

It is pretty near decided that I will built a new church at abitibi, but not a the same place. It has been agreed with the Indians that we will build across the lake at the new company's land, Mattson frères.

I have furnished the school buildings at abitibi for the last three year, and at timagami for the last five or six years, without asking a cent to your departments; I am willing to make an agreement with your Departments and built an addition to my church of abitibi, for the summer School room of abitibi if possible. So Be kind enough to let me know if you will enter in correspondance about this subject.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 10th inst., advising the Department that you have under consideration the question of erecting a new church at Abitibbi but on another site across the lake and enquiring with reference to financial assistance from the Department to build an addition to the church to be used for school purposes.

In reply I beg to say that the Department is not aware of any reason for changing the site of the school and would like to know if the building now used for Church purposes would not be available for the school, when you have erected the new church.

Monsieur,

Je constate que notre petite église

que je me vois dans l'obligation dès
lebâtir une nouvelle. Les Indiens sont
disposés à m'aider à construire à la même
place où ils viennent encore pour bien
des années. Comme vous le savez, cette

Je demanderais donc la somme de

le local tant qu'il subsistera. Ce qui reviendra
bien moins cher que celui de construire

Sir,-

I observe that our little church at Abitibi is so much in request that I am under necessity of rebuilding a new one. The Indians are prepared to assist me in building at the same place, where they will still come for many years. As you are aware, this church is used for the summer school for the Indian children, who number this morning 55, and there are still 12 families to come. I am prepared to furnish again the new church and to set up seats and desks for the school; but I am in need of assistance from the Department for that purpose. I should, therefore, ask for the sum of $300 from the Department, and should make an agreement with it to furnish the school-room while it remains, which will be much less expensive than the one at Timagami that the Department has built and which is much smaller than the one required by the number of children at Abitibi. The church that I am going to build, 60 X 26, will cost me at least $1500. Please, therefore, reply to me immediately, because I shall have to do special work in view of the school.

Rev. Sir,

I have to acknowledge the receipt of your letter of the 4th instant in which you advise the Department that you are building a new Church for the Abitibi Indians and ask for a grant of $300.00 from the Department to furnish it for use as a school-room.

In reply I beg to say that the Department desires to know in the first place the exact location of the proposed new ~~school~~ Church building. I may say thatit would appear preferable to allow you a reasonable rental for the Church during the three ~~months~~ or four months that it is in occupation by the children during the summer, you to provide the necessary.equipment. This application should be forwarded through the office of the Indian Agent and you should ask him to make any recommendation in connection therewith that he may see fit.

Sir,—

I beg to enclose voucher in favor of Father Evain for $45.00 being for rent of the three churches, Abitibi, Long Point, and Wolf Lake, for school purposes, during the summer of 1921.

I did not know what arrangments he had made regarding the rent of these churches to the Department, but he wrote me a few days ago to the effect that he receives $15.00 per year for each of them, so I have made out vouchers for $45.00 in his favor.

Sir:-

On my arrival at the Abitibi Mission with Miss M. A. McDonald, as teacher, I noticed that several of the most necessary articles for the pupils were missing. I took the liberty of purchasing myself, inclosed herewith you will find the small account for two dollars and twenty-two ($2.22) cents.

Today I have already counted forty-four (44) pupils in the class. Miss McDonald is excellent and she is very well liked by the parents and pupils.

I hope everything will be alright.

Kindly send at once the following articles which are absolutely necessary for the Summer and which [redacted] impossible to purchase.here.

Reverend Sir,-

In reply to your letter of the 13th instant, I beg to say that a cheque for $2.22 in payment of the articles purchased by you will be forwarded under separate cover.

Owing to the probability of breakage, it is not considered advisable to ship the slates requested. We are, however, forwarding an extra supply of scribblers and lead pencils and it is hoped that these will prove satisfactory.

We are ordering from the Government Stationery Office forty-eight readers, two yards of slated blackboard cloth, a box of chalk and seventy-two lead pencils.

Dear Sir:-

Reverend Father I. Evain, O.M.I., has requested me to make a formal application to the Department for an increase in the rent paid for the use of his Church, at Abitibi, as a school-room. The present price paid per month is $5.00 and the Reverend Father, in view of the expenses made in connection with the construction of the building and appropriation of same and surroundings for school pusposes would like to be remunerated in a fitting way.

Could you kindly consider the advisability of granting that request for the next year and even, if possible, pay for the current year at the rent of $15.00 per month.

Reverend Sir:

Replying to your letter of the 25th instant, I beg to inform you that the Department will allow rental at the rate of $15 per month for the use of the church building at Abitibi during the period it is used for summer school purposes each year. Payment at this increased rate is made for the period the school was open during the past summer. I may say that the school was only open during the months of June and July, last, as the Indians left Abitibi at the end of July. A cheque for $20, being the balance due at the increased rate, will be forwarded to Rev. Father Evain, O.M.I.

We are informing the Rev. Father Evain of the increased rate allowed, viz., $15 per month, for each of the church buildings used for school purposes at Abitibi and Long Point.

GENERAL REMARKS

(Under this heading give your opinion on the condition of the school in regard to management, progress, &c., and any matters of interest regarding the school.)

Epidemic of Measles among the children of the Abitibi band is the reason of the small attendance, which I have already reported to the Department.

School will be closed from the 20th. till the end of the month to try and prevent the spread of the disease.

Sir:-

I beg to enclose the Reports of the S.Paul's Mission(Anglican) School, Albany for the Quarters ending:-June 30th 1929, Sept. 30th 1929, December 31st 1929 and March 31st 1930.

The delay in sending in the reports was caused by my having to be taken out to Sudbury by plane for an operation. In my absence my assistant here omitted to send in the reports at the end of each quarter. I have just returned to the Mission at Albany. Since June 24th 1929, at which date I was taken ill, and until my return the Day School has been carried on regularly by the Indian teacher, Rev. A.Wesley.

EXTRACT FROM RIGHT REV. JOHN G. ANDERSON, BISHOP OF MOOSONEE, COCHRANE, DATED APRIL 6, 1932.

- - - - - - - - - - - - - - - - -

Original on #6-44.

I wish to advise you that the Rev. Reginald A. Joselyn will take up his duties at St. Paul's Mission, Albany, James Bay, in succession to Rev. P. A. Northam, on or about May 1st, next. He will take up the duties of the day school as well as dispenser of medicine.

x x x

Mr. Joselyn has been here with me since November, studying the Cree language and is doing well. He is to be married in Toronto on the 23rd instant, and will return here with his bride on way to Pagwa.

(Original on No..44-1-1.)

Ottawa, May 4, 1932.

Right Rev. Sir:

With reference to that portion of Your Lordship's letter of the 6th ultimo, informing the Department that Rev. Reginald A. Josselyn will take up duties as teacher of St. Paul's Mission, Albany, James Bay, on or about the first instant, to succeed Rev. P. A. Northam, I have to say that the appointment of Mr. Josselyn is approved. The grant allowed towards salary of Mr. Josselyn will be at the same rate as was paid in the case of Mr. Northam, viz., $450 per teaching year, less 10 percent for the current fiscal year.

It is hoped that Mr. Josselyn will meet with every success in his work at Albany.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

A. F. MacKenzie,
Secretary.

Dear Sir,

I am enclosing the school quarterly reports for quarters ending December 1931 & March 1932. The reason for the delay was because Rev Northam left last September & I have only just arrived. The Rev Andrew Wesley has been teaching during this time.

I hope that everything in the report is correct and satisfactory.

Mr. Phillips

I have just received a letter from the Bishop in which he said that Ottawa had not received any school reports for 1934-1935. I cannot understand this as I have all copies on file here. One exception was one that I find I filed by mistake instead of forwarding it to you. However I am sending copies along for both years.

Sincerely yours.

Dear Sir:

The Royal Trust Company inform me that they have received no cheques from you in payment of the Salary of Rev. N.A. Coseleyn, teacher of the Albany School, for the March, June and December quarters of 1935. Mr. Coseleyn has advised me that he has sent in the returns for the quarters mentioned regularly to Mr. Piper, your Agent at Moose Factory, but only the cheque for March 1935 has been received by the Royal Trust Company. It also seems, from what would appear that Mr. Piper has been sufficient in forwarding the returns to you. Mr. Coseleyn tells me that he is sending duplicates to Mr. Piper. I trust that this matter will be adjusted soon as it causes me much inconvenience.

Dear Sir:

I am advised by your Montreal office that the diocese of Moosonee account has been transferred to your office.

This Branch makes payments of salary of the teacher of the Indian day schools at Albany, Moose Fort and Rupert's House. The cheques are drawn in favour of the individual teacher but will be sent to you. These cheques are issued quarterly and the stub attached to the cheque gives complete information regarding the payment. However, if at any time you desire further information, I will be pleased to hear from you.

Yours truly,

Dear Sirs, Re: DIOCESE OF MOOSONEE

It is the practice of the Department to remit through the Royal Trust Company, sums payable to the Diocese. I shall be glad to know if there would be any objection to these monies in future being remitted by the Department direct to the Diocese of Moosonee, in care of the Venerable Archdeacon J.E. Woodall, South Porcupine.

It would be convenient for the Diocese if these monies could be remitted direct and I should appreciate hearing from you in regard to this proposal.

Faithfully yours,
DIOCESE OF MOOSONEE.

It is noted that there has been some irregularity regarding the receipt of reports and payment of salaries to the missionary teachers at these points.

In order to establish their eligibility for a regular salary please have each of the following complete and return to this office one copy of the enclosed teachers' classification forms:

Rev. Cyril Elliott
Rev. Samuel Isserhoff
Rev. Redfern Loutitt
Rev. J.M. Donaldson

Each of these gentlemen should also state on the back of the form (a) the date on which he began his teaching duties at his present post.
(b) The months (by name and year) during which he has taught and the number of days in each month that the school was in session.

In addition to the above, separate letters concerning each school are requested from you stating:
(a) facilities for conducting school during winter and the number of children who can be accommodated therein.
(b) Your estimate of the number of children likely to attend regularly during the winter months.

It is desired that these schools should furnish the usual reports and returns through your office to this Division. Because, however, of the irregularity of winter mail service your opinion is requested as to the feasibility of having these teachers make an end-of-the-month report to you by radio, which report your office could put on the proper forms and forward.

Dear Sir.

I enclose an appeal for school books from our Missionary at Albany, which I have endorsed. While realizing that it is better to send such material to Sarnia Bay, at the same time I know that they are badly needed, and I have heard complaints from different teachers regarding the lack of proper seats and desks. Everything is made by hand, and the work is rough.

The Missionary at Rupert's House has also written to me, asking for a supply of desks. He named Service about the same number, as Mr. Griffin. If the Department are willing to grant these applications, the desks can be sent via Hudson's Bay, Montreal next July, addressed as follows: Rev. John J. Griffin, Albany, James Bay, and Rev. J. E. Woodall, Rupert's House, James Bay.

C.E. School at Albany.

The Church Missionary Society School at Albany is not what could be termed a substantial building, it is old and the foundation is considerably decayed. Its dimensions are 26 x 16 ft.6 in.x 14 ft. high, with gabled and shingled roof. Gable 8 ft. high and side ridge of rafters 11 feet, which gives 429 square feet of floor space and 6632 cubic feet of air space.

The equipment of this school in the matter of desks and seats is very inadequate. There is no ventilation, excepting that caused by the stove which heats the building. There is no drainage in connection with it. The water supply for this institution, as is also the case in regard to the hospital and school at the Roman Catholic Mission here, is procured from the Albany river, and is admitted to be quite healthy.

DEPARTMENT OF INDIAN AFFAIRS CANADA

Ottawa, January 31, 1912.

Mr. Pedley,-

The teachers in charge of the Church of England schools at Albany and Ruperts House, James Bay, have requested to be supplied with modern desks. It is most difficult for these people to make desks as they have no mill and all work has to be done by hand. Desks "knocked-down" may be sent in at a reasonable rate by Revillion Bros.' steamer and in view of the conditions it would appear advisable to supply these furnishings. An order should be placed with a firm in Montreal, who could hand the goods over for shipment to Revillion Bros. when their steamer leaves for Hudsons Bay in July, next.

Gentlemen,

The Department desires to send in by your steamer next summer, if possible, the usual supply of school material for the Indian schools on James Bay and also some thirty double school desks. The latter can be shipped in 'knocked-down' condition.

I have to ask you to be good enough to state whether you will have accommodation for these supplies and, if so, what freight rates you would charge.

O N T.

Dear Sir,

We beg to acknowledge receipt of your letter dated Feb.19-1912,Folio 121496/5.

We shall be glad to transport school material and desks (about thirty) to James Bay on our steamer next summer.

Our freight rates for Missions and schools are 50 ¢ the cubic foot.

All freight is measured by our agent on it's arrival in James Bay, before the consignee who pays charges on receipt of the goods.

We have made this our rule for the last year, as we experienced great difficulties in our freight measurements which several missions refused to accept at their Head office, after the goods had been transported and delivered in the Bay.

We do not hold ourselves responsible for any damage to cargo

Gentlemen,-

I have to thank you for your favour of the 21st instant in which you advise that you will transport the school material and desks for the Department to James Bay by steamer next summer.

With regard to the freight charges I may say that these will be paid by the Department, not the consignee, and payment will be made after shipment of the goods at the rate of 50 cents per cubic foot upon the receipt of accounts from you showing the space occupied.

Your obedient servant,

Assistant Deputy and Secretary.

Gentlemen,-

The Department desires to forward next summer by Revillon Bros.' steamer to an Indian school at Fort Albany fifteen double separate desks to be shipped in "knocked down" condition. I would ask you to be good enough to give a quotation for desks of the various sizes and of the kind above mentioned, viz.- double separate.

SNIDER SCHOOL DESK

With Roller-Bearing Seat Hinge

NOICELESS! AUTOMATIC! STRONG!

The latest, the best, the most durable, the most comfortable, the handsomest, the one easiest put together, and one that will last as long as the school house; never break or get out of order and always be clean, neat, firm, noiseless, healthful and automatic.

Made in six sizes of Single, Double, and Double Separate Desks. Rears and Fronts to correspond to each size.

The Snider School Desk

We fully warrant the Snider Desk and replace any broken parts at any time without charge and without asking questions as to how the breakage occurred.

THE INTERLOCKING METHOD

of fastening the wood to the Cast Standards has the merits of the dovetail fastening without any of its disadvantages. It is the most perfect fastening for combining wood and iron that has yet been discovered. Holds the wood firmly from one end to the other without the aid of bolts, keys or wedges. Desk cannot get loose or work out of form. Easy to set up.

WOOD—Selected Birch, Finish Natural; all thoroughly Air Seasoned and Kiln Dried.

Perfect curves for seat and back, planed and sanded into perfect form, finished in the best grade hard oil finish. Sycamore tops, stained dark, supplied when so ordered.

THE ROLLER-BEARING HINGE

is the most ingenious contrivance yet produced. The seat is so hinged that the least pressure of the body in rising will cause it to fold back, and in sitting down the least touch will cause it to fold down. Not necessary to step out in the aisle in rising or sitting down.

Solid Hub. Trunnion Joint. A part of the main casting.

LARGE BEARINGS.

No strain on the bolt whatever. It is not necessary in getting up or sitting down to touch the seat with the hands, as it works perfectly automatic.

NO RUBBER BUFFERS

to make it noiseless as is the case in most seats. It is absolutely noiseless without same, and will remain so.

CASTINGS—Best grade of Pig Iron used.

Designed to give the greatest strength by a uniform distribution of the iron, so there is no undue strain which causes so many castings to crack. THIS POINT SHOULD NOT BE OVERLOOKED.

The Castings are artistically designed. Best grade Baking Japan finish. Flush top, air tight ink-wells in all sizes of desks.

In Ordering School Desks

Specify plainly the number of each size desk wanted, and whether single or double. If double, state whether entire or individual seats are wanted. Give address of party to whom you wish the goods shipped, distinctly stating name of R. R. Station, County, number of S. S. and Post Office.

See that a majority of the members of the School Board sign the contract.

State a definite time when you wish the goods to be shipped and a definite time when you wish to pay for them. In short, see that everything relating to the contract is plain (not to be misconstrued) according to law and correct business principles. Accuracy promotes good will among get business men.

Compliance with above suggestions will make it possible for us to serve you without annoying you with otherwise necessary correspondence.

OUR AIM IS TO SATISFY OUR PATRONS.

All goods are securely packed and delivered on board the cars free of charge and particular attention is given to the securing of lowest possible freight rates.

All necessary screws, etc., for setting up and fastening to the floor, accompany each shipment.

STANDARD DIMENSIONS OF SEATS AND DESKS

No.	LENGTH			WIDTH OF TOP	HEIGHT TOP FROM FLOOR	HEIGHT SEAT FROM FLOOR	FLOOR SPACE	ACCOMMODATES AGES
	SINGLE	DOUBLE	DOUBLE REP.					
1	24 inches	40 inches	40 inches	18 inches	29 inches	17 inches	28 inches	16 to 21 years

6	20 inches	36 inches	36 inches	12 inches	21 inches	12 inches	21 inches	5 to 7 years

☞School Boards will find the above tables correct and valuable. They will be of assistance in determining just how many seats a house will hold, and the sizes required.

If necessary, desks can be put closer together by one or two inches without affecting the comfort of the pupil.

Our Roller-Bearing Seat Hinge.

Figure 4.

FIGURE 4 shows inner side of right-hand seat bracket, giving view of hub, also showing socket into which fits ball or trunnion shown in Figure 5, making a ball-and-socket joint, the only true principle for a school desk hinge. The problem of making the hinge noiseless has been overcome in a very ingenious manner.

In FIGURE 5, which represents a portion of main standard, will be noticed two rollers or cylinders. These are made of case-hardened steel and set into recesses in the side of standard. Now notice that the opening for bolt in Figure 4 is placed above the centre. The result is that the hub operates as an eccentric, that is, does not describe a true circle and when the arm is at either of the two extreme positions (seat folded or open) this hub engages with the rollers or cylinders referred to, arresting the motion of the seat and bringing it to a gradual stop. Figure 5 also shows brass bushing over trunnion partially cut away for purpose of illustration. The purpose of this is to eliminate the friction between the two iron surfaces. The whole construction of the hinge is such as to cause it to work smoothly and noiselessly.

Figure 5.

Figure 6.

FIGURE 6 shows complete hinge with cap, bolt and nut in place, as in use, with seat folded, the dotted lines showing inner parts.

As you will recollect some desks were furnished by your firm for the Albany Mission Church of England Boarding School last year and sent by Revillon Bros.' steamer.

One of the castings on a No. 3 desk was broken. I am sending herewith a description of the broken piece as furnished by the Principal of the school and I should be obliged if you would see that this casting is obtained and sent forward by Revillon Bros.' steamer next year.

I may say that there was last year a great deal of confusion owing to the desks not being addressed as directed by the Department. I would ask you to see that the address is carefully given in this case so that there may be no trouble.

BISHOP:
RIGHT REV. JOHN G. ANDERSON

Cochrane
CHAPLEAU, ONT
Jany. 21st 1914

Dear Sir.

I enclose herewith receipts from Messrs. Revillon Bros., Montreal, and invoices of freight charges from our Missionary at Albany, showing the payments made on books and books forwarded by the Department for use in the Albany School.

I will be pleased to receive in due course a refund on these freight charges, according to agreement.

Mr. Griffin mentions that the sum of $8.25 was paid for freight on a plough and harrow, which he thinks was sent by the Department in the autumn of 1911. If so, kindly let me know and I will obtain the necessary receipt from Messrs. Revillon Bros. I have some recollection of a plough & harrow being forwarded in connection with Miss Parker who attended the Guelph Agricultural College some years ago & Moose. Factory to Miss Sinclair. Yours. Right Reverend Sir:-

In reply to your Lordship's letter of the 21st instant, I beg to say that cheque No 2998 for $40.86 is being sent you in refund of freight charges on desks and school books shipped to the Missionary at Albany.

Seemingly the Department did not supply ~~the~~ plough and harrow in 1911 for use in connection with the mission and consequently a refund of $8.25, freight charges on the implements, cannot, I regret, be made.

I have the honour to be, Right Reverend Sir,

Your Lordship's obedient servant,

Dear Sir

Since my connection with the above Mission, I have experienced in my School work here, that the School building is far too small for the number of Children attending.

The Building was erected about 20 years ago, and at that time, and up to about 4 years ago was large enough for the number of Children attending.

The size of the School House is 27ft by 17 feet. The Department will see at once that a building of that size is not sufficiently large enough for an average attendance of 30 Children which I had last year. During the

greater part of last Summer, I had of necessity to have two Schools, which of course taxed me, and even then, I could not retain the Children long in School, as it was detrimental to their health in such a close room.

I enclose particulars which I think will be useful to the Dept in giving their kind attention to my appeal for a larger School.

I shall be very pleased to give the Dept any further particulars which they may require

Ottawa, March 20, 1914.

Sir,-

I have to acknowledge the receipt of your letter of the 11th ultimo stating that the Albany Mission School building is not large enough to accommodate the present attendance, which has more than doubled in the last four years, and asking for a larger school.

In reply I beg to say that the Department will be glad to have further particulars in regard to this application, which should contain full information as to what is required. It would be next to impossible to send in building material and it is considered that a substantial log structure could be put up which would meet all the requirements until better facilities for transport are available.

Ottawa, 2nd February, 1918.

Sir:-

In reply to your letter of the 28th January, I beg to say that cheque No. 1892 for $6.00 which was sent you on the 17th October was issued in payment of your account dated the 2nd June for a clock sent to the Rev. Thos. Griffin at Fort Albany, James Bay. Seemingly this account was not previously paid. Mr. Griffin forwarded it to the Department certified to the effect that the clock had reached him in good condition. If the account was paid previous to the issue of cheque No. 1892, it is desired that you will kindly make a refund to the Department of the amount in question, viz., $6.00.

Dear Sirs: Re No. 121496-5.

With further reference to your letter of the 2nd instant regarding the $6.00 still at credit in your account, paid under your cheque number 1892, we would ask you, before we make out a refund for this account, to forward us a copy of the receipt which you received for this payment.

According to our books we cannot trace a shipment of one clock to the Reverend Thomas Griffin of Fort Albany, James Bay. Would it not be under the name of some school?

Any information you can give us will be much appreciated.

Yours truly,

In compliance with the request in your letter of the 27th ultimo; I beg to transmit herewith an account of the 2nd June upon which the Department made payment of $6.00 for a clock sent to the Rev. Thos. Griffin at Fort Albany and received by him in August 1917. After you have examined the account, kindly return it to the Department. I may add that it was presumed that the clock was forwarded to Mr. Griffin through Messrs. Revillon Freres or the Hudson's Bay Company.

As intimated in letter to you of the 2nd instant, if the account was paid previous to the issue of cheque No. 1892, the Department will be glad to receive a refund of $6.00 from you.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 17th ultimo enclosing duplicate account for prizes to the amount of $5.00 given to the pupils of the Albany Mission (C.E.) school.

In reply I beg to say that the Department approves of your action in spending $5.00 for prizes in 1916 and the other $5.00 in 1917. You may also expend a sum not exceeding $5.00 in the purchase of prizes this year for the pupils of your school. You should forward accounts, in duplicate, properly certified for the amounts expended in 1917 and 1918 for this purpose.

A cheque for $5.00 in payment of the account you forwarded has been sent to the Royal Trust Co., Montreal, as requested.

Reverend Sir,-

Referring to your letter of the 16th June, which you forwarded an account amounting to $6.90 for prizes awarded pupils in attendance at St Paul's Mission Day School at Albany Fort. I beg to say that a cheque No. 1022 for the said amount has been issued, and the cheque, which has been drawn in your favour, has been sent to the Royal Trust Company Montreal, as requested.

With reference to your letter of the 20th February, I may say that a cheque No. 3816 for $5.00 was drawn in favour of the Royal Trust Co. in March last, and sent on the 7th of that month to the Royal Trust Co., Montreal. The cheque was issued in payment for prizes distributed at Christmas 1918 to the pupils at St. Paul's Mission School above mentioned.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 21st instant with reference to the erection of a new school building at St. Paul's Mission, Fort Albany.

In reply I beg to say that this matter has received the consideration of the Department, and it is of the opinion that the present building will serve the purpose for the Anglican Indian children at Albany. The Department understands that the present building is in good repair and fully equipped and, owing to the many calls, no funds can be provided at the present time to erect a new and larger building.

Dear Sir

I have to acknowledge the receipt of your letter of September 25th & in reply, I wish to say that the Department is labouring under a heavy delusion in saying that it is their opinion that the present building will serve the purpose for the Anglican Indian Children at Albany.

Please study the enclosed list showing the average attendance for the past 10 years since I took charge, & please note that the size of the School is 25½ feet by 16 ft, does the Dept think that the Cubic measurement is correct for each child? For the past years I have had of necessity to hold two Schools one in the Morning & another in the Afternoon so that we may have room to move about I drew attention to this state of affairs & at the beginning of the

late War the Department took up the matter with me & asked for particulars of our requirements, this was sent & is now in the Dept, His Lordship Bishop Anderson took up the matter also with the Dept & If. I do not mistake, the Dept promised to do something after the war was over. I have been faithful to the Dept as a School Teacher since 1906 & ask for a more encouraging letter from the Dept. I wish also to state regarding the present state of Our School that it requires a new roof Door & new Foundation, the building is only a Frame structure & is not suitable now for the number of Children attending I think the Dept will agree with me that the School according to its size is not large enough for the number of Children attending Trusting that your Dept will give this matter their earnest consideration

Ottawa, October 14, 1920.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 11th instant in further reference to your request for the erection of a new school building at St. Paul's Mission, Fort Albany, and furnishing a statement showing the school attendance for the past five years.

In reply I beg to say that, as the present building is built on mission property and is, therefore, the property of the church authorities, this Department could not undertake to have any repairs made to the roof and foundation.

With reference to the erection of a largerbuilding I beg to say that, if a new school were erected, it would require to be built near[illegible] where the Indians reside and, as the reserve is some distance from the present school and the Indians do not live there, the Department cannot undertake the erection of a building on property which it does not own. If the church authorities will arrange for the erection of a new building large enough to accommodate the Indian children who will attend, the Department will then consider the question of providing an increase in the grant now allowed for salary.

Ottawa, February 12th, 1925.

Right Rev. Sir:

I have to acknowledge receipt of Your Lordship's letter of the 7th instant, acknowledging receipt of cheques covering the grants for salaries at the Indian day schools in the Diocese of Moosonee.

Regarding the payment of rent for the use of the buildings for school purposes and for fuel and caretaking at Rupert's House, Fort Hope, Albany Mission and Fort George, I beg to say that we will allow payment for the above purposes to each of these schools as follows: -

[redacted]

Allowance for janitor services for year ending March 31/25	-	$ 30
" " fuel for year ending March 31/25	-	70
Rent of building for year ending March 31/25	-	55
		$ 155.

These payments are in accordance with the grants promised for the above services as stated in official letter of April 24th, 1923.

[redacted]

One year's rent of building to December 31/24	-	$ 55
Allowance for fuel to December 31/24	-	25
" " janitor services	-	25
		$ 105.

The same rate is allowed for each of the services mentioned at both the above named schools.

FORT GEORGE.

It will only be possible to allow payment for rent, fuel and janitor services at this school for two years from January 1, 1923, to December 31, 1924. The grant for these services is allowed at the same rate as is paid at Fort Hope and Albany Mission Schools. The Auditor General would take exception to payments dating back to a period exceeding two years. The amount of $210 is, therefore, being allowed for rent, fuel and janitor services at the Fort George School for two years to December 31st, 1924.

Cheques for the above amounts will be sent you in due course. I shall be pleased if, in future, Your Lordship will make requests for these grants for each of the schools mentioned not later than the beginning of March in each year.

The following requests were made:

(5) The day school at Albany is now inadequate for the number of pupils attending. Mr. Northam has undertaken to build a new school 20' x 40'. The Indians have promised to raise $500.00 towards the construction of same. Mr. Northam asked me to recommend a grant of $1,000.00 from the Department, which I have no hesitation in doing as the work done merits this assistance. The Church will finance the balance which I am sure will be considerably more than that granted by the Department.

Right Reverend Sir:

I have to inform Your Lordship that Mr. Awrey, of this Department, who visited Albany a few weeks ago, has reported that the Rev. Mr. Northam is arranging for a new classroom. It appears that the Indians have promised to contribute $500.00, and it has been suggested that the Department give a small grant for building purposes. I regret that there are no funds available this fiscal year for this activity; but I will endeavour to arrange for an appropriation which will assist the church to finance the scheme. If Your Lordship will arrange to present receipted accounts for lumber and finishing material, favourable consideration will be given to reimbursing you to some extent in April or May, next year.

Education.

At Fort Hope and other points I was unable to see the day schools in session. At Albany, Mr. Northam is busy erecting a new day school, which is located about one hundred yards from the bank of the Moose River.

The building has advanced to the stage of the erection of the roof rafters. The building is forty feet long and twenty feet wide, with a height of thirteen feet to the eaves. The foundation is built of logs squared ten inches and covered with aheavy coating of Stockholm Tar. The studding is 2" x 6" scantling placed two feet apart. The sheeting is B.C. Fir. The wall plates and corner posts are of lumber 6" by 6". The doors, windows, and sidings as well as the roofing material - 13 cases of Eastlake Galvanized shingles - are on the ground. So far, the building, labour and material has cost about two thousand dollars. Mr. Northam requested that an advance of $500.00 be sent to Bishop Anderson, and I certainly have no hesitation in recommending this payment.

Right Reverend Sir:-

Referring to Your Lordship's letter of the 15th September and previous correspondence regarding the new Day School at Albany, I beg to say that when Mr. H. M. Awrey, of this Department, returned from the Treaty 9 trip he made a strong recommendation to the effect that an advance of five hundred ($500.00) dollars be made towards building operations. Up to the present the Department has not found it possible to have the matter given attention, but it is proposed to make the advance within a short time.

I may say that Mr. Awrey has stated that he wrote the Reverend F. A. Northam in regard to this matter. It would seem that the letter did not reach its destination.

Report dated June 26, 1926.

The present school building has become too small for our needs. The foundation of a new school has been built, 20 ft. by 40 ft., and during the summer a school house will be erected on this foundation. The Indians of this Mission have promised to contribute at least $500.00 towards the building, which in itself is an indication of the interest of the Indians in the education of their children. The new school house, when complete, will cost between $2500.00 and $3000.00, and all the necessary material for it has been ordered.

15th Decr. 1926

To
The Secetary,
The Dept. of Indian Affairs, Ottawa, Ont.

Sir:-

Your Department very kindly consented to make a Grant of money towards the cost of a new school house at this Mission for the use of the Indians of the Albany Band. I beg therefore to enclose the financial statement of monies expended to date on the erection of the new school building.

The schoolhouse is forty feet in length, and twenty feet wide. These measurements do not include the porch which is eight feet by six feet. The whole is built on a solid foundation of heavy logs, squared to a thickness of ten inches, and standing two feet six inches above the ground. The foundation logs and floor sleepers are covered with a heavy coating of Stockholm Tar This particular style of foundation is at present the only possible kind at Fort Albany owing to the nature of the land which is wet and marshy. The buildings here are subject to continual heaving caused by the severity of the frost in the winter, and a very gradual thawing out in the warmer months of the year. Cement is much too costly for it would have to be freighted in by the river transport, which freight is very expensive. The wall of the school, from the top of the foundation to the eaves, are eleven feet. The frame of the building is of 2 in. by 6 in. scantling spaced two feet apart. The walls outside are sheeted with inch lumber, B.C. Fir, and the joints betwwen the boards are caulked. This is covered with a ply of heavy tar paper, over which is a ply of good quality spruce Cove Siding, tongue and groove. The roof is half pitch, the rafters and sheeting being of B.C. Fir, which is covered with Eastlake Galvanized Shingles. There is a fire proof chimney. The flooring is of I I/2 inch spruce lumber, tongue and groove. The inside walls are covered with a good quality spruce V joint lumber, as is also the ceiling. The schoolroom is nine feet in height from floor to ceiling. The windows are on the south side and are three triple windows, each separate window having 3 upper and 3 lower sash, or nine upper and nine lower sash in all, with a total of I89 glass lights. The ventilation is good as all the lower sash can be raised and all the upper sash lowered. There is a small teachers room for school supplies, also containing a window. The porch is lighted by a window. The schoolroom is furnished with a large Carron stove and has accomodation for sixty pupils.

In addition there is an upper half story above the main room, lighted by four windows. This portion is not finished but when extra accomodation is needed it will be possible to make out of it a room forty feet in length, and about I4 feet wide, with walls four feet at the sides and rising to a height of eight feet in the centre.

The outside of the building has been painted with two coats of white paint, and the usual trimmings black. The galvanized shingles are painted a ferric red. The inside ceiling is painted with two coats of white paint, and the inside walls will be painted with two coats of paint as soon as the weather becomes a little milder.

A drain has been dug on two sides of the school lot over which culverts have been placed. Two outside lavatories are in the course of construction.

I would particularly draw your attention to the fact that over Six hundred dollars of the total cost of the building to date has been paid in river freight alone to the two Trading

Companies for the necessary building materials which had to be brought in by the river route from Pagwa River Stn. to Albany, a distance of 300 miles.The extra river freight has added to the cost of the building to that extent.

The amount which we ventured to ask your Department for in the first place was a Thousand Dollars.The Paying Officer of Treaty No.9 told me that not all that amount was granted.As this school has been built and will be maintained soley for the use of the Indians of the Albany Band I venture to trust that your Department will deals as generously as possible in the assistanc you give us financially.

May I ask that when the Grant is paid the cheque may be made out and sent toThe Rt.Rev.J.G.Anderson,D.D.,Bishopthorpe, Cochrane,Ont.His Lordship very kindly advanced the necessary monies expended in the building.

Dear Sir. Referring to yours of Sept. 18th 1926, I wish to say that the new school building, as per can see from the report of our missionary at Albany, the Rev. P. A. Northam, is almost completed with the exception of decks and inside and interior painting. The main work is all on the ground and will be completed in the early spring.

I enclose a letter with statement of account attached to date. I am sorry that Rev. Northam has omitted his signature to the report, though he puts it at the end of his letter. He may have thought this sufficient. I have certified the statement and I trust that you will be satisfied with the report as it is together with the receipted statements I have already sent you. We need the money badly and I hope that you will send me your cheque in due course and for the full amount as first promised by Rev. Canon Gray.

Dear Mr. Scott

I have to thank you for your kind letter of the 3rd inst. advising me that a cheque of $800.00 was being directed to me as the Department's grant towards the cost of the new Albany Indian Day School.

I do not wish to appear ungrateful for I appreciate very much the assistance given. At the same time I had understood from our missionary, Rev. P. A. Kirkham, as an understanding a promise therein, on the part of Mr. Avery, when the idea of building the new school was first discussed, that the grant would be at least $1000. I wish also to call your attention to the fact that the seats and desks, the painting of the interior walls are too yet to be done, so that the total cost will likely be $2000. if not more, before the building is Completed.

With kind wishes

Dear Bishop Anderson:

I have your letter of the 8th instant, acknowledging the Department's grant towards the cost of the new Albany Indian Day School. Mr. Awrey, of this Department, informed the Rev. Mr. Northam that he would urge the Department to give favourable consideration to a grant of $1,000. Our funds for Indian Education are so limited at the present time that, after careful consideration, it was found that $800 was all that could be provided for this purpose.

In my report to the Department I referred to the new day-school that had been constructed by the Anglican Church at Abbey. This building is now completed. The building is on a heavy foundation. It is forty feet long and twenty feet wide. The height from the ground to the eaves is thirteen feet and from the ground to the middle of the roof is eighteen feet.

The outside of the building [illegible] with shingles. The roof is covered with [illegible] shingles. In my estimation, the building is a credit to the Indians. It is capable of accommodation for about sixty pupils. The building has cost in the neighbourhood of [illegible]. The Indians themselves raised [illegible] to help to pay for the cost. Last year I asked that a grant of $1000.00 be given. You kindly allowed $800.00. I really think that the allowance is entirely too small and I may not actually [illegible] but I shall be inclined to $1200.00 and I feel sure that my request will [illegible] favourably considered. [illegible]. I have pleasure in enclosing a picture of the school.

Memorandum:

D.I.S. 60703

You will remember that the Department made a grant of $800 to His Lordship the Bishop of Moosonee towards the cost of erecting a new classroom for the Albany Indian Day School. At that time, the Bishop forwarded a certified statement, showing that the cost had already amounted to $2682.63.

Mr. Awrey reports that a much better building than was originally intended has been erected and that the cost has amounted to approximately $3500. The Indians, themselves, raised $500 for the purpose, but the Church has had to meet the balance. His Lordship has again urged that we consider increasing our grant, and Mr. Awrey recommends that a further $400 be allowed. In view of the circumstances, I wish to recommend that a supplementary grant be made.

Dear Bishop Anderson:

With further reference to your letter of March 8th, last, concerning a grant towards the cost of the new Albany Indian Day School, I wish to inform Your Lordship that Mr. Awrey, of this Department, reports very favourably regarding the building that has been erected. It has been decided to increase the Department's grant to a total of $1200, and, under separate cover, there will be directed to you a cheque for $400. Of course, the Department cannot allow, in future, any rental payments at this school.

Dear Sir:

Thanks very much for yours of the 1st inst: regarding the increased grant towards the cost of the new Albany Indian Day School. I appreciate very much the cheque of $400 which has been duly received. At the same time I cannot agree with your last statement "that in future no rental payments will be allowed at this school" If the Department had paid the full cost of the school that would be just and fair. I sent you a statement in Feby. last; certified by our missionary, Rev. P. A. Hostland, showing that as at that time about $2900 had been expended on the school, and a number of coats and the painting of the interior had still to be done, which would raise the cost to fully $3000. So that it appears to me that at least half the rental formerly paid should be allowed for the upkeep of the building. If the Department pay the full cost of school buildings in certain localities and pay Salaries ranging about $800 & $900, why should we be treated differently in Ontario especially in places like Albany 80 far removed from railways. I trust that you will re-consider your decision and allow us some consideration for rental &c.

Yours sincerely

Dear Bishop Anderson:

I have Your Lordship's letter of the 22nd instant, and, in view of your representations, the Department will allow a larger grant for the general upkeep of the Albany Mission Indian Day School. I regret that nothing can be allowed as rent, in view of our assisting with the capit l expenditure. In the past we have allowed $25 per year for fuel and $25 for janitor services. In the future I shall see that a total grant of $75 per year is made - $50 for janitor services and $25 for fuel.

Rev. Sir:

I have your letter of the 1st ultimo, enclosing an account for the rental, janitor's work, fuel and prizes for the Albany Indian Day School for the years ending December, 1926, and December, 1927.

In reply I beg to say that the Department does not now pay any rental for the use of the building in view of our having assisted with the capital expenditure in the erection of same. We have agreed with His Lordship the Bishop of Moosonee to allow $25 per year for fuel and $50 for janitor's services. These amounts have already been paid for each of the above mentioned years.

Relative to the amount expended for prizes for each of the above years, it will be necessary for you to forward itemized accounts, in duplicate, covering the cost, which should be certified by you, when consideration will then be given to making reimbursement for the expenditure incurred.

Right Rev. Sir:

I have Your Lordship's letter of the 11th instant, requesting payment of the annual allowance for rent, janitor services and fuel for the Albany, Rupert's House, Fort George and Fort Hope Indian Day Schools.

In this connection I have to inform you that a cheque for $75, being the allowance for the Albany Mission School, was directed to you on the 9th instant. Cheques for the amounts due for the other three schools will go forward in due course.

No returns showing attendance, days' taught, etc., have been received from the Albany Mission School for the June and December quarters. The grant for salary is, however, being paid, and a cheque is being forwarded to the Royal Trust Company, Montreal. I shall be pleased if Your Lordship will direct that returns for the two above mentioned quarters be forwarded at an early date for record in our Department. All grants for salaries due this school have been paid to December 31st, last.

Dear Sir:- Re: Paint, etc. for Moose Factory C. of E. School.

In connection with the authorization given in your letter of the 27th. ulto. #44-1-5, to purchase paint for our Society's Indian Residential School at Moose Factory, I beg to enclose herewith a bill, in duplicate, from the Hudson's Bay Co. with receipted bill for freight charges attached thereto, the total amount being $163.34, and I shall be obliged if you will furnish this Company with your cheque in settlement of the same.

There will be a further charge in connection with the shipment of the paint from Pagwa River by scow to Fort Albany, and then from Fort Albany by steamer to Moose Factory, and in keeping with the instruction contained in your letter, I am asking the Hudson's Bay Co. to submit to you direct a bill for these charges.

Believe me, Sir,

Yours very truly,

T. B. R. Westgate

The Secretary
Department of Indian Affairs
Ottawa, Canada.

Dear Sir:—

I shall be glad to receive the usual allowances for rent, fuel and caretaking for the following day schools, viz:— for 1929

	Fort George for the whole year	$105.00
	Albany " "	75.00
*	Fort Hope " "	105.00
	Osnaburgh House for 6 months	55.00

* You informed me that you had not received the returns from this school. This was due to the serious illness of the Rev. P. A. Northam for most of the year. I can certify however that his assistant, Rev. Andrew Wesley, has carried on the school continuously, as he has advised me. He had not been accustomed to making out the returns and I suppose did not think of the duty. I know that the bills have come in for expenses.

Yours Sincerely
John G. Moosonee

Ottawa, March 26, 1930.

Right Rev. Sir:

I have Your Lordship's letter of the 20th instant, requesting payment of the annual allowance for rent, janitor services and fuel for the Albany, Rupert's House, Fort George and Fort Hope Indian Day Schools.

In this connection I have to say that payment is being made for the above services at each of these schools as follows:

Albany Mission	$ 75.00.
Rupert's House	54.00 (for 6 months).
Fort George	105.00.
Fort Hope	80.00.

Cheques for the amounts as stated above will go forward at an early date.

The Department is not allowing the usual grant of $25 for fuel at the Fort Hope School, as accounts to the amount of $60 for wood delivered to this school by the Hudson's Bay Company were received and paid during the year.

No payments toward the grant for salary of teacher at the Fort Albany Indian Day School have been made for the year ended December 31, 1929, as no returns showing the attendance, days' taught, etc., were received. I note you state that this school was in operation, but, owing to the requirements of the Auditor General, the Department is unable to make payment of salary until the quarterly returns have been received. I shall, therefore, be pleased if you will instruct the teacher to prepare returns for each of the quarters during the year 1929 and have them forwarded to the Department.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

A. F. MacKenzie,

Dear Sir,

I have examined all the children at the Ang.Res.School here and find all but two in healthy condition.

Emma Cheechoo has T.B. of the middle ear on both sides but seems to be improving as there is no discharge at present but some oder.If you think she should not be kept in the school will you notify me. Danial Sack has some fribrousés in the apex of both lungs but there is nothing active,he is not gaining in weight.

Two of the children I sent to the hospital in Cochrane a month ago,I beleive they both have T.B. I have heard indirectly that they are both still running temperatures.I will see them when I pass through Cochrane on June 7th.

The sanitation of the school is much improved but the condition of the whole building is very bad,of couse this is a very old building and unless this school is replaced in a very few years it will have to be closed,the foundations have all gone and the building is begining to slant at a noticable angle.

It is evident that those who attend school regularly make progress in their studies, as a rule. The teacher does his part, but no person can teach children with success who do not attend school every day. Mr. Joblin has tried with the help of the Indian Officer, to get a good attendance at School and has succeeded fairly well. RECEIVED

The Secretary,
Dept. of Indian Affairs,
Ottawa.

Dear Sir,

I am under obligation to make a payment of money in Toronto on April 1st, and if it would not be asking too much, I would be deeply grateful if my salary for the past quarter (just ending) could be forwarded to me at the earliest possible date.

The Dept for some time past has been good enough to send a bonus cheque in addition to the regular salary. This cheque is usually sent later than the salary cheque, and as it comes to the Agent, some delay is occasioned. This usually doesn't make any difference; but just now, as I will need all the money I can muster by April 1st, I would be glad if it could be sent direct to me, when the salary cheque is sent.

The school report for the quarter is made out and will be sent to you by current mail.

Thanking you in anticipation of this favour.

I remain,

Yours sincerely,

Frank J. Joblin.

I have to acknowledge receipt of your letter of the 25th instant, with reference to the application of Miss Dorcas Atkinson, of Roseneath, for the position as teacher of the Alnwick Indian Day School at Alderville.

In reply I beg to say, in view of your recommendation, the Department will approve of the appointment of Miss Atkinson, to begin duties when the school reopens after the present summer holidays, on September 3rd, next. The salary allowed her will be at the rate of $95 per teaching month. Please inform Miss Atkinson of her appointment, and ascertain from her whether she will accept the position or not and be prepared to commence duties on the date mentioned, and you should inform the Department accordingly.

Sir:

With reference to the salary of Miss D. Atkinson, teacher of the Alnwick Indian Day School, it is regretted that through oversight her cheque for $95 was forwarded to the Treasurer of the United Church of Canada, Toronto. This was done owing to the fact that Rev. Mr. Wilding's salary had been sent in this manner. I am arranging to have Miss Atkinson's money forwarded to her at once, and in future her salary cheques will be forwarded to her direct.

On the 21st instant, cheque No. 4304 for $95 covering the September salary of Miss D. Atkinson, teacher of the Alnwick Indian Day School, was issued in favour of the Treasurer of the United Church of Canada and sent to you. In issuing the cheque, the Department overlooked the fact that Miss Atkinson's salary should be paid direct. I would appreciate if you would immediately issue a cheque for $95 in favour of Miss Atkinson and forward it to Mr. F. J. Slade, Indian Agent, Fenella, Ont.

Dear Sirs:

Department cheque for $95.00 - No. 4304 - in payment of September salary at the Alnwick School at Alderville came to hand a few days ago. It is returned herewith, as the status of this school has recently changed; the teacher, who also carried on mission work among the Indians at that point, having been moved to Moraviantown during the past summer to conduct a similar work there, for which the Department is paying $35.00 per teaching month. For the present, at least, the minister residing at Roseneath will look after the mission work, and I understand the teacher of the Indian Day School at Alnwick will be paid direct by the Department.

Ottawa, July 30th, 1931.

Reverend Sir,-

With reference to your letter of the 29th instant, regarding salary payments to Miss Doreas Atkinson, teacher of the Alnwick Indian Day School, I beg to say that the following cheques have been forwarded to her since the first of the current year:-

April 21st, 1931 - Cheque #151, for $300., in payment of her March quarter salary.

July 7th, 1931 - Cheque #1543, for $300., in payment of her June quarter salary.

Both of the above cheques were addressed to Miss Doreas Atkinson, R. R. #3, Cobourg, Ont.

On phoning the Finance Department this morning, I find that cheque #151 was cashed at the Bank of Toronto, Cobourg, on May 4th, last, and, presumably, it was endorsed by Miss Atkinson.

Cheque #1543, in payment of her June quarter salary, has not yet been cashed as far as the Finance Department is aware.

I should appreciate if you would communicate with her and advise me later.

Regarding your request to be allowed to nominate a teacher for the Alnwick School, I have to say that you will be written under separate cover.

Your obedient servant,

Russell T. Ferrier

Madam,-

With reference to your letter of the 27th instant regarding your salary cheque for the quarter ended June 30th, last, I beg to say that, up to the present time, the Department has not received your June quarter return, consequently cheque was not issued.

In view of your letter, I am arranging to have cheque forwarded in due course and you should, when you return to the school, prepare and forward the June quarter return.

Your obedient servant,

J. D. Sutherland.

Dear Sir:

In reply to your letter of Sept. 1, I beg to inform you that the June Quarterly Return is being forwarded to-day to the agent for approval and signature. I also wish to thank you for the cheque received a few days ago.

I had mislaid the forms for the quarterly reports and thought that I could not have had any left over from the preceding quarter. To avoid delay, I forwarded a quarterly report giving much the same information as is given on the regular form with a complete report of the June examinations which I mailed to the agent on July 2.

I regret the above error was not satisfactory, but trust I have given the information correctly on the regular forms.

Yours respectfully,
Dorcas Atkinson.

Sir:

The Department is in receipt of the December quarter return of the Alnwick Indian Day School. On this return, as on several previous returns, the teacher neglected to show the grade of each pupil. This information should be entered on the return under the heading "Class of Study". Page 1 should be totalled and carried forward to Page 2, and the total of both pages placed at the bottom of the second page.

Please have the teacher complete the return properly and return same to the Department. You should point out to her that this information must be given on all future returns.

ACCOUNTANTS APR 2 1896

Sir,-

In reply to your letter of the 25th instant, re cost pump in the well at the Indian School at Alderville I have to say that when I wrote you on the 3rd day of October last I stated that I thought that water would be reached at forty feet, but I was mistaken and the well was dug over fifty seven feet deep; and of course I meant that the pump would cost about $16.00 if the well was only 40 feet deep. I could have got a wood pump for less money than the one I bought, but at a general meeting of the male members of the Band held on the 28th ultimo I asked the Indians what kind of a pump they wanted, when a vote was taken and nearly every member voted that the superior pump be purchased; and there was a large number present. I therefore got the pump they wanted, and I am sure that they made a good choice. It only cost a trifle more than a wood pump would have done. and I think that it is worth nearly twice as much. I told you when I wrote you that the well would cost $1.80 per foot for the first 20 feet $1.60 per foot for the second 20 feet etc. but owing to the late season and the strong competition we got it dug for $71.00 at my estimate the well would have cost $87.00 so that on the whole the well and pump cost much less than the estimate.

Sir,-

I enclose herewith a bill for repairing the pump at the Indian School at Alderville, it was entirely useless and the head was taken out of the well and as the school children had to go to other places for water and as there was no time to loose at the request I got Mr. D. O. Bull to repair it and he has made a complete job of it, he had to get 6 1/2 feet new iron piping a certain amount of work done by the blacksmith and two men to assist him and you will see that the cost is $6.40 which I have settled and enclose Mr. Bull's receipt. You will please send me a cheque for the said amount. I know that permission should have been asked for the expenditure of this money but the pump had to be repaired at once and I trust that the Department will over look the matter of not asking permission in this case.

Re seats for the Alnwick Indian School I have to say that I wrote to Inspector Odell about the same and enclose his lett-er herewith. You will see that he prefers individual seats and I think that they are very much better than double seats We will want say 24 seats (single) which I think will be ample at all times for this school but in case there should be a rush at any time one or two of the old sets might be used for a short time by not putting too many seats in the school room there would be more room on the floor. Mr. Odell thinks that the manufacturs could tell what sizes I mean heights the seats should be, say that the children would average from 7 to 16 years of age. Mr Odell says that the School Furniture Co. at Preston Ont. make good seats etc.

Act 15720-1

DXIH

300282

JUL 12 1906

Moved byMoses M. Marsden and seconded by Peter crowe that William Lukes be paid the sum of three dollars ($3.00) moving gate from east side of school and churah yard to the west side, planting three posts furnishing the same building fence where gate had been removed and buying a new lock for the fromt door of the school house and putting the same on the door. That Mr. F. G. Joblin be paid the sum of two dollars and sixty cents for paint used in the Mission house during the spring of the present year.

The above resolution was passed yesterday at a general meeting of the Ainwick Indians and that there were 19 members present.

A. Shoemaker

Roseneath, 10th July, 1906.

Sir,-

I have to say that it was very necessary that the gate above mentioned should be moved, that Mr. Lukes made a good job of the work and that the painting in the Mission House was necessary and I trust that the same may be paid for. I presume that the paint should be paid to George Ingham who furnished it.

Sir,-

I enclose herewith on proper forms the account of T. J. Parsons for painting Mississagua Hall at Alderville; also the account of William Lukes assisting in various things, his son John and James Lukes as well as the bill of Mr. C. Brown of Roseneath for paints and other things supplied. The whole cost is $119.95 I have previously told you that the building was in a very bad state and had not been painted since built in the year 1851 except the school room was painted once several years ago. The men worked faithfully, I visited the building several times. You have no conception the state the building was in and the work it took in the whole to do the work. The painter could not possibly do the work alone building scaffolds and erecting ladders out side.

Sir,-

I enclose herewith account for repairing the chimneys on the School house and Church at Alderville. In your letter of the 26th day of August you instructed me to have this matter attended to immediately but I could not get any person to do the work until recently. The building was high and we could not get an Indian to attend to Mr. Simpson and Mr. Eley came near being killed, yesterday he sliped and was going down the roof on his back and just as he was going over the eaves he caught one of the posts on which one of the scaffolds was built had he fallen to the ground he would have been dashed to pieces. I think the Simpson charged a very good price for his work but he would not take less.

Dear Sir

I beg to report that we have not sufficient seating capacity for the pupils of Alderville Indian Day School. At present we are in need of room for ten pupils.

I have seats on platform, on which room when it is very dark. and beside and behind stove within 1 foot of same. when the cooler days come the pupils cannot sit near the hot stove.

I enclose plan of class room. I would suggest the partition be moved as per diagram would then be done we shall require some two more new seats. I am doubtful of the present box stove could heat the larger room

Would it be possible to have one of your Officials visit school and see first hand our condition. at any rate we will need accommodation immediately as every available space is occupied and still there is more to follow" Trusting to hear from you by return mail

I am

Yours sincerely

OTTAWA, October 12th, 1921.

Sir, -

I have to acknowledge the receipt of your letter of the 30th ultimo, reporting on the attendance at the Alnwick Indian Day School and the necessity of providing more class room accommodation; also furnishing a sketch of the building and the alterations which you consider should be carried out.

In reply I beg to say that the Department is referring this matter to Mr. Agent Coyle for a report, and, if it is decided to carry out your suggestion, an estimate of the cost of having the work done.

I have to request that in future you will submit all matters of this nature through the local Indian Agent.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

OTTAWA, October 12th, 1921.

Sir,

The Department is in receipt of a communication from Mr. Fred J. Dodson, teacher of the Alnwick Indian Day School, in which he requests that the class room be enlarged by removing the partition between the ante-room and the class room, and the providing of a dozen more desks, and also, if this is done, that a larger stove be provided.

I will be pleased if you will furnish your views regarding this request. You should state whether it would be advisable to remove the partition and enlarge the class room, and, if so, the cost of having the work done. You should also state if the ante-room is taken into the class room what provision would be required to provide cloak room space for the children. Before the Department can decide the matter a report giving full information is required.

The teacher is being informed that his request has been referred to you.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

Sir,—

Relative to your letter of the 12th day of October last, File No. 2-1-5, I beg to state that I have endeavoured to get a mechanic to look over the school room at Aldew-ille with a view to getting an estimate of the cost of removing the partition between the stable-room and Class room but was unable to do so until last week.

I beg to inform you that this partition is about nine feet from back wall which, if removed, except about 8 feet on west side of room which could be enclosed, to take in the door, which would face the wind on entering class room and I consider would be quite an improvement to the school as I think one dozen desks more could be placed in room, which would seat all the pupils that we are likely to have. Also placing another window to the class room.

Mr. Mason the mechanic states that the material and labour will cost approximately Fifty Dollars.

I have only the Fisher who speaks Eng. on the school Board probably [illegible]

advise me where to write for prices on School desks which of course would be extra.

I think the same stove will do well enough at least we could try it this winter.

At present some of the seats are too close to the stove and I think if the partition is removed that the proposed ante-room will be large enough for a cloak room if not. I think it could be put on back hall for the girls wraps in the winter season.

Kindly advise me as soon as possible it was intended to have this work completed during the Christmas vacation but could not get the estimate soon enough for that.

Sir, -

In further reference to your letter of the 4th instant regarding the desks required for the Alnwick Indian Day School, I beg to inform you that an order is today being placed with the Globe Furniture Company Limited, Waterloo, Ont., to ship addressed to you, Hastings, Ont., 12 - #1 or A "New Globe" Automatic Adjustable Cast Iron Desks (Single) and 3 rears for the same.

The prices quoted are $10.50 each for the desks and $8.50 each for the rear seats, F.O.B. Hastings.

The desks will be shipped in a knocked-down condition and, upon arrival, you should arrange to have them assembled and put in proper positions in the classroom. They should, if possible, be arranged in three rows, as there are rear seats provided for that arrangement of the desks.

The above firm have been requested to forward their account, in duplicate, which, upon arrival of the desks, if in good condition, you will certify and transmit to this Department, in order that payment of the account can be made.

You should arrange with someone to assemble and set up the desks in proper position in the classroom, and forward certified accounts covering the expenditure incurred for the purpose.

It is hoped that when these desks arrive they will prove satisfactory and provide ample seating accommodation for this school.

It is hoped that the alterations authorized have been completed in the classroom.

Your ref. of-1-5.

Dear Sir,

We acknowledge with thanks your letter of the 16th., notifying us respecting some School Desks on which we quoted, and are sorry to know we have not been successful in securing the business.

You say that our quotation was not the lowest received and this raises the question as to what type of Desk you are actually purchasing. Your letter of January 9th requested a quotation of 12 Preston Ball Bearing Combination Adjustable Desks, size 1, and you will appreciate it seems somewhat surprising that anyone else could have given a lower price than ourselves on this particular Desk. We are inclined to think that you are not getting Preston Desks at all, and if such is the case it is to be regretted because you are missing the best and most serviceable "fixed" Desk made in Canada today. There is no doubt at all that you can buy much cheaper seats for the Preston Factory have never attempted to produce anything but a first class article. If quality has not been taken into consideration in the present instance, we would like you to look further into the matter, should your order not have been definitely placed because you will find that the least expensive in the long run is the Desk that has a good appearance and will stand the hard usage of the School for many years, without the necessity of repairs and other expensive upkeep.

OTTAWA, January 26th, 1922.

Gentlemen, -

I have to acknowledge the receipt of your letter of the 19th instant, with reference to your quotation of the 10th instant for school desks.

In reply I beg to say that a number of the selling agents for school desks were asked to quote prices on a type of single desk handled by them. The other firms furnishing quotations did not quote on the Preston Ball Bearing Combination Adjustable Desks supplied by you. The order was placed for a desk of the single type, which was considered satisfactory for the purpose, and at a lower price than that quoted by you.

Under the requirements of the Purchasing Commission of Canada we are obliged to obtain prices from a number of dealers before placing orders, and the firm quoting the lowest price, having in view the supplying of a serviceable desk, receives the order.

Your obedient servant,

(Sgd) F. H. Paget

Dear Sir

I wish, thru you Agent (my Co, to draw attention to a much needed improvement in our Day School.

The building is a frame with a large hall over head. We are using a box stove. Exhibit "A" floor is always cold & the teacher & many more around it. I mean it is a little cooler there (the children) can not do. There are 47 children on roll. Average last month was 39+

When the building was first put there was a large air chamber made & a good hold it is about - 5 or 6 ft deep. There are 4 stone foundation walls under building. Then are 3 chimneys in building from foundation

I would respectfully suggest that a hot air furnace be put in for next winter. The approximate cost (including installation) would be $175. The building is good for another forty or fifty years. Wood is becoming scarce in this locality. Coal will be the fuel used in ten years

The furnace would heat the hall also saving fuel and labor.

Ottawa, April 6th, 1922.

Memorandum,-

Mr. McLean.

While at the Alnwick Reserve I had occasion to visit the school and my attention was drawn by the teacher to the condition of the blackboard. This board is made of 3" boards with, of course, a series of cracks and it makes it very difficult indeed to work upon.

I would recommend that a new hylo-plate be supplied, one 16'X3', and two 10'6" X3'.

The interior of the school is in very bad condition and should be repainted. The floors should also be oiled. The front porch is in bad shape, decaying at one side, and should be repaired. The rain has also washed out quite a large whole on one side of the building and will, I fear, undermine the foundation. Five or six loads of gravel should be dumped into this whole. The shields of the closets, both boys' and girls', are partly broken down and should be renewed.

I beg to recommend that the Agent be authorized to have this work done.

EXT

OTTAWA, April 10th, 1922.

Sir,

Mr. R. H. Abraham, Agricultural Representative of this Department, who recently visited the Alnwick Indian Day School, reports that the interior of the school is in bad condition and should be repainted, also that the floors should be oiled, and the front porch repaired, as it is decaying at one side. He also states that the rain has washed out quite a large hole in one side of the foundation and, as a result, the foundation is in danger of being undermined, and recommends that 5 or 6 loads of gravel be dropped into this hole. The shields in both the boys' and girls' closets are broken and should be renewed.

I have to request that you will be good enough to forward an estimate of the cost of painting the interior of the school and oiling the floor, also the repairing of the front porch.

You may arrange to have the hole in the side of the building repaired by dropping in the amount of gravel required to fill up the excavation. You should also arrange to have the shields in both the boys' and girls' closets repaired or renewed.

The Department will expect that you will attend to the filling in of the excavation in the side of the building and to the repairs to the closets as soon as possible, and properly certified vouchers should be forwarded covering the expenditure incurred. The cost should be kept down to the lowest possible point.

You should also forward as soon as possible an estimate of the cost of the other repairs mentioned.

Supt. of Indian Education.

Sir,-

The Public School Inspector in his report on his recent inspection of the Alnwick Indian Day School, states that the closets need repairs at once. I have, therefore, to request that you will make the necessary arrangements to have the repairs required to the closets carried out. No undue expenditure should be incurred. When the work is completed you should forward properly certified vouchers covering the expenditure incurred.

In connection with the repairs to the school building, referred to in official letter to you of the 10th of April, last, I have to request that you will state what action you have taken to comply with the instructions contained in that letter. You should also forward, as soon as possible, an estimate of the cost of the repairs mentioned.

Sir,—

Referring to my letter of the 19th inst. Re Furnace for the Aldenville School I beg to state that I wrote H. Hamburt, Hosking & Co., and H. L. Allen & Co Eatons and The Peterborough Hardware Co. for quotations on furnaces, & enclose herewith their letters in reply together with quotation from the Agents representing The Hamilton Stove and Heater Co. who visited the Aldenville School yesterday evening when I went out there to view the premises.

After carefully inspecting the building the Heating Agent wrote out the enclosed quotation which I would be inclined to accept. He would have to cut an opening through the foundation of the building and make an excavation so that the dirt could be thrown out there and a window put in to light the cellar.

I may say the school room floor is about four feet above the ground

and the Agents suggested that a cement foundation about 12 feet square be laid for the furnace to rest on and for safety from fire.

A door could be cut in the floor of the entry room of school room to carry the wood down cellar from wood shed an outside door being unnecessary.

They gave me their closest price and guarantee to do the work. Register to be placed in ceiling of school room to heat Council Chamber.

A pipeless furnace will save a great deal of excavation in cellar besides keeping up ~~space~~ in school room.

The cutting through foundation and holes for registers laying cement foundation would probably cost approximately $75 extra over and above furnace installed.

They would like the Order as soon as possible as they state it will be three weeks before they could get the furnace after receipt of Order.

Sir:

Replying to your letter of the 30th ultimo, regarding the installation of a furnace in the Alnwick Indian day school, and enclosing an estimate of the cost of the same, I beg to say that the Department will approve of having this work carried out.

It will be satisfactory to give the contract to the Hamilton Stove & Heater Company, Limited, for the installation of 1 - #150 "New Idea" Pipeless Wood Furnace, complete, ready to fire, at the price quoted by them, viz: $387.00.

You may also arrange to have an opening out through the foundation of the building and a window put in to light the cellar. A cement foundation about 12 feet square should be laid as a base for the furnace before it is put in. A door may be cut in the floor of the anteroom of the classroom to provide an entrance to the cellar. A register should also be placed in the ceiling of the schoolroom to heat the Council Chamber.

All the work over and above that to be done by the Company installing the furnace should not exceed approximately the sum of $75.00.

You should obtain competitive prices for any material that may be required, and properly certified vouchers, in duplicate, should be forwarded covering the cost of installing the furnace and for the work authorized above.

The expenditure involved will be paid from the interest to the credit of the Band, and it would be advisable to obtain a resolution of the Band authorizing this expenditure from their interest money.

You should give the matter of having this furnace installed your early attention, and, if possible, have all the work completed by the end of August, next.

Dear Sirs:-

I wish to advise you that on the 21st. instant, I mailed a tender to Mr. W. R. Coyle, Indian Agent, R.R. #1 Hastings, Ontario; for the installation of a system of Hot Air Heating, for the Allerville Day School, and Council Building, which is near Roseneath, Ontario.

As I understand that these Tenders, for this Heating Work, are to be forwarded to your Department, I am enclosing in this envelope a Plan which I have made of this School and Council Building, showing on same the layout which I recommend for the proper Heating of this Building.

Having thoroughly inspected this Building, and been made acquainted with the conditions of same by your Mr. W. R. Coyle; by which I understand that very often the Indian Council, and the Day School are in session at the same time; I would not guarantee satisfaction to you with a Pipeless Furnace not only from a standpoint of Heating, but also from the standpoint of operative conditions, as the noise from the Council in session would be very troublesome to the Day School in session, and also the noise from the Day School in session would be troublesome to the Council in session.

I trust you will be able to give my tender favorable consideration, and that I will be awarded the contract.

I am,

Yours respectfully,

W. R. Turner

Ottawa. July 31, 1922.

MEMORANDUM.

Mr. McLean,-

With reference to the installation of a heating system for the Indian school and council chamber at Alderville, on the 28th of March, last, we requested Mr. Agent Coyle, Roseneath, to obtain prices for the installation of a furnace. He replied by letter dated June 19th, that he was writing to a number of different firms and that he would forward their quotations for this work as soon as he received same. On the 30th of June he stated as follows:- " Wrote H. Lambert, Hastings, Ont.; W. L. Allen Company, Cobourg; Peterborough Hardware Company, Peterborough, and the Hamilton Stove and Heater Company, Hamilton," He enclosed replies which he received.

Allen & Company stated that they did not handle furnaces. The Peterborough Company in letter to Mr. Agent Coyle dated June 23rs, stated that they were turning over the enquiry to Messrs. W. R. Turner & Son, Peterborough.

No reply was received from H. Lambert, Hastings. The Hamilton Stove and Heater Company offered to furnish and set up a wood furnace complete and install registers for the sum of $307.00.

As the above were the only quotations received, we authorized our agent by official letter of July 17th, to give the contract to the Hamilton Stove and Heater Company.

We had a communication from Mr. W. R. Turner, Peterborough, dated July 25th, in which he stated that he had mailed a tender to our agent on the 21st instant.

It will be noted that ~~our~~ the date on which he mailed this tender was four days later than our letter of instructions to the agent to award the contract to the Hamilton Stove and Heater Company. The cost of the installation of this heating system for the school and council chember will be paid frm the interest fund at the credit of the Missisaugas of Alnwick Band.

Memorandum: Mr. Featherston.

With reference to the telephone inquiry from your office this morning regarding the installation of a heating system for the Indian school and council chamber at Alderville, I beg to say that on the 28th March, last, we requested Mr. Agent Coyle, of Roseneath, to obtain prices for the installation of a furnace. He replied by letter dated June 19th that he was writing to a number of different firms and that he would forward their quotations for this work as soon as he received same. On the 30th June he stated as follows :"Wrote H.Lambert, Hastings, Ont.; W.L.Allen Company, Cobourg; Peterborough Hardware Company, Peterborough, and the Hamilton Stove and Heater Company, Hamilton." He inclosed replied which he received.

Allen & Company stated that they did not handle furnaces. The Peterborough Company in letter to Mr.Agent Coyle dated June 23rd stated that they were turning over the enquiry to Messrs.W.R.Turner & Son, Peterborough. No reply was received from H.Lambert, Hastings. The Hamilton Stove and Heater Company offered to furnish and set up a wood furnace complete and install registers for the sum of $387.00.

As the above were the only quotations received, we authorized our agent by official letter of July 17th to give the contract to the Hamilton Stove and Heater Company.

We had a communication from Mr.W.R.Turner, Peterborough, dated July 26th, in which he stated that he had mailed a tender to our agent on the 21st instant.

It will be noted that the date on which he mailed this tender was four days later than our letter of instructions to the agent to award the contract to the Hamilton Stove and Heater Company. The cost of the installation of this heating system for the school and council chamber will be paid from the interest fund at the credit of the Mississaugas of Alnwick Band. We have wired the Agent to hold the contract if it has not yet been let and to report.

Here Are a Few of the Outstanding Features of The Gilson Pipeless Furnace

The Gilson is an all cast iron furnace.

Extra large tight fitting feed door admits chunks of wood without difficulty. Special grate is provided for burning wood.

Feed section cast in one piece. Cup joints insure accurate fit with other sections.

All doors have beaded edges, ground to insure their fitting close and tight all round.

This Furnace has solved the heating problem for hundreds of householders and landlords and greatly reduced the heating costs. It will do the same for you.

PERFECT BALANCE SAVES FUEL

For every pound of fuel burned, a certain volume of air must circulate around your furnace to carry the heat up into your rooms. If the casings are undersize, there is not the proper balance of air circulation to fuel burned.

The casings of the Gilson Pipeless Furnace are the largest of any pipeless furnace. The generous outer casing draws the air quickly, yet without drafts, from your floors. The large inner casing warms, but does not overheat, the air and returns it to your living rooms, fresh and with just the right humidity.

Perfect Balance

Perfect balance prevails among all parts of the Gilson. The straight side firepot, made in two sections, presents the greatest possible surface for heating the circulating air. The radiator is extra large to match the firepot. Its long runway absorbs the fullest measure of heat from the smoke and gases before discharging them up the chimney.

Note the ground joint doors of the Gilson,—how well they fit. Examine the cup joints, the care with which they are finished so that all sections go together smoke and gas-tight. Every part is made of generous proportions, to stand unusual knocks and strains.

Perfect Satisfaction

Through and through quality is assured in the Gilson because only the finest grey iron is used for the castings, combined with the know-how that a quarter of a century of furnace making brings.

We back up this furnace to the limit. Thousands are in use, and every one is saving money and giving its owner solid heating comfort. A Gilson in your home will make you happy every winter your whole life long.

Sir,—

Referring to your letter of the 17th inst. file No 2-1-5- I beg to submit herewith tenders for furnace for the Alderville School from Walter Mason of Roseneath representing the Gilson Mfg. Co. Ltd of Guelph and the H. R. Turner Co. of Peterborough respectively.

When I broke the Option the 30th ultimo. in the matter I was not aware that Mr. Mason was dealing in furnaces he casually heard we were wanting one for the Alderville School so had the Head Agent of his firm inspect the School. Although he does not guarantee his furnace it seems to me his tender is worth consideration Mr. Mason himself is a contractor and could lay the foundation for the furnace. The H. R. Turner Co. of Peterborough also inspected the building but were very dilatory about it.

of Indian Affairs.

Since writing my memorandum of yesterday, with reference to the installation of a heating system in the Alderville Indian school, I beg to say that we have received from the Agent a further letter, regarding the matter, with which he incloses quotations from Moore, Turner and Mason. Mr. Mason's tender is the lowest so far received, and Mr. Turner's price seems very high, but, in order that all those who have quoted prices may be given an opportunity to tender on a uniform basis, we are preparing a specification, and calling for tenders again.

Referring to your letter of the 10th of April last, Syl. No. 2-1-5 relative to the painting of the interior of the Schoolroom on the Alnwick Indian Reserve beg to state that the painter will commence painting the Church on the Reserve to-morrow and I had him give an estimate of the cost of painting the Schoolroom and oiling the floor.

He will furnish the material and complete the job. which includes kalsoming the walls and ceiling of schoolroom for $70.00 which it is thought should be done as the work would be unfinished without it. Mr. Houghton the painter is a first class workman and does all the best jobs in this vicinity.

The front gable of the schoolroom as well as the woodwork underneath the eaves should be painted also.

Kindly approve of this work at once as I desire that the job completed before the schools open.

Ottawa, August 19, 1922.

Sir:-

I have to acknowledge receipt of your letter of the 15th instant, furnishing an estimate of the cost of painting the interior of the school room and oiling the floor at the Alnwick Indian Day School.

In reply I beg to say that you may arrange with the painter who is doing the work of painting the church on the Reserve to complete this work in the school room. It is noted that he will furnish the material and complete the work - which includes calcimining the walls and ceiling and any painting of the woodwork required as well as oiling the floors- for the sum of $70.00.

In this connection I may say that new tenders are being called for the installation of a warm air heating system, and this work will necessitate the cutting of the floor in one or two places. After the furnace has been installed it will be necessary to complete any painting, and you will kindly see that this is done.

It is noted you recommend that the front gable of the school outside as well as the woodwork underneath the eaves be painted. You may have the painter who does the work in the interior of the school paint the gable and eaves.

All this painting should be done in a satisfactory manner and at the lowest possible cost. When completed, properly certified vouchers in duplicate should be forwarded covering the expenditure incurred. You will be good enough to obtain a price from the painter for the painting of the gable and the woodwork around the eaves. If possible, this work should be completed before the school re-opens after the present summer holidays.

A Pipeless Wood Furnace!

FOR THOSE WHO LIVE IN DISTRICTS WHERE WOOD IS STILL THE FUEL ordinarily used, there has, until now, not been a PIPELESS furnace really suited to their requirements. Furnaces advertised to burn either coal or wood are really coal furnaces with a loose wood grate, for which the wood must be cut in small pieces, and in which it is hard to keep a fire over night.

The "HILBORN" PIPELESS FURNACE, on the other hand, HAS A REGULAR WOOD FIRE-BOX WHICH WILL TAKE A STICK FROM TWO TO FOUR AND A HALF FEET LONG, and the fire-box door is big enough to take chunks that otherwise could not be used. THERE IS NO TROUBLE ABOUT KEEPING A FIRE ALL NIGHT IN THE "HILBORN".

THE PRINCIPLE OF THE HILBORN PIPELESS WOOD FURNACE is the same as that of our famous HECLA PIPELESS FURNACE, based on the fact that warm air rises and cold air falls. The cold air is drawn down from the house, through the outer case, into the furnace where it is warmed and goes up into the house again through the centre of the register. With the doors between the rooms left open, this results in a circulation of air throughout the house that warms it in a surprisingly short space of time and keeps it at an even and comfortable temperature.

For particulars as to size etc. see next page

The Hilborn Pipeless Wood Furnace.

The illustrations on this page show the furnace itself, without the casing. Note the firebox—very heavy, for DURABILITY—and deeply corrugated, to give LARGE RADIATING SURFACE. The door is big—to admit rough wood, knots, etc.

The HILBORN IS BUILT WITH EITHER THREE OR FIVE DRUMS TO SUIT INDIVIDUAL REQUIREMENTS. These drums are so arranged that the fire travels several times the length of the firebox before reaching the smoke pipe. This long fire travel, combined with the large surface of the drums, and the additional radiating surface of the corrugated firebox, make the HILBORN PIPELESS FURNACE a most POWERFUL AND ECONOMICAL HEATER.

THE CASING is doubly insulated. Inside the Galvanized Iron Casing is a lining of asbestos, and inside that a lining of tin—an added expense that is an economy, because it prevents loss of heat into the cellar.

THE REGISTER, which can be supplied in either oxidized copper or black japanned finish, is of the proper size to give best results. The proportions of both register and casings have been carefully worked out, and are RIGHT.

THERE IS NO RUSH OF HOT, DRY AIR FROM THE HILBORN PIPELESS. The casing and register have been carefully proportioned to give just an easy, steady flow of air at summer heat—and the water pan in the HILBORN is big enough so that in passing through the furnace the air absorbs just the right quantity of moisture to insure a healthy atmosphere in the house.

A COOL CELLAR: The Casing on the HILBORN PIPELESS FURNACE prevents any heat from radiating into the cellar, which as a result is always cool, so that fruit and vegetables may be stored within a few feet of the furnace.

I have to acknowledge receipt of your letter of the 17th instant, with reference to the installation of a heating system in the Alderville Indian Day School.

In reply I beg to say that new tenders were recently called for the installation of the heating equipment, and we are awarding the tender to H. M. Roblin, Brighton, Ont., who is the lowest tenderer for this work. He will install a No. 160 New Idea Wood Burning Furnace (60,000 cu. ft. capacity) taking a stick of wood 50" long, and will perform all the work as per the specifications a copy of which is enclosed herewith.

This work should be carried out under your supervision and to your satisfaction. When it has been completed, you will kindly forward properly certified vouchers, in duplicate, covering the amount of Mr. Roblin's tender. He will supply the furnace and all other material required and install the same according to the specifications, for the sum of $478.00.

Mr. Roblin is being requested to have this work carried out as soon as possible.

Dear Sir:—

Referring to Alderville Indian Day School & Council Chamber, Rosseneath, Ont. would advise that your agent Mr. W.P.Coyle informs us that no arrangements have been made as to the excavating of the cellar of the building and you will understand that a furnace cannot be installed untill this work has been attended to and my tender does not call for me to do this work it calls for only work as per your own specif. actions which do not make mention of the digging out of cellar only making the cement foundation to set the furnace on proper.

Before acknowledging your letter of the 23rd. No. 2-I-5- as to having the contract I would ask you to let me know when the work of the cellar will be done so that the furnace can be installed.

It is just possible that you did not know that this work had to be done and I will ask you to see about it at once as the season is getting far advanced for furnace work.

Sir:-

With reference to the contract which has been let for the installation of a heating system in the Alderville Indian Day School, I beg to say that the Department has received a communication from Mr. H. M. Roblin, Brighton, Ont. who is to do the work. He informs us that no arrangements have been made for the excavating of the cellar of the building to the desired depth to allow for the setting up of the furnace.

This furnace cannot be installed until the necessary excavation has been made. The tenders do not call for the contractor to do this work. It will, therefore, be necessary for you to arrange for having an opening cut through the foundation of the building and the cellar excavated to the desired size and depth. A window should be put in where the cellar foundation is cut, in order to provide light in the cellar. A doorway, of sufficient size, should also be cut in the floor of the ante-room of the school room and a door and stairway installed, for the purpose of carrying down the fuel required.

This work should be undertaken by you at once and rushed to completion, in order that the contractor may proceed with the installation of the furnace. You will be good enough to inform the contractor when the excavating is completed, so that he can start work on his contract. You will please see that this work is done with the least possible expenditure and, when completed, properly certified vouchers, in duplicate, should be forwarded.

The contract for the installation of the furnace includes the providing of a suitable concrete foundation on which the furnace shall rest. A copy of the specifications for the installation of the heating system has already been sent you.

We shall expect to hear at an early date that the work which you are now authorised to do, in excavating the cellar and the installation of the heating system has been completed.

Relative to your letter of the 19th ultimo. File No. 2-1-5- I beg to enclose herewith for payment account and voucher in duplicate in favour of S. Houghton for supplies furnished and work in connection with the painting of the interior of School on the Shawanaga Indian Reserve.

Mr. Houghton states that it would be worth about $30.00 to paint the gables and eaves and windows of the School.

This is a very high building and it is difficult to erect a scaffold to do the work.

Mr. Houghton is an excellent workman. The school is greatly improved in appearance.

SOUVENIR SUPERHEATER

It's a Furnace

The SOUVENIR SUPERHEATER looks like a costly mahogany cabinet, but it's a real furnace and heats every room in a medium sized house.

Designed on the lines of the Pipeless Furnace, the SUPERHEATER operates with the lowest possible consumption of fuel.

Installed in one of the living rooms, the SUPERHEATER keeps the whole house warm. It will heat 4 to 6 connecting rooms better than the ordinary stove heats [redacted].

Note particularly that the SUPERHEATER is not a stove. It is a furnace, which circulates great volumes of warm, moist air throughout the house.

The SUPERHEATER offers the most economical and cleanest way of heating.

It is finished in enamel of mahogany color, hard and smooth as glass, that you can rub and dust with a cloth. This finish is practically everlasting.

The SUPERHEATER will burn hard coal, soft coal and wood with perfect results

Where to see the Superheater

Leading Hardware Stores, Furniture Stores and Heating Contractors everywhere are now selling the SUPERHEATER.

Dear Sir,-

In reply to your letter of the 7th inst., with reference to the heating of the school at Roseneath, I beg to say that I visited the school a couple of weeks ago and while there, discussed the heating of the school with Mr. Lambert, your Agent at Hastings, and explained fully to him my wishes regarding this system. He told me that he expected you the following day in Hastings and that he would advise you what my decision was in this matter. I therefore did not think it necessary to communicate with you. He will be able to explain to you about this job.

Yours very truly.

I beg to enclose herewith Accounts & Vouchers in duplicate in favour of John LaRe Samuel Beaver and Allen Taylor respectively for labour in connection with the digging out of the cellar under the Chapel on the Almonte Indian Reserve for a furnace.

I brought this Account to the attention of the Chief and one of the Councillors and they consented to give LaRe one day's pay for use of the team in hauling the earth away from the building which I think is sufficient. I am told he would keep the team standing outside of the building until the dirt was picked and thrown out, by waiting full time for such work. The delay is unfortunate.

I have cheerfully certified the Vouchers for his 6 days work as I cannot see where he put in the time.

Kind-ly look over the Accounts carefully, and you will observe they do not compare. - he got Beaver

I have just returned from the Reserve where I inspected the furnaces installed by Mr. Lambert in the Mission House and School.

As far as I am able to judge and from the Reports of the Teacher and those who are working in the Mission House both furnaces are giving good satisfaction.

Owing to the very high winds which prevailed during the week it took considerable wood to heat the classroom and chamber above which was used by the ladies of the Reserve who were holding a Bazaar of course it is seldom that both rooms require heating at once

You mention in your letter that an allowance be made for changes made in the School job and for your information would advise that this was done by making the allowance when giving in the price for the Mission House which should of been several dollars more.

In fact money was lost on the Mission house but we are willing to live up to our agreement in the deal.

The Purchasing Commission of Canada:

I have to inform you that specifications for a Warm Air Heating System, to be installed in the Alderville Indian Day School and Council Building at Alderville, Ont., were directed from this Department last August to the following firms, who were asked to submit tenders:-

The Hamilton Stove & Heating Co.,	Brighton, Ont.
Clare Brothers & Co. Ltd.,	Preston, Ont.
Gilson Manufacturing Co. Ltd.,	Guelph, Ont.
W. R. Turner, Esq.,	Peterboro, Ont.
Walter J. E. Mason, Esq.,	Roseneath, Ont.

Three prices were received and the business awarded to H. M. Roblin, representing the Hamilton Stove & Heating Co., of Brighton, Ont., who quoted the lowest price. The account is now to hand. The Indian Agent reports that the furnace is giving good satisfaction. I respectfully ask for a Minute number authorizing the payment.

Sir:-

I have to acknowledge receipt of your letter of the 16th instant, in which you state that the furnace which was installed in the School and Mission House on the Alnwick Reserve by Mr. Roblin, representative of the Hamilton Stove and Heater Co. Ltd., Brighton, Ont., is giving good results and that the work of installation has been completed in a satisfactory manner.

Mr. Roblin, the contractor, called at the Department today, and his account for the installation of the furnace in the Day School, to the amount of $478, has been paid to him. This account, in duplicate, is returned herewith in order that you can certify the same, as this is required to be done before it is complete to the satisfaction of the Auditor General. Kindly sign both copies and return them promptly to the Department.

Payment of the account for the installation of the furnace in the Mission House is receiving consideration.

Dear Sir,

I am enclosing receipt for lantern slides which I purchased on commission with an illustrated lantern lecture on Indian education from Chas. Stewart as a letter dated June 27 1922 may be found that I should be reimbursed up to the amount of thirty dollars by the Department as the attempt to place this subject before the public, I am delayed sending in my account hoping I can collect all the money together but there is one more lecture to make further collection, I shall do so to make further purchases before the lectures are complete. If I cannot collect it I will appreciate a cheque at your earliest convenience.

Yours respectfully
(signed) Thos. Johnson

Ottawa, Feb. 19, 1924.

Sir:

I have to acknowledge receipt of your letter of the 15th instant, enclosing accounts for the lantern slides which you purchased in connection with an illustrated lecture on Indian Education.

In reply I have to say that these accounts are being returned herewith in order that, if they have been paid by you, they may be properly receipted. We note that the account for $4.74 in favour of the Keystone View Company is not receipted - the only receipt accompanying this is for $1.14. There is also an account from the Animatograph Company for 85¢ which should be receipted. As soon as these accounts have been receipted, as required, and returned to the Department, payment will be made.

In the letter referred to by you of June 27th, 1922, the payment of accounts to the extent of $30 in the purchase of slides was authorised. Please complete the purchase of the slides at as early a date as possible and forward properly receipted vouchers in duplicate, so that payment can be made by this Department of the amount promised. It is now nearly two years since you were granted the authority to expend the amount of $30 for this purpose and the Department would like to have this matter completed in the near future.

Your obedient servant,

Enclos.

Sir,-

The Public School inspector, in a report on his recent inspection of the Alnwick Indian Day School, states that, while the building is in a thoroughly good condition, some surface drains should be constructed to keep the water out of the furnace room. He also recommends that the school grounds be cleaned up as soon as possible and that the closets be repaired and thoroughly cleaned.

I have to request that you will arrange to have the grounds around the school buildings cleaned and also have any repairs required made to the closets, after which they should be thoroughly scrubbed and put in a sanitary condition. The cleaning of the grounds and closets should receive early attention and properly certified accounts, in duplicate, should be forwarded covering the expenditure incurred for the purpose.

Regarding the providing of drains to prevent the water in the furnace room, please state what you would recommend being done to keep the surface water from running into the furnace room. If drains are required you should state the cost of having any work done and also state what arrangement you would advise to be carried out.

Referring to your letter of the 8th inst. File No. 2-1-5. I beg to state that on the 5th inst. Mr. Dodson drew my attention to the chimney on the Church which is badly out of repair and the next day I went to the Chief John Smoke and we made a general inspection of the School grounds and public buildings on the Reserve. We concluded that if the ground were ploughed and scraped between the Church and School and the earth taken up into the School yard to level up grounds and make a depression between the buildings it would answer the purpose of drainage.

Extend on church memorandum file?

Mr. Dodson was talking that day as Labor Day and the pupils [illegible] clearing up the yard.

The Sexton will clean the closets according to Agreement and I have advised him to put on the necessary repairs.

I think the above can be done for approximately $15.00. The chimney on the Church

I cannot give an estimate until I can get a mechanic to look it over.
I have the authority to get the opinion of the missionary Horse and shed also the school painted as soon as possible, this expenditure will cost approximately $150.00. The Church shed needs shingling the old shingles are blowing off with the wind and the plates will soon decay with the rain coming through the roof.
The Mission Barn where the threshing machine is stored is in a dangerous and dilapidated condition I fear the roof will fall in any time with a heavy wind
The Shipbuilding shed should be taken down and rebuilt before it falls and is damaged

Sir:

I have to acknowledge the receipt of your letter of the 15th instant, regarding the school grounds and public buildings on the Alnwick Indian Reserve.

Regarding the school grounds and the drainage of same, I beg to say that you may arrange to have the ground between the church and the school plowed and scraped and the earth taken into the school yard to level up the same. It is noted that this will make a depression between the buildings which will provide for drainage. The above work would be carried out at the lowest possible cost, and should be completed during the coming summer holidays. Properly certified vouchers, in duplicate, should be forwarded covering the cost of the labour employed.

Regarding the repairs to the chimney on the church, the reshingling of the church shed and the repairing of the mission barn, I beg to say that you will be advised in a separate communication.

It is noted that the sexton will have the closets cleaned and repaired, and that the teacher and pupils have cleaned up the school yard.

While in the reserve I had hoped to visit the day school, but found the teacher was ill and no classes being held. I found the building and equipment in good condition, however, and the Agent informs me that attendance is satisfactory. I called the Agent's attention to some wet places around the school house which required a little filling and he will try to have the Indians fill them in. P.S.

This is another favour that I wish to bring to your notice.

One of my boys Wallace sent in a bill of $13.00 or thereabouts for teaming done for E. Blaker, same was to have been paid him out of his, E. Blaker's loan, This bill was sent in about two months ago but he hasn't received no word of it yet. Also Hilton a younger brother sent in a bill of $1.50 for work done on furnace at the school and neither of those bills have been paid the boys. Would you please help the boys get their pay as Wallace recently got married and is living by themselves and need the money.

Sir,—

I beg to enclose herewith Resolutions passed by the Indian Council at a meeting held in the Hall at Edenville on the 7th of June last together with vouchers in duplicate in favour of John Sunday Wilford Sunday, Daniel Crowe and Ellie Crowe respectively for work done at the Edenville School.

On my recommendation Council decided to have the ceiling lowered, connected to make a partition between the School and Church in the building, same in order that the room will not form into the basement under School. Instructed me also to do the work. Find it necessary to do this and this spring the floor had to be taken out daily owing to the water coming into the furnace room. Have now had new floor and have drain pipe also laid.

I have the honour to be, Sir,

Sir,-

The Public School Inspector, in a report on his recent inspection of the Alnwick Indian Day School, states that the school yard should be cleaned up. I have to request that you will arrange to have this yard cleaned and placed in a satisfactory condition. No unnecessary expense should be incurred for the purpose.

The Inspector further states that the system of closets at this school is not satisfactory. He recommends that indoor sanitary closets be put in. Please report regarding the condition of the present closets and state whether you consider that the Inspector's recommendation regarding the installation of indoor sanitary closets should be carried out or not and, if so, you should give an estimate of the cost of having the work done. Your reply giving the information asked for will oblige.

I beg to say the Department has received a letter from Mr.John Lake, of Aldorville, stating he took a contract last Fall for piling wood in a certain shed at your Agency. He states also that he was taken ill before the work was finished but that it was completed by his son, and he adds that he forwarded his account of $6.00 to you but has not as yet received payment. Seemingly the account in question has not reached the Department. If this man is entitled to payment, you should submit a certified voucher in his favour covering the amount due. It should not require long to trim trees there are only about 4 to trim, but there are some dead limbs which school teacher thinks is dangerous. I recommend this.

Ottawa,23rd January, 1929.

Sir,-

I am in receipt of your letter of the 16th instant, with which you submitted a voucher for $23.29 in favour of Mr George Ingham,covering the cost of supplies which he furnished from the 2nd December 1927 to the 14th September 1928 for use in connection with the church,council room and school on the Alnwick Reserve,and in reply I have to point out that this account should have been rendered monthly or at least quarterly. You should not allow account to run for more than three months .Some of the charges in this account were properly payable before the 1st of April 1928.

Accounts for expenditure in connection with school are charged to the School Vote,while expenditure incurred for the Council Hall and Church is chargeable to Band Funds,and therefore I return the voucher herewith . Kindly indicate on the face thereof the amount spent for School,and show separately the expenditure incurred at the Church and Council Hall

The Department will expect you to submit vouchers regularly in future. It seems advisable for you to render a separate voucher for expense incurred in connection with the school .It will not be necessary ,however,to do so in the present case.

I beg to submit the following report on my visit of inspection to the Alnwick Agency on the 8th and 9th instant.

x x x

A teacher's chair is needed (at the Indian day school); the old one is worn out.

The ceiling of the little store room has fallen in places; it requires new plaster.

The two closets are in very poor condition and past repairing; two new ones are needed very badly.

Ottawa, November 7, 1929.

Sir:

Mr. Inspector McCookin, who recently visited the Alnwick Agency, states that a teacher's chair is required for the Alnwick Indian Day School, as the old one is worn out. He also states that the ceiling of the little storeroom has fallen in places and requires new plaster. He further states that the two closets are in very poor condition and past repairing and that two new closets are badly needed.

I have to request that you will arrange for the purchase and delivery of a suitable chair for the teacher's use. No unnecessary expense should be incurred in the purchase of same. You should also arrange to have the repairs required to the plaster of the ceiling of the storeroom carried out, and you should forward certified accounts, in duplicate, covering the above authorized expenditure.

Relative to the erection of new closets, I have to request that you will furnish a report stating the approximate cost of building same and whether you could arrange to have this work carried out before the extreme cold weather sets in. In estimating the cost, you should consider the erection of separate toilets, with proper screened approaches. When we have particulars as to the cost, etc., consideration will then be given to authorizing having the work carried out.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Sir.-

With reference to the new closets,I have received an estimate on the cost of same, Chas Jones, of Centreton, a good carpenter has agreed to build new ones and put in cement foundations for $10.00 each,out of all new material,The material including hauling the gravel would cost,around$55.00,

He says he could build them this fall if you wish,

We could use some lumber of the old ones but believe we can sell them for more as they are than it would save to wreck them , I have arranged to have the plaster repaired,and have ordered the new chair.

Ottawa, November 19, 1929.

Sir:

I have your letter of the 15th instant, relative to the erection of two new closets at the Alnwick Indian Day School.

In this connection I have to say that you may arrange to have two new closets erected on a cement foundation, using all new material. It is noted that the material, including the hauling of the gravel required, will cost approximately $55. You should see that these closets are erected on a suitable site at a convenient distance from the school building. You should also see that a satisfactory job is completed and that screened approaches are provided. There should be a good lock placed on each door, the key of which should be kept under the teacher's charge. The Department will expect you to see that a satisfactory job is completed in erecting these closets, which should be carried out at the lowest possible cost. After the work of building the new closets is completed, which it is noted can be carried out this Fall, you should forward accounts, in duplicate, properly certified, covering the cost.

You may use your own discretion as to whether any of the lumber from the old closets is used to erect the new ones, or you can arrange for the sale of the old closets. If so, you should forward the amount received to the Department.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Ottawa, January 23, 1930.

Sir:

I have your letter of the 19th instant, enclosing two accounts for supplies purchased by the teacher of the Alnwick Indian Day School. It is noted that these accounts cover the purchase of classroom supplies and a window blind.

In reply I have to say that you should inform the teacher that, in future, she should prepare a requisition on the form for that purpose for any classroom supplies required, and this should be forwarded to the department through your office. The regulations provide that all supplies of this nature be forwarded through the Government Stationery Office here. If the teacher anticipates her requirements and forwards a requisition in due time there would be no delay in furnishing the supplies she requires. The Department is paying the accounts which you forwarded, but, in future, I have to say that it will not be possible to pay accounts covering the cost of classroom supplies that have not been ordered in the usual manner. The teacher should also obtain authority before arranging for the purchase of such supplies as window blinds, weather stripping, or other articles required for the use of the school.

In reply to yours of July 24th. I beg to advise Miss Atkinson if she is at home to-day of your decision re.the other class-room,

I got in touch with a first class decorater Sam Houghton, and he gave me an estimate of $25.00 to fix up the school to fix plaster buy and put on paint and muresco,

And from what you say regarding same I have taken the responsibility to have it done and have hired him to do the work

Sir:

With reference to that portion of your letter of the 28th ultimo, regarding the repairs and redecorating required to the interior of the Alnwick Indian Day School, I have to say that the action taken by you in arranging to have this work carried out at a cost of $25 is approved. When the work is completed, you should forward an account, in duplicate, properly certified, covering the cost. You will be good enough to see that this work is completed before the school reopens after the present summer holidays.

Sir,-

In reply to yours of August, 1st. 1930, re.work to be done redecorating the Alnwick day school; In response to what I was told when at your Dept. that is the school Dept, when I called in July, I asked Samuel Coughton who is a practicle decorator to give me an estimate of the proable cost, for same, so, to get a prompt reply, I called him from Harwood over the Phone, and I understood him to say $25.00 as an estimate, but when came to get at the work he advised me he told me $75.00, and I mistook the figure quoted, the service was very bad at the time, a lot of interupion it being a Saturday night, I very much regret this great mistake, on my part, but since the work is going very badly not having been for five or six years and the man is there, I am taking the responcibility of having at least the plaster repaired, and the plastered part washed, and re-coloured, and the wood part painted, The seats should be varnished also,

Ottawa, August 16, 1930.

Sir:

I have your unsigned letter of the 13th instant, relative to the repairs and redecorating required to the interior of the Alnwick Indian Day School.

In this connection it is noted that you were in error in stating that this work could be carried out at a cost of $25 and that you now find that it will cost approximately $75. The Department will approve of your incurring the expenditure required in having the repairs and redecorating carried out. If possible, all costs for labour and material should not exceed the sum of $75, including the cost of varnishing the desks. Please arrange to have this work completed before the school reopens. Accounts, in duplicate, properly certified, should be forwarded covering the expenditure incurred after the work has been completed.

The job cost some more than estimate, the last time the school was decorated about six years ago the walls were done without being washed, one this time it was all washed with a sponge which took a great deal of time, but the only way make it look first class,

I have and enclose to arrange the new pictures sent to us by your dept, together with any [illegible] on hand, and I consider our school room as pretty, and bright as any in the county,

Dear-

Please find enclosed resolution passed by Alnwick Ind. Council, asking that a stove same as now used in Church be installed in school, as it is believed with it one load (wood) used to heat school with present furnace would be saved.

I may add the stove in Church cost about $30.00, last winter we estimate it took 17 cords of wood to heat school

Sir:

I have your letter of the 27th ultimo, enclosing a resolution of the council of the Alnwick Band requesting that a new stove be supplied for use at the Alnwick Indian Day School, and to be of the same type as that supplied for use in the church.

In reply I have to say that our funds at the present time are extremely limited and, unless you consider that this new stove is required, the Department would prefer that the purchase of a new stove be held over until next spring, at which time our new appropriation will be available. If, however, the present stove is in a dangerous condition, you may arrange for the purchase of a stove of the same type as in use in the church. It is noted that the cost will be about $30.

Ottawa, July 21, 1931.

Sir:

I have your letter of the 17th instant, regarding the cleaning of the interior of the school and closets at the Alnwick Indian Day School.

In this connection I have to say that the janitor should be responsible for the scrubbing and ordinary cleaning of the classroom. Should, however, the woodwork require washing, you may engage the services of an Indian woman to do the work, and you should see that the job is satisfactorily completed.

If there is any extra work in the cleaning of the closets and placing them in a good, sanitary condition, the Department will approve of you arranging with a competent Indian to do the work. It is considered, however, that the ordinary work in keeping the closets clean should be carried out by the janitor as part of his regular duties.

If any extra cleaning is required to either the classroom or closets, you should forward itemized accounts, in duplicate, covering the cost. These accounts should give full particulars as to the time employed by the person who does the work and the rate paid per hour or per day. No unnecessary expense should be incurred, and you should see that the work is completed before the school reopens after the present summer holidays.

Your obedient servant,

A. F. MacKenzie,
Secretary.

I visited the Alnwick Agency on the 18th and 19th instant for the purpose of making a general inspection of the agency work and to instruct and assist Mr. Grieve, recently appointed Agent,, as found necessary.

The school buildings are in very fair condition. The metal roof is beginning to show signs of rusting. If this is not checked at once it will deteriorate rapidly. There is a special preparation to be had to prevent rusting. The cost is not great and adds years to the life of the metal. I would recommend that the roof be treated this season if possible. The front porch needs a new post and the archway over the entrance should be pointed and a few bricks replaced.

Sir:

In a recent report on the Alnwick Indian Day School, Inspector McCookin states that the metal roofing is beginning to show signs of rusting. He also advises that this can be checked by the use of a special preparation. Please let me know what it would cost to have this roof treated with the preparation mentioned by the Inspector.

It is also reported that the front porch needs a new post and that the archway over the entrance should be pointed and a few bricks replaced. You may have these minor repairs attended to as soon as possible.

Sir ~~+~~ I have forwarded Req. & Bill and Vouches in Duplicate in favor of Mr. McMillan Esq. S. Ind. for repairing Pump at Scugog on Ind. Reserve. I might add that this pump was in very bad condition not having been used for a year. Which made it very inconvenient for the children. The pump had been there for a good many years and was badly decayed, which necessitated replacing the old piping for new.

Trusting this was in order I am.

Contractor of Renfrew - who has let. examining the repairs needed - informs me - that it will cost between 75 or 80 Dollars to do the work. that is putting a new post in the Porch which has rotted off. and new Brick in the Archway over the main door. and a portion of the roof which has given away. and putting the preparation on the Roof which will be quite a difficult job owing to the height of the Building. Personally I think his estimates are very reasonable.

That includes material and all.

With reference to your letter of the 4th instant regarding the repairs required at the Almwick Indian Day School, I beg to say that you may have the following work carried out:-

(a) New post in porch.
(b) New brick in the archway over the main door.
(c) Eavestroughing repaired.
(d) Special preparation placed on metal roofing to check rust.

It is noted from your letter that you can have all the above repairs made at a cost of approximately $80.00 and you should arrange to have the work done at once. The cost should be kept within your estimate.

Sir;-

Please find enclosed Bill and Vouchers in favor of Samuel Hatherly of Hastings for repairing and treating the roof of the Hall also repairing verandah and arch over the door, I may add that in addition to the work done on the Hall, we noticed some quite bad places at the base of the spire on the Church and as we had a little of the preparation left I had it put on those places which will protect it for some time yet, It may appear as though 50 cents per hour for laborers was middling high for these times, but owing to the height of the building, it was comparatively dangerous work and he could not get any one to go up for any less, but he done a firstclass job, and guarantees the roof for ten years.

ALNWICK [redacted] RESERVE

Roseneath Nov 4th 1931,

Sir,-

Referring to your letter of October 16th,# 2-1-5 with regard to the expenditure on the church of the Alnwick Indian Reserve, would say,- I was not aware that the Church and School accounts should have been kept separate.or I could have had it easily adjusted when the contractor was here, of course we did not take the church into consideration when we were estimating the cost of the school, as we calculated it would take the whole barrel of cement for the school, but there was about one gallon left so I thought rather than waste it we might better use it on a spot that was starting to rust on the church spire, the cost would not run over $2.00 as the material costs $1.40 per gallon, and the labor putting it on would not be more than 50 or 75 cents, however;- if you return the vouchers submitted, I will have the accounts adjusted and separate vouchers forwarded to the Department,

Sir - Enclosed please find Bill & Vouchers in duplicate in favor of V. Telford Sunday for work done on School Room during the Christmas Holidays.

I may say regarding this account that the School Room received a thorough cleaning. The Woodwork was washed Throughout and the desks scrubbed inside and out. also the windows washed and the floor oiled. Sunday had his wife and another Indian Woman helping him. and I consider they made a good job of it.

Roseneath January 25th 1932.

Sir;- Enclosed please find Bill and Vouchers in Duplicate in favor of Dundas Bros Cobourg, covering Water Fountain, for School Room on Alnwick Indian Reserve,

I may say in connection with this account, that maybee I overstepped my authority regarding this purchase, as the water vessel spoken of was a pail, but after talking the matter over with the teacher, who informed me that a pail was very unsanitary, as the children would dip the cup into the pail and spill a ce certain amount on the floor, and in many instances, when they did not drink all the water that was in the cup they would empty the balance in the pail again,

I made enquiries regarding other rural schools and find that they nearly all use this kind of water container, It is lined inside leaving an inch of air space which enables the water to remain cool for a longer period, Of course it costs more than a pail but will last for years and probably will be as cheap in the end, Trusting this meets with your approval,

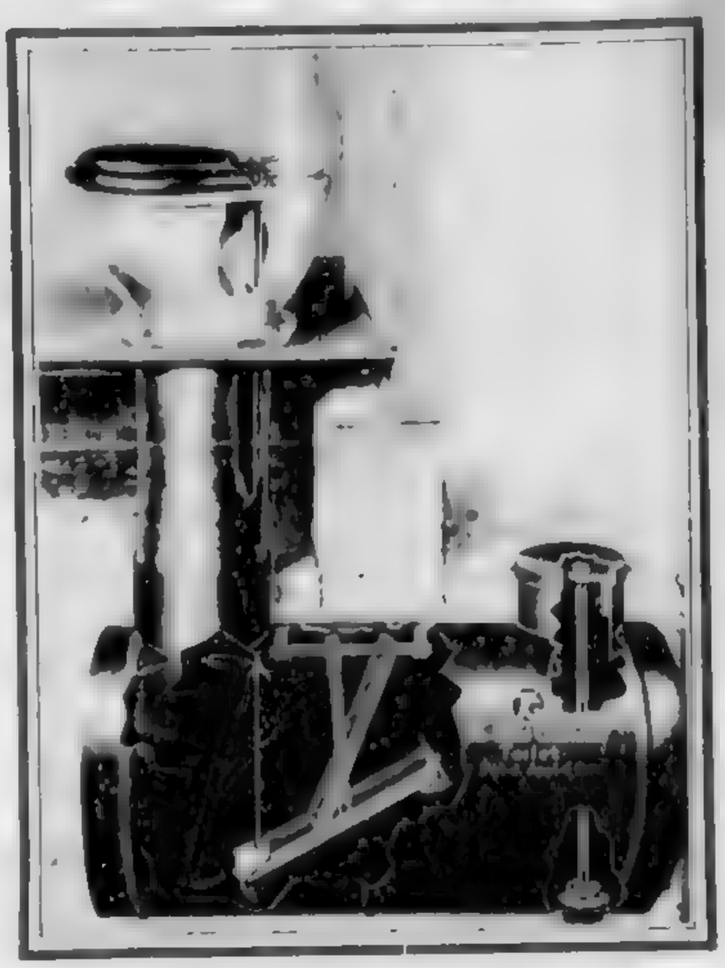
This New "De Luxe" CHEMICAL TOILET

is not only BETTER but actually costs LESS than any other equipment of its kind . . .



T. G. Griffith, the well-known designer of Chemical Toilet Systems, has this year designed his greatest product and brings this to you at a price that now makes it possible for every school board to have a proper—decent—sanitary system installed in their school.

You will find patented improvements in the new "T-G" Toilet that cannot be found or produced in any other toilet—improvements which are the result of twenty years in building toilet equipment for schools. The result—a perfect system—one that you may well be proud of when installed and one that will protect your pupils through the years to come.

Cost of equipment — cost of installation — cost of upkeep — all these have kept many school boards from installing sanitation in their schools. Now you need no longer hesitate — your opportunity has arrived to give the pupils of your school this long needed necessity and improvement. You cannot afford to wait longer.

Larger Capacity—Easily Installed Absolutely Sanitary *and* Odorless

The "T-G" De Luxe Chemical Toilet is so designed and perfected that it may be installed inside any school building the same as a regular water flush system. The principles of this system are worked out on engineering ideas of ventilation and sterilization. The tank is easily placed beneath the floor line. Immediately above this is placed the bowl. The sewage drops directly into the tank, where it comes in contact with the chemical. The chemical dissolves all sewage wastes into liquid form. All odors are drawn off by the system of ventilation pipes.

Note the beautiful vitreous china bowl and fittings. Ventilation pipes may be nickel plated or enamelled as desired. The patented agitator may be withdrawn from the tank very easily—large drainage facilities. The galvanized and ribbed construction embodied in the tank gives guaranteed satisfaction and protects against corrosion and wearing out.

REMEMBER THIS SYSTEM MEETS THE REQUIREMENTS OF ALL HEALTH AUTHORITIES AND LEADING EDUCATIONAL ASSOCIATIONS.

Wherever our new designs have been shown to engineers and health authorities and school inspectors, the improvements shown over other types of toilets on the market have been loudly praised and recommended.

We guarantee our Galvanized "T-G" De Luxe Chemical Toilet Equipment for a period of twenty-five years. This is a completely Made in Canada Product.

THE "T-G" Engineering Sales Company has been organized by Mr. T. G. Griffith, who has marketed his different sewage disposal equipments to school boards for the past twenty years. Associated with Mr. Griffith are his engineers who have made this particular work their special study, and therefore it is only natural that they should be able to build into the new "T-G" De Luxe Chemical Toilet equipment improvements that will overcome many troubles that have been experienced in the past. These engineers are at your service and we offer you our fullest support in trying to solve your problem—and this, of course, without any expense to your board whatever.

DEPARTMENT OF INDIAN AFFAIRS

Dear Sir,-

We have just completed two contracts at Roseneath,Ontario, which we believe will be of interest to your Department in view of the fact that it is connected with the installation of our "T-G" Chemical Toilet equipment at that point.

Your Department also has an Indian school at Roseneath which is under the inspection of Mr. J.W. O'Dell of Cobourg,Ontario. Mr. O'Dell is very pleased indeed with the work that we have done at Roseneath and is quite in sympathy with the installation of these toilets in the Indian School and we are therefore taking the liberty of writing you in this connection.

Enclosed you will find one of our folders describing this particular equipment and if your Department would be interested, we would be very glad indeed to have one of our representatives go down to Ottawa to describe complete details to you.

At the present time, we have a winter campaign on with the schools of Ontario where these schools are within reasonable distance of Toronto. This proposition embodies the complete installation of two equipments in any rural school for the sum of Two Hundred Dollars. This may be of interest to your Department, as the regular giverning the installation of this same material generally averages around $275 to $300.

We sincerely trust that our information will be of interest to you and that you will make inquiries through Inspector O'Dell at Cobourg in regard to our work.

Sir;-

At the last regular meeting of the Alnwick Band, Council, a resolution was passed, asking that a box stove be installed in the school, to take the place of the furnace, which they claim is consuming too much wood,

I may say in this connection, that this is just a fancy, that has burst forth from one or two, of them all at once, I daresay there will be a little more wood used this winter than usual, owing to the cold weather that prevailed so early in the season, making it a long winter, and will naturally take more fuel, but the furnace is giving good satisfaction, and in my opinion, would be a very foolish move, to discard it for a stove,

Ottawa, December 22, 1933.

Sir:

I have your letter of the 19th instant, relative to the resolution of the Alnwick Band, that a stove be installed at the Alnwick Indian Day School, to replace the present furnace. In reply I have to say that the Department is not prepared to make any change in the heating system at this school at the present time.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Ottawa, February 14, 1934.

Sir:

With reference to your letter of the 9th instant, enclosing an account for slates and slate pencils for the Alnwick Indian Day School, I beg to say that no authority was given for this purchase. For some years' past, the Department has not been supplying slates to Indian schools. Owing to sanitary and other reasons, the Department wishes the use of slates discontinued. The account is, therefore, not being paid.

With reference to your other letter of the 9th instant, you may have a new lock installed on the door of the supply room at the Alnwick School. It is noted that this will cost approximately $2.25.

Your obedient servant,

A. F. MacKenzie,
Secretary.
